Handbook Of Employment Discrimination Research Handbook Of Employment Discrimination Research:

Handbook of Employment Discrimination Research Laura Beth Nielsen, Robert L. Nelson, 2006-01-01 There is much to understand about employment discrimination law as a social system What drives the growing trend toward litigation To what extent does discrimination persist and why does it vary by organizational and market context How do different groups perceive discrimination and what if anything do they do about it How do employers respond to discrimination law What is the effect of broader political and legal currents What is the relationship between anti discrimination law and social inequality This book presents answers from a distinguished group of scholars and social scientists offering a broad reconsideration of employment discrimination and its treatment in law *Handbook of Employment Discrimination Research* Laura Beth Nielsen, Robert L. Nelson, 2008-11-01 This volume contains a collection of original papers by leading legal scholars and social scientists that develop new perspectives on anti discrimination law with an emphasis on employment discrimination The articles were written for a conference held at Stanford Law School in Spring 2003 that was sponsored by the American Bar Foundation and Stanford Law School The purpose of that conference this volume and ongoing work by the Discrimination Research Group based at the American Bar Foundation and the Center for Advanced Study in the Behavioral Sciences is to advance the social scientific understanding of employment discrimination and the operation of employment discrimination law as a social system and to consider the legal and policy implications of this emerging body of social science Now is a pivotal moment for an attempt at a deeper understanding of discrimination and law After three decades of theoretical development and empirical research on employment discrimination and its treatment in law it is crucial that lawyers social scientists and policymakers assess what we know and do not know about employment discrimination and its treatment by law To date there are several streams of active research that only occasionally engage with each other Economists and sociologists continue to debate the extent to which women minorities and other traditionally disadvantaged groups faced discrimination in labor markets and organizations Organization scholars and legal scholars have begun to map the effect of anti discrimination law on organizational structures and processes and to raise questions about the extent to which the legalization of organizational employment systems represents symbolic or substantive changes in employment practices **Labor and Employment Law Initiatives and Proposals Under the Obama Administration**

Zev J. Eigen, Samuel Estreicher, 2011-01-01 Barack Obama's famous Blueprint for Change part and parcel of the campaign that culminated in his historic election as U S president in November 2008 openly announced his support for the Employee Free Choice Act H R 1409 suggesting that major change was imminent in U S labor and employment law Although promised legislative change has yet to materialize there appears to be a growing consensus that the current system for addressing employment disputes in union represented and non union workplaces deserves renewed attention and needs significant restructuring Thus the issues taken up by this prominent U S conference remain relevant to policy debates which will likely

continue to rage in the United States for years to come Based on papers delivered at the 2009 conference of the New York University School of Law s Center on Labor and Employment Law the 62nd in this venerable and highly influential series the book presents articles updated by the authors to reflect more recent developments as well as new papers to ensure a comprehensive and current analysis of both what has actually changed and which trends seem to be gaining momentum Twenty two outstanding scholars and practitioners in U S labor law and practice pay special attention to such issues as the following mandatory arbitration of employment disputes in non union sector call for improved administration of the National Labor Relations Act in expediting elections and reinstating discriminatees more privatized forms of dispute resolution such as arbitration and mediation card check and neutrality agreements bypassing government processes proposed reform of the Age Discrimination in Employment Act evaluating market based defenses to pay equity claims EEOC initiatives in public enforcement of equality law and challenges to labor relations in state and local governments
