Culture, Deafness & Music ,2025-05-01 This book is a timely and thought provoking book and an important contribution to the expanding transdisciplinary field of Deaf Studies Authors most of whom are Deaf critically examine aspects of Deaf culture reflect on diversity within the Deaf community and advocate for the recognition of Deaf people as a linguistic cultural minority Grounded in critical pedagogy as its theoretical framework the book highlights the persistent oppressive forces faced by Deaf people and also the challenges to these oppressive forces to promote social justice through acts of resistance and affirmation particularly expressed through the arts including music   **Performative Linguistic Space** Neriko Musha Doerr,Jennifer M. McGuire,2023-09-18 This volume explores performative linguistic space namely a space which ushers or hinders linguistic practices Space is made productive as a result of individuals who bring linguistic politics from diverse spaces into new ones By moving away from the notions of discrete units of language and linguistic communities associated with a specific space this volume suggests a fluid productive aspect of space It goes beyond the assumed space linguistic community association through ethnographic accounts that mediate linguistic anthropology cultural geography sociolinguistics and deaf studies   Sign Language Ideologies in Practice Annelies Kusters,Mara Green,Erin Moriarty,Kristin Snoddon,2020-08-10 This book focuses on how sign language ideologies influence manifest in and are challenged by communicative practices Sign languages are minority languages using the visual gestural and tactile modalities whose affordances are very different from those of spoken languages using the auditory oral modality   Biographical Research Ana Caetano,Magda Nico,2022-03-30 Studying people s lives requires acknowledging the multiple entanglements between individual singularity and processes of social patterning This book testifies how challenging and creative the study of these connections can be It gathers international contributions that show in imaginative ways how a person s life or specific

domains of existence can be observed tackled and analysed across time This volume reveals the potential of biographical research in the production of social theory in the development of methodological innovation in giving voice and protagonism to people and in the understanding of the social unfolding of their lives It is a testimony of a vibrant and youthful field with a long tradition in social sciences and with numerous connections with other study areas namely the life course approach The different chapters illustrate how the challenges posed by this type of research focused on the individual level of analysis are particular and what creative responses are required to continue analysing the link between biography and society The chapters in this book were originally published as a special issue of the journal Contemporary Social Science *The Golden Thread* David Clare,Fiona McDonagh,Justine Nakase,2021 This two volume edited collection covers three hundred years of Irish women s playwriting with forty two essays written by leading and emerging Irish theatre scholars and practitioners Volume One looks at the period from 1716 to 1992 exploring such varied themes as the impact of space and place on identity women s strategic use of genre and theatrical responses to shifts in Irish politics and culture <u>Sign Languages</u> Joseph C. Hill,Diane C. Lillo-Martin,Sandra K. Wood,2025-04-30 Sign Languages Structures and Contexts provides a succinct summary of major findings in the linguistic study of natural sign languages Focusing on American Sign Language ASL this book offers a comprehensive introduction to the basic grammatical components of phonology morphology and syntax with examples and illustrations Revised throughout this new edition demonstrates how sign languages are acquired by Deaf children with varying degrees of input during early development including no input where children create a language of their own discusses the contexts of sign languages including how different varieties are formed and used attitudes toward sign languages and how language planning affects language use includes a new chapter on the similarities between signed and spoken languages offers additional visuals and explanations as well as more coverage of signed languages other than ASL is accompanied by updated online support material which hosts links to video clips This engaging and accessible introduction to sign languages is essential reading for students studying this topic for the first time with little or no background in linguistics **The SAGE Deaf Studies Encyclopedia** Genie Gertz,Patrick Boudreault,2016-01-05 The time has come for a new in depth encyclopedic collection of articles defining the current state of Deaf Studies at an international level and using the critical and intersectional lens encompassing the field The emergence of Deaf Studies programs at colleges and universities and the broadened knowledge of social sciences including but not limited to Deaf History Deaf Culture Signed Languages Deaf Bilingual Education Deaf Art and more have served to expand the activities of research teaching analysis and curriculum development The field has experienced a major shift due to increasing awareness of Deaf Studies research since the mid 1960s The field has been further influenced by the Deaf community s movement resistance activism and politics worldwide as well as the impact of technological advances such as in communications with cell phones computers and other devices A major goal of this new encyclopedia is to shift focus away from the Medical Pathological Model that would view

Deaf individuals as needing to be fixed in order to correct hearing and speaking deficiencies for the sole purpose of assimilating into mainstream society By contrast The Deaf Studies Encyclopedia seeks to carve out a new and critical perspective on Deaf Studies with the focus that the Deaf are not a people with a disability to be treated and cured medically but rather are members of a distinct cultural group with a distinct and vibrant community and way of being **The Routledge Handbook of Linguistic Ethnography** Karin Tusting,2019-08-30 The Routledge Handbook of Linguistic Ethnography provides an accessible authoritative and comprehensive overview of this growing body of research combining ethnographic approaches with close attention to language use This handbook illustrates the richness and potential of linguistic ethnography to provide detailed understandings of situated patterns of language use while connecting these patterns clearly to broader social structures Including a general introduction to linguistic ethnography and 25 state of the art chapters from expert international scholars the handbook is divided into three sections Chapters cover historical empirical methodological and theoretical contributions to the field and new approaches and developments This handbook is key reading for those studying linguistic ethnography qualitative research methods sociolinguistics and educational linguistics within English Language Applied Linguistics Education and Anthropology   Sign Language in Action Jemina Napier,Lorraine Leeson,2016-01-26 This book defines the notion of applied sign linguistics by drawing on data from projects that have explored sign language in action in various domains The book gives professionals working with sign languages signed language teachers and students research students and their supervisors authoritative access to current ideas and practice   **Understanding Signed Languages** Erin Wilkinson,Jill P. Morford,2024-01-31 Understanding Signed Languages provides a broad and accessible introduction to the science of language with evidence drawn from signed languages around the world Readers will learn about language through a unique set of signed language studies that will surprise them with the diversity of ways human languages achieve the same functional goals of communication Designed for students with no prior knowledge of signed languages or linguistics this book features A comprehensive introduction to the sub fields of linguistics including sociolinguistics linguistic structure language change language acquisition and bilingualism Examples from more than 50 of the world s signed languages and a brief Language in Community snapshot in each chapter highlighting one signed language and the researchers who are documenting it Opportunities to reflect on how language ideologies have shaped scientific inquiry and contributed to linguistic bias Review and discussion questions useful websites and pointers to additional readings and resources at the end of each chapter Understanding Signed Languages provides instructors with a primary or secondary text to enliven the discourse in introductory classes in linguistics interpreting deaf education disability studies cognitive science human diversity and communication sciences and disorders Students will develop an appreciation for the language specific and universal characteristics of signed languages and the global communities in which they emerge   **Computer Supported Education** Susan Zvacek,Maria Teresa Restivo,James

Uhomoibhi,Markus Helfert,2016-02-10 This book constitutes the refereed proceedings of the 7th International Conference on Computer Supported Education CSEDU 2015 held in Lisbon Portugal in May 2015 The 34 revised full papers presented together with an invited talk were carefully reviewed and selected from 196 submissions The papers address topics such as information technologies supporting learning learning teaching methodologies and assessment social context and learning environments domain applications and case studies and ubiquitous learning **Indigenous Philosophies of Education Around the World** John Petrovic,Roxanne M. Mitchell,2018-01-12 This volume explores conceptualizations of indigeneity and the ways that indigenous philosophies can and should inform educational policy and practice Beginning with questions and philosophies of indigeneity itself the volume then covers the indigenous philosophies and practices of a range of communities including Sami Maori Walpiri Navajo and Kokama peoples Chapter authors examine how these different ideals can inform and create meaningful educational experiences for communities that reflect indigenous ways of life By applying them in informing a philosophy of education that is particular and relevant to a given indigenous community this study aims to help policy makers and educational practitioners create meaningful educational experiences *Languages and Education in Africa* Birgit Brock-Utne,Ingse Skattum,2009-05-11 The theme of this book cuts across disciplines Contributors to this volume are specialized in education and especially classroom research as well as in linguistics most being transdisciplinary themselves Around 65 sub Saharan languages figure in this volume as research objects as means of instruction in connection with teacher training language policy lexical development harmonization efforts information technology oral literature and deaf communities The co existence of these African languages with English French and Arabic is examined as well This wide range of languages and subjects builds on recent field work giving new empirical evidence from 17 countries Botswana Ethiopia Ghana Kenya Madagascar Malawi Mali Mozambique Niger Nigeria Senegal South Africa Swaziland Tanzania Uganda Zambia and Zimbabwe as well as to transnational matters like the harmonization of African transborder languages As the Editors a Norwegian social scientist and a Norwegian linguist both working in Africa have wanted to give room for African voices the majority of contributions to this volume come from Africa **A Cultural Approach to Interpersonal Communication** Leila Monaghan,Jane E.
