Tydeman, 2001-09-27 This volume brings together a wide selection of primary source materials from the theatrical history of the Middle Ages The focus is on Western Europe between the fall of the Roman Empire and the emergence of markedly Renaissance forms in Italy Early sections of the volume are devoted to the survival of Classical tradition and the development of the liturgical drama of the Roman Catholic Church but the main concentration is on the genesis and growth of popular religious drama in the vernacular Each of the major medieval regions is featured while a final section covers the pastimes and customs of the people a record of whose traditional activities often only survives in the margins of official recognition The documents are compiled by a team of leading scholars in the field and the over 700 documents are all presented in modern English translation **Comic Drama in the Low Countries, C.1450-1560** Ben Parsons, Bas Jongenelen, 2012

During the Middle Ages and early modern period a dramatic culture of astonishing vitality developed in the Low Countries Owing to the activities of organizations known as rederijkerskamers or chambers of rhetoric dramas became a central aspect of public life in the cities of the Netherlands The comedies produced by these groups are particularly interesting Drawing their forms and narratives from folklore and popular ritual and entertaining in their own right they also bring together a

range of important concerns they respond directly to some of the key developments in the period reflecting the political and religious turmoil of the Reformation and Dutch Revolt the emergence of humanism and the appearance of an early capitalist economy This collection brings together the original Middle Dutch text of ten of these comic plays with facing translation into modern English The selection is divided evenly between formal stage plays and monologues and provides a representation of the full range of rederijker drama from the sophisticated Farce of the Fisherman with its sly undermining of audience expectation to the hearty scatology of A Mock Sermon on Saint Nobody and the grim gallows humor of The Farce of the Beggar An introduction and notes place the plays in their context and elucidate difficulties of interpretation from back cover

Dekker, 2001-04-03 The humorous side of Dutch culture of the seventeenth century is obscured by a change that took place around 1670 Religious treatises and books of manners warning against laughter contributed to a new image that of the humourless Calvinist Dutch Mainly based on a manuscript with some two thousand jokes the lost laughter of the Golden Age is reconstructed and analyzed Most jokes are crude and obscene and they throw new light on attitudes towards sexuality religion and other aspects of life Netherlancis Language Research Men and Works in the Study of Dutch ,
