Mao The Unknown Story:

Mao Jung Chang, Jon Halliday, 2006-11-14 The most authoritative life of the Chinese leader ever written Mao The Unknown Story is based on a decade of research and on interviews with many of Mao's close circle in China who have never talked before and with virtually everyone outside China who had significant dealings with him It is full of startling revelations exploding the myth of the Long March and showing a completely unknown Mao he was not driven by idealism or ideology his intimate and intricate relationship with Stalin went back to the 1920s ultimately bringing him to power he welcomed Japanese occupation of much of China and he schemed poisoned and blackmailed to get his way After Mao conquered China in 1949 his secret goal was to dominate the world In chasing this dream he caused the deaths of 38 million people in the greatest famine in history In all well over 70 million Chinese perished under Mao's rule in peacetime *Was Mao Really a Monster?* Gregor Benton, Lin Chun, 2013-09-13 Mao The Unknown Story by Jung Chang and Jon Halliday was published in 2005 to a great fanfare The book portrays Mao as a monster equal to or worse than Hitler and Stalin and a fool who won power by native cunning and ruled by terror It received a rapturous welcome from reviewers in the popular press and rocketed to the top of the worldwide bestseller list Few works on China by writers in the West have achieved its impact Reviews by serious China scholars however tended to take a different view Most were sharply critical questioning its authority and the authors methods arguing that Chang and Halliday's book is not a work of balanced scholarship as it purports to be but a highly selective and even polemical study that sets out to demonise Mao This book brings together sixteen reviews of Mao The Unknown Story all by internationally well regarded specialists in modern Chinese history and published in relatively specialised scholarly journals Taken together they demonstrate that Chang and Halliday's portrayal of Mao is in many places woefully inaccurate While agreeing that Mao had many faults and was responsible for some disastrous policies they conclude that a more balanced picture is needed Mao Jung Chang, 2006 Based on a decade of research and on interviews with many of Mao's close circle in China who have never talked before and with virtually everyone outside China who had significant dealings with him this is the most authoritative life of Mao ever written It is full of startling revelations exploding the myth of the Long March and showing a completely unknown Mao he was not driven by idealism or ideology his intricate relationship with Stalin went back to the 1920s ultimately bringing him to power he welcomed the Japanese occupation and he schemed poisoned and blackmailed to get his way After he conquered China in 1949 his secret goal was to dominate the world He caused the deaths of 38 million people in the greatest famine in history In all well over 70 million Chinese perished under Mao's rule in peacetime p 4 of cover **Human Nature and the Causes of War** John David Orme, 2018-04-07 What are the causes of war Wars are generally begun by a revisionist state seeking to take territory The psychological root of revisionism is the yearning for glory honor and power Human nature is the primary cause of war but political regimes can temper or intensify these passions This book examines the effects of six types of regime on foreign

policy monarchy republic and sultanistic charismatic and military and totalitarian dictatorship Dictatorships encourage and unleash human ambition and are thus the governments most likely to begin ill considered wars Classical realism modified to incorporate the impact of regimes and beliefs provides a more convincing explanation of war than neo realism [Access to History: Mao's China 1936-97 Fourth Edition](#) Michael Lynch,2019-07-15 Exam board AQA Pearson Edexcel Level AS A level Subject History First teaching September 2015 First exams Summer 2016 AS Summer 2017 A level Put your trust in the textbook series that has given thousands of A level History students deeper knowledge and better grades for over 30 years Updated to meet the demands of today s A level specifications this new generation of Access to History titles includes accurate exam guidance based on examiners reports free online activity worksheets and contextual information that underpins students understanding of the period Develop strong historical knowledge in depth analysis of each topic is both authoritative and accessible Build historical skills and understanding downloadable activity worksheets can be used independently by students or edited by teachers for classwork and homework Learn remember and connect important events and people an introduction to the period summary diagrams timelines and links to additional online resources support lessons revision and coursework Achieve exam success practical advice matched to the requirements of your A level specification incorporates the lessons learnt from previous exams Engage with sources interpretations and the latest historical research students will evaluate a rich collection of visual and written materials plus key debates that examine the views of different historians **China and Russia** Philip Snow,2023-03-14 A compelling expansive history of the relationship between China and Russia from the seventeenth century to the present Russia and China the largest and most populous countries in the world respectively have maintained a delicate relationship for four centuries In addition to a four thousand kilometer border they have periodically shared a common outlook on political and economic affairs But they are in essence profoundly different polities and cultures and their intermittent alliances have proven difficult and at times even volatile Philip Snow provides a full account of the relationship between these two global giants Looking at politics religion economics and culture Snow uncovers the deep roots of the two nations alignment We see the shifts in the balance of power from the wealth and strength of early Qing China to the Tsarist and Soviet ascendancies and episodes of intense conflict followed by harmony He looks too at the experiences and opinions of ordinary people which often vastly differed from those of their governments and considers how long the countries current amicable relationship might endure *Tyrannical Minds* Dean A Haycock,2019-04-02 An incisive examination into the pairing of psychology and situation that creates despotic leaders from the author of Murderous Minds Not everyone can become a tyrant It requires a particular confluence of events to gain absolute control over entire nations First you must be born with the potential to develop brutal personality traits Often this is a combination of narcissism psychopathy Machiavellianism paranoia and an extraordinary ambition to achieve control over others Second your dangerous personality must be developed and strengthened during childhood You might

suffer physical and or psychological abuse Finally you must come of age when the political system of your country is unstable Together these events establish a basis to rise to power one that Stalin Hitler Mao Zedong Saddam Hussein and Muammar Qaddafi all used to gain life and death control over their countrymen and women It is how the leaders of the Islamic State hoped to gain such power Though these men lived in different times and places and came from vastly different backgrounds many of them felt respect for each other They often seemed to recognize their shared dark personality traits and viewed them as strengths Only in rare cases did they show signs of mental disorders Getting inside the heads of foreign leaders and terrorists is one way governments try to understand predict and influence their actions Psychological profiles can help us understand the urges of tyrants to dominate subjugate torture and slaughter Tyrannical Minds reveals how recognizing their psychological traits can provide insight into the motivations and actions of dangerous leaders potentially allow to us predict their behavior and even how to stop them As strongmen and authoritarian leaders around the world increase in number understanding the most extreme examples of tyrannical behavior should serve as a warning to anyone indifferent to the threats posed by political extremism Nine Lives Peter Braaksma,2009 Presents the life stories of those who have been confronted with insurmountable obstacles opposition and oppression Whether it s human rights activist Harry Wu who spent 19 years in a Chinese labour camp or Nobel Laureate and president of Costa Rica Oscar Arias Sanchez each of the nine remarkable people featured here has faced the urgent and inescapable need to dig deep either to rescue themselves or to forge a fresh way forward for others Telling the Truth: China's Great Leap Forward, Household Registration and the Famine Death Tally Songlin Yang,2021-05-25 This book discusses what is often called the Great Leap Famine which occurred in China during the years from 1959 to 1961 Scholarly consensus suggests that 30 million Chinese perished Yang Songlin s book provides an evidence based systematic and substantial rebuff concluding that a much smaller number of deaths can be verified This book is of interest to scholars of China and Chinese development and politics economists and demographers

China since 1949 Linda Benson,2013-11-14 One of the most remarkable stories of the last century is the emergence of China as a modern economic giant poised at the beginning of the 21st century to become a great world power China has embraced the technological advances of the late 20th century and has provided new opportunities for millions of Chinese to improve their lives While problems have accompanied this transformation China s future holds unprecedented prosperity for 1.3 billion Chinese and greatly enhanced international status for the government that is making this possible This new textbook on the People s Republic focuses on the changes which have swept through China for the past half century As well as providing a coherent narrative of the major events in China s recent past China Since 1949 also provides an integrated treatment of the history of women s experiences under the communist regime the Chinese Communist Party s treatment of ethnic minorities within China s borders and the rise of nationalism among the Mongols Uighurs and Tibetans the regional differences within China and the resulting tensions the social implications of the Chinese Communist Party s attempts to

The Darwin Effect Dr. Jerry Bergman, 2014-08-01 Dr Miklos Nyiszli an imprisoned doctor in the Auschwitz camp wrote that Nazi doctors hoped studying twins would solve the problem of faster reproduction of superior races Nazis hoped to have each German mother bear as many twins as possible What Darwin influenced went far beyond the Nazi death camps Shocking political social and scientific legacies of Darwin and his family Disturbing disclosure of how over 45 million Christians were killed in the 20th century because of their faith Revealing and layman friendly presentation This book is the result of 30 years of research and study carefully documenting the common destructive threads that tie some of history's most murderous dictators uncaring capitalists and aggressive social activists to the flawed concepts of Charles Darwin in an effort to change the world and how they succeeded The extermination of races considered lower than others the profound lack of empathy for less advanced cultures the corrupted atheistic justifications for taking the lives of millions all done to advance the agendas of social Darwinism at work in the world today More than mere theoretical discussions we have seen the horrifying evidence of the practical results when applying these destructive and misleading concepts to society in the last 100 years

An Analysis of Frank Dikotter's Mao's Great Famine John Wagner Givens, 2017-07-05 The power of Frank Dikotter s ground breaking work on the disaster that followed China s attempted Great Leap Forward lies not in the detail of his evidence though that shows that Mao s fumbled attempt at rapid industrialization probably cost 45 million Chinese lives It stems from the exceptional reasoning skills that allowed Dikotter to turn years of researching in obscure Chinese archives into a compelling narrative of disaster and above all to link two subjects that had been treated as distinct by most of his predecessors the extent of the crisis in the countryside and the actions hence the responsibility of the senior Chinese leadership In Dikotter s view ultimate responsibility for the catastrophe lies at the door of Mao Zedong himself the Chairman conceived and ordered the policies that led to the famine and he did nothing to reverse them or limit the damage that was being wrought when evidence for their disastrous impact reached him Dikotter s ability to persuade his readers of the fundamental truth of these arguments despite his admission that his access to sources was necessarily limited and incomplete together with the clear structure of his presentation combine to produce a work that has had enormous influence on perceptions of Mao and of the Great Leap Forward itself

Mao's China and the Sino-Soviet Split Mingjiang Li, 2013-03-01 The Sino Soviet split in the 1960s was one of the most significant events of the Cold War Why did the Sino Soviet alliance hailed by its creators as unbreakable eternal and as representing brotherly solidarity break up Why did their relations eventually evolve into open hostility and military confrontation With the publication of several works on the subject in the past decade we are now in a better position to understand and explain the origins of the Sino Soviet split But at the same time new questions and puzzles have also emerged The scholarly debate on this issue is still fierce This book the result of extensive research on declassified documents at the Chinese Foreign Ministry

and on numerous other new Chinese materials sheds new light on the problem and makes a significant contribution to the debate More than simply an empirical case study by theorising the concept of the ideological dilemma Mingjiang Li's book attempts to address the relationship between ideology and foreign policy and discusses such pressing questions as why it is that an ideology can sometimes effectively dictate foreign policy whilst at other times exercises almost no significant influence at all This book will be of essential reading to anyone interested in Chinese Soviet history Cold War history International Relations and the theory of ideology
