Handbook Of Inaesthetics Meridian Crossing Aesthetics:

Handbook of Inaesthetics Alain Badiou, 2004-10-28 Didacticism romanticism and classicism are the possible schemata for the knotting of art and philosophy the third term in this knot being the education of subjects youth in particular What characterizes the century that has just come to a close is that while it underwent the saturation of these three schemata it failed to introduce a new one Today this predicament tends to produce a kind of unknotting of terms a desperate dis relation between art and philosophy together with the pure and simple collapse of what circulated between them the theme of education Whence the thesis of which this book is nothing but a series of variations faced with such a situation of saturation and closure we must attempt to propose a new schema a fourth type of knot between philosophy and art Among these inaesthetic variations the reader will encounter a sustained debate with contemporary philosophical uses of the poem bold articulations of the specificity and prospects of theater cinema and dance along with subtle and provocative readings of Fernando Pessoa St phane Mallarm and Samuel Beckett

Handbook of Inaesthetics Alain Badiou, Alberto Toscano, 2005 This volume presents a new proposal for the link between philosophy and art Badiou identifies and rejects the three schemes of didacticism romanticism and classicism that he sees as having governed traditional aesthetics and seeks a fourth mode of accounting for the educative value of works of art

Multiple Arts Jean-Luc Nancy, Simon Sparks, 2006 This collection of writings by the renowned French critic and poet Jean Luc Nancy delves into the history of philosophy in order to locate a fundamentally poetic modus operandi representing a mix of philosophical essays writings about artworks and the author s own artistic creations

Gestures of Ethical Life David Michael Kleinberg-Levin, 2005 For Greek antiquity the question of right or fitting measure constituted the very heart of both ethics and politics But can the Good of the ethical life and the Justice of the political be reduced to measurement and calculation If they are matters of measure are they not also absolutely immeasurable In critical dialogue with texts by Plato Hlderlin Rilke Heidegger Benjamin Adorno Marx Merleau Ponty Levinas and Levi the author argues that the question of measure has become ever more urgent in the context of a modernity pressured by the conditions of a technological economy and a relativism that threatens to destroy a vital sense of moral responsibility and the commitment to justice that underlies the possibility of freedom Conceived as a task for the metaphysics of memory this book explores the normative problematic of measure bringing its deeply buried redemptive promise to appearance in our gestures uses and abuses of the hands the dialectic of tact and the manners of social existence

Inheriting the Future Elizabeth Rottenberg, 2005 This book is an exploration of the notion of drive as it passes from Kant s need of reason to Freud s concept of hallucinatory wish fulfillment to the relentless force of indifferenciation in Flaubert s Bouvard and Panchet

On Touching—Jean-Luc Nancy Jacques Derrida, 2005 This book written out of Derrida s long standing friendship with Jean Luc Nancy examines the central place accorded to the sense of touch in the Western philosophical tradition

The Time That Remains Giorgio Agamben, 2005 Situating Paul s texts in the context of early Jewish

messianism this book is part of a set of critiques devoted to the period when Judaism and Christianity were not fully distinct placing Paul in the context of what has been called Judaeo Christianity The exploration of messianism leads to the other figure discussed Walter Benjamin

Interpretation and Difference Alan Bass, 2006 This book synthesizes Nietzsche Heidegger and Derrida on interpretation and difference in order to provide a new theory of how interpretation functions in psychoanalysis

Open Secrets Anne-Lise François, 2008 Open Secrets contests the dominant influences of utilitarianism expressive individualism and imperatives to self improvement by examining a series of texts in which nothing happens and arguing that these works far from hiding from narrative demands make an open secret of fulfilled experience and yield a revelation without insistence or rhetorical underscoring

Book of Addresses Peggy Kamuf, 2005 This book consists of a series of essays that all turn around questions of the address of speech or writing They argue and demonstrate that meaning is not just a matter of the active intention of a subject for example speaker writer or other signatory of a meaningful act but also of its reception at another's address The book's main concern is therefore with a theory of meaning and of action that is not centered on the intentional self-conscious subject The fifteen chapters explore this problematic within three broad areas love jealousy and sexual difference fiction or literature and political or public discourse The book engages principally with contemporary French thought and includes important new readings of work by Jacques Derrida Hélène Cixous Maurice Blanchot and Jean-Luc Nancy

Rogues Jacques Derrida, 2005 Rogues published in France under the title *Voyous* comprises two major lectures that Derrida delivered in 2002 investigating the foundations of the sovereignty of the nation state The term *voyou* is the French equivalent of rogue state and it is this outlaw designation of certain countries by the leading global powers that Derrida rigorously and exhaustively examines Derrida examines the history of the concept of sovereignty engaging with the work of Bodin Hobbes Rousseau Schmitt and others Against this background he delineates his understanding of democracy to come which he distinguishes clearly from any kind of regulating ideal or teleological horizon The idea that democracy will always remain in the future is not a temporal notion Rather the phrase would name the coming of the unforeseeable other the structure of an event beyond calculation and program Derrida thus aligns this understanding of democracy with the logic he has worked out elsewhere But it is not just political philosophy that is brought under deconstructive scrutiny here Derrida provides unflinching and hard hitting assessments of current political realities and these essays are highly engaged with events of the post 9/11 world

Traces Ernst Bloch, Anthony A. Nassar, 2006 Collects aphorisms essays stories and anecdotes and enacts the author's interest in showing how attention to traces can serve as a mode of philosophizing In an example of how the literary can become a privileged medium for philosophy his chief philosophical invention is to begin with what gives an observer pause

Figures of the Thinkable Cornelius Castoriadis, 2007 A collection of articles lectures and interviews whose apparent variety touching on social criticism psychoanalysis philosophy poetry and science among others is actually strongly focused on one main idea that of autonomous

creative action at the individual and collective levels **Subject Guide to Books in Print**, 1997 **Reflections on Literature and Culture** Hannah Arendt, Susannah Young-ah Gottlieb, 2007 This is the first volume in any language that collects Hannah Arendt's remarkable series of essays and notes on literary figures and cultural questions **H. divine and state power the good and identity politics that every reader or viewer inevitably comes upon are disrupted when one takes into account the role of language both the way in which language is talked about and the way in which it performs. What emerges is a non-prescriptive ethics of another order that offers a resistance to power and simplistic conceptualizations of truth. An emancipation from the must be that implies an ever-to-be renewed renegotiation, a responsibility that has much to do with the act of critique or interpretation.
