

PRICE PUMP Installation, Operating, and Maintenance Manual

Type XJ/JB Series

Caution:
Before installing,
repairing or performing
maintenance on this
pump, read these
instructions completely.

Installation Electrical

WARNING!

Ground motor before
connecting to electrical
power supply! Failure to
ground motor can cause
severe or fatal electrical
shock hazard!

Do not ground to gas
supply line!

Disconnect power to
motor before working on
motor or pump!

Match voltage to
nameplate voltage on
motor. Incorrect voltage
can cause fire or seriously
damage motor, voiding
warranty.

Close Coupled - Motor Pumps

These pumps require no special
care in mounting, although it is
suggested that they be firmly
bolted to a level surface.
Adequate air movement over
motor will help prevent
overloads.

Power Frame Mounted Pumps

These pumps must be mounted
on a rigid steel base that will not
warp or flex. Each pump must
be mounted such that the pump
shaft centerline is on center
with the driver shaft center-
line. Pads and/or shims will be
required on either pump, driver
or both. The two shafts should
not touch each other and the
distance between them depends
on the coupling used to connect
them. Misalignment will cause
bearing failure and void
warranty. Pumps are rough
aligned at the factory but
must be realigned after
shipment and installation.
Pulley driven pumps must have
pulleys in line and good belt
tightness practices followed.
