Head Cases Stories Of Brain Injury And Its Aftermath:

Head Cases Michael Paul Mason, 2008-04-01 A case manager shares stories of patients and families journeys and deftly conveys the frustrations and inequities of traumatic brain injury Mary Roach The New York Times Book Review *Head Cases* takes us into the dark side of the brain in an astonishing sequence of stories at once true and strange about the effects of brain damage Michael Paul Mason is one of an elite group of experts who coordinate care in the complicated aftermath of tragic injuries that can last a lifetime On the road with Mason we encounter survivors of brain injuries as they struggle to map and make sense of the new worlds they inhabit Underlying each of these survivors stories is an exploration of the brain and its mysteries When injured by a bad fall a viral infection or some other misfortune the brain must figure out how to heal itself reorganizing its physiology in order to do the job Mason gives us a series of vivid glimpses into brain science the last frontier of medicine and we come away in awe of the miracles of the brain s workings and astonished at the fragility of the brain and the sense of self life and order that resides there *Head Cases* achieves through sympathy and curiosity insight like that which pulses through genuine literature The New York Sun it is at once illuminating and deeply affecting Vivid heartbreaking and movingly written The Seattle Times Tells stories of tremendous courage and perseverance as survivors and their families work to re establish the everyday skills they had before their injury The strange effects of neurological damage will draw fans of Oliver Sacks but Mason s poignant and caring accounts of his clients lives are sure to touch the hearts of a wide range of readers Publishers Weekly starred review [Brain Trauma](#) Hal Marcovitz, 2009-03-13 Author Hal Marcovitz explores brain trauma in detail covering its causes and effects treatments prevention and medical advances Charts and graphs share important information visually while fascinating photographs support the text Readers will also hear from sufferers through their personal stories *Concussions and Other Brain Trauma* Ryan Nagelhout, 2017-07-15 Traumatic brain injuries are dangerous especially if they are not recognized and treated promptly Readers discover that repeated brain injuries may result in effects such as changed personality depression and memory loss In contact sports such as football and hockey the chance of sustaining a concussion or other form of brain trauma increases dramatically so this information is especially valuable for young athletes Through detailed photographs and informative infographics readers are presented with additional information about the effects of brain trauma as well as precautions they can take to avoid it **Insight into Acquired Brain Injury** Christine Durham, Paul Ramcharan, 2017-07-26 This book offers an empowering approach to working with people with an acquired brain injury ABI based upon the views and perspectives of people with ABI themselves Drawing upon Christine Durham s own ABI experience and Paul Ramcharan s engagement in disability research over a quarter of a century this volume gives voice to 36 participants with ABI as well as carers and other professionals from both urban and rural areas This unique perspective provides a long needed empathic alternative to the deficit based model of ABI that dominates medical literature and existing rehabilitation models In *Insight into Acquired Brain Injury* the authors use

educational and learning principles together with Durham's extensive archive of experiential data to offer a reframing of the nature and experience of ABI and relevant a set of practical real world tools for practitioners These ready to adopt and adapt scripts guided interviews research checklists thinking tools and other innovative techniques are designed to engage with people and colleagues about brain injury as a means of supporting them to feel and fare better With compassion and first hand awareness Insight into Acquired Brain Injury provides a much needed perspective that deepens current understanding and translates the complicated life worlds of people living with ABI in order to motivate empower and increase their participation

Unlocking My Brain; Through the labyrinth of Acquired Brain Injury Christine Durham, 2014-02-01 I did not want anyone to ever feel as disorientated and bewildered as I did Unlocking my Brain Through the labyrinth of Acquired Brain Injury brings to life Christine's personal experience of brain injury from losing her vision and being unable to walk talk or write Christine regained her life her thoughts and her career In 1991 Christine was involved in a horrific car accident and suffered extensive injuries including Acquired Brain Injury ABI Unlocking my Brain shows the incredible plasticity of the human brain as well as the plasticity of the human spirit An educator by training Christine Durham taught at Ivanhoe Girls Grammar School for over twenty years and was a founding member of VAPS an education program aimed to enrich the thinking and understanding of students Determined to return to teaching Christine developed and conducted over 4 000 Philosophy and Thinking workshops with her students and started her career as one of Australia's most inspirational writers At aged 67 despite her double vision Christine obtained a PhD in Health Sciences and discovered even more effective ways to help people with brain injury help themselves
