Mishaps that resulted in tears and a constant questioning of my choice to switch careers are the short story of my earliest teaching memories. Fortunately, looking back, I can laugh at the many foibles of that experience. It is with love that I invite you, new or older teaching professionals, to embrace this miraculous journey. This book will help ease the growing pains of being a teacher, offering professional reflection and connection. You are not alone. Teaching Students to Self-Assess Starr Sackstein, 2015-10-26
In this essential guide, Starr Sackstein, a National Board Certified Teacher, explains how teachers can use reflection to help students decipher their own learning needs and engage in deep, thought-provoking discourse about progress. She explains how to help students set actionable learning goals, teach students to reflect on and chart their learning progress, and use student reflections and self-assessment to develop targeted learning plans and determine student mastery. Filled with practical tips, innovative ideas, and sample reflections from real students, this book shows you how to incorporate self-assessment and reflection in ways that encourage students to grow into mindful, receptive learners ready to explore a fast-changing world.

When Art Spiegelman's *Maus*, a two-part graphic novel about the Holocaust, won a Pulitzer Prize in 1992, comics scholarship grew increasingly popular and notable. The rise of serious comics has generated growing levels of interest as scholars, journalists, and public intellectuals continue to explore the history, aesthetics, and semiotics of the comics medium. Yet those who write about the comics often assume analysis of the medium didn't begin until the cultural studies movement was underway. *Arguing Comics: Literary Masters on a Popular Medium* brings together nearly two dozen essays by major writers and intellectuals who analyzed, embraced, and even attacked comic strips and comic books in the period between the turn of the century and the 1960s. From E. E. Cummings, who championed George Herriman's *Krazy Kat*, to Irving Howe, who fretted about Harold Gray's *Little Orphan Annie*, this volume shows that comics have provided a key battleground in the culture wars for over a century. With substantive essays by Umberto Eco, Marshall McLuhan, Leslie Fiedler, Gilbert Seldes, Dorothy Parker, Irving Howe, Delmore Schwartz, and others, this anthology shows how all of these writers took up comics-related topics as a point of entry into wider debates over modern art, cultural standards, daily life, and mass communication. *Arguing Comics* shows how prominent writers from the Jazz Age and the Depression era to the heyday of the New York Intellectuals in the 1950s thought about comics and, by extension, popular culture as a whole. *English Journal*, 1993 Classics Illustrated William Bryan Jones, Jr., 2024-04-17
In its expanded third edition, this definitive work on *Classics Illustrated* explores the enduring series of comic book
