The Social Life of Maps in America, 1750-1860 Martin Brückner, 2017-10-26 In the age of MapQuest and GPS we take cartographic literacy for granted We should not the ability to find meaning in maps is the fruit of a long process of exposure and instruction A cartocoded America a nation in which maps are pervasive and meaningful had to be created The Social Life of Maps tracks American cartography's spectacular rise to its unprecedented cultural influence Between 1750 and 1860 maps did more than communicate geographic information and political pretensions They became affordable and intelligible to ordinary American men and women looking for their place in the world School maps quickly entered classrooms where they shaped reading and other cognitive exercises giant maps drew attention in public spaces miniature maps helped Americans chart personal experiences In short maps were uniquely social objects whose visual and material expressions affected commercial practices and graphic arts theatrical performances and the communication of emotions This lavishly illustrated study follows popular maps from their points of creation to shops and galleries schoolrooms and coat pockets parlors and bookbindings Between the decades leading up to the Revolutionary War and the Civil War early Americans bonded with maps Martin Brückner's comprehensive history of quotidian cartographic encounters is the first to show us how

Cartographies of Travel and Navigation James R. Akerman, 2010-11-15 Finding one's way with a map is a relatively recent phenomenon In premodern times maps were used if at all mainly for planning journeys in advance not for guiding travelers on the road With the exception of navigational sea charts the use of maps by travelers only became common in the modern era indeed in the last two hundred years maps have become the most ubiquitous and familiar genre of modern cartography Examining the historical relationship between travelers navigation and maps Cartographies of Travel and Navigation considers the cartographic response to the new modalities of modern travel brought about by technological and institutional developments in the twentieth century Highlighting the ways in which the travelers operators and planners of modern transportation systems value maps as both navigation tools and as representatives of a radical new mobility this collection brings the cartography of travel by road sea rail and air to the forefront placing maps at the center of the history of travel and

movement Richly and colorfully illustrated Cartographies of Travel and Navigation ably fills the void in historical literature on transportation mapping **Empires of Vision** Martin Jay, Sumathi Ramaswamy, 2014-03-14 Combining visual culture and postcolonial studies this reader shows that an appreciation of the role of visual experience is necessary for understanding how colonialism worked and how colonized subjects spoke to imperial rulers Cartographic Perspectives ,1999

Journal of Medieval and Early Modern Studies ,2009 Early Mapping of Southeast Asia Thomas Suarez, 2012-08-07 With dozens of rare color maps and other documents Early Mapping of Southeast Asia follows the story of map making exploration and colonization in Asia from the 16th to the 19th centuries It documents the idea of Southeast Asia as a geographical and cosmological construct from the earliest of times up until the dawn of the modern era using maps itineraries sailing instructions traveler s tales religious texts and other contemporary sources it examines the representation of Southeast Asia both from the historical perspective of Western exploration and cartography and also through the eyes of Asian neighbors Southeast Asia has always occupied a special place in the imaginations of East and West This book recounts the fascinating story of how Southeast Asia was quite literally put on the map both in cartographic terms and as a literary and imaginative concept *Material Culture* ,2004 *ACSM Bulletin* ,1997 Representations ,2002 **Virginia** ,1995
