Mapping Linguistic Diversity In Multicultural Contexts Contributions To The Sociology Of Language:

Mapping Linguistic Diversity in Multicultural Contexts Monica Barni,Guus Extra,2008-08-27 Within the European context linguistic diversity can be studied at the level of both official state languages and non national languages This comprehensive overview offers insightful crossnational and crosscontinental perspectives on non national languages in terms of both regional and immigrant languages The book focuses on mapping linguistic diversity in both the private and public domain Methodological issues and empirical outcomes are explored for a variety of European and non European countries and languages The book consists of four parts Part 1 provides an introduction to the subject as well as an overview and discussion of migration statistics and language use Part 2 deals with the mapping of regional languages in Europe exemplified by case studies on Welsh Basque and Frisian Part 3 focuses on immigrant languages in Europe and includes case studies from both national Switzerland Italy France and crossnational Multilingual Cities Project perspectives Part 4 turns to mapping linguistic diversity abroad with case studies on Australia South Africa Turkey and Japan European Multilingualism Rosita Rindler Schjerve,Eva Vetter,2012 Expanding on the results of the EU project LINEE Languages in a Network of European Excellence this book pursues a multi focal approach which elaborates on European Multilingualism as an ongoing process of shaping policy and generating scientific knowledge *Towards Openly Multilingual Policies and Practices* Johanna Laakso,Anneli Sarhimaa,Sia Spiliopoulou Åkermarck,Reetta Toivanen,2016-03-03 This book investigates the maintenance of multilingualism and minority languages in 12 different minority communities across Europe all of which are underrepresented in international minority language studies The book presents a number of case studies covering a broad range of highly diverse minorities and languages with different historical and socio political backgrounds Despite current legislation and institutional and educational support the authors surmise there is no guarantee for the maintenance of minority languages suggesting changes in attitudes and language ideologies are the key to promoting true multilingualism The book also introduces a new tool the European Language Vitality Barometer for assessing the maintenance of minority languages on the basis of survey data The book is based on the European Language Diversity for All ELDIA research project which was funded by the European Commission 7th framework programme 2010 2013 *Journal of African Languages and Linguistics* ,2008 **The Sociolinguistics of Script Choice** Peter Unseth,2008 *The Sociolinguistics of Spanish* Francisco Moreno Fernández,Joshua A. Fishman,2008 **Measures of Language Proficiency in Censuses and Surveys** Pádraig Ó Riagáin,2018-02-06 This book offers a systematic analysis of a wide range of questions used in censuses national surveys and international surveys to measure language proficiency It addresses the urgent need in language related survey research for a comprehensive examination of the large existing body of survey data in order to provide a fuller understanding of the extent to which survey results are shaped by the way language proficiency questions are worded While census and survey language proficiency data are extensively used in a wide range of research areas as well as in forming implementing

and monitoring government policies there are as yet no universally accepted survey measures of language proficiency This book will therefore provide a valuable resource for students and scholars working in sociological areas that use census or survey language data such as sociology of language sociology of education politics racial and ethnic studies and cultural studies as well as for policy analysts
