Gender Issues in Technical and Vocational Education Programs Bala, Shashi,Singhal, Puja,2019-05-15 As the economic growth and social development of a nation is reliant on its workforce it is essential to increase the workforce s employability through technical and vocational education

Through these programs the nation's workers will be able to acquire skills and flexibility in order to navigate across sectors of the economy and industry. However, due to gender disparities and socioeconomic statuses within society, women from a lower economic background are unable to gain access to these programs, hindering their career development and economic independence. *Gender Issues in Technical and Vocational Education Programs* is an essential critical resource that probes the issue of gender equity in specialized educational programs such as vocational or technical education programs. It also presents global initiatives that are being undertaken to enhance the access to technical and vocational education programs to all citizens. Divided into two sections, this publication provides comprehensive coverage on understanding human resource skilling through vocational and training programs and promoting gender equity through skill development, making it an ideal resource for academicians, researchers, social scientists, educators, policymakers, government officials, and professionals.
