Mbembe,2023-12-08 In Brutalism eminent social and critical theorist Achille Mbembe invokes the architectural aesthetic of brutalism to describe our moment caught up in the pathos of demolition and production on a planetary scale Just as brutalist architecture creates an affect of overwhelming weight and destruction Mbembe contends that contemporary capitalism crushes and dominates all spheres of existence In our digital technologically focused era capitalism has produced a becoming artificial of humanity and the becoming human of machines This blurring of the natural and artificial presents a planetary existential threat in which contemporary society's goal is to precipitate the mutation of the human species into a condition that is at once plastic and synthetic Mbembe argues that Afro diasporic thought presents the only solution for breaking the totalizing logic of contemporary capitalism repairing that which is broken developing a new planetary consciousness and reforming a community of humans in solidarity with all living things Petroleum and Marine Technology Information Guide J. Hutcheon,A. Myers,S. Oue,B. Rodden,J. Whittick,2003-09-02 First published in 1981 as the Offshore Information Guide this guide to information sources has been hailed internationally as an indispensable handbook for the oil gas and marine industries The Routledge Handbook of the Polar Regions Mark Nuttall,Torben R Christensen,Martin Siegert,2018-07-18 The Routledge Handbook of the Polar Regions is an authoritative guide to the Arctic and the Antarctic through an exploration of key areas of research in the physical and natural sciences and the social sciences and humanities It presents 38 new and original contributions from leading figures and voices in polar research policy and practice as well as work from emerging scholars This handbook aims to approach and understand the Polar Regions as places that are at the forefront of global conversations about some of the most pressing contemporary issues and research questions of our age The volume provides a discussion of the similarities and differences between the two regions to help deepen understanding and knowledge Major themes and issues are integrated in the comprehensive introduction chapter by the editors who are top researchers in their respective fields The contributions show how polar researchers engage with contemporary debates and use interdisciplinary and multidisciplinary approaches to address new developments as well as map out exciting trajectories for future work in the Arctic and the Antarctic The handbook provides an easy access to key items of scholarly literature and material otherwise inaccessible or scattered throughout a variety of specialist journals and books A unique one stop research resource for researchers and policymakers with an interest in the Arctic and Antarctic it is also a comprehensive reference work for graduate and advanced undergraduate students Routledge Handbook of the Extractive Industries and Sustainable Development Natalia Yakovleva,Edmund Nickless,2022-05-30 The Routledge Handbook of the Extractive Industries and Sustainable Development provides a cutting edge comprehensive overview of current trends challenges and opportunities for metal and mineral production and use in the context of climate change and the United Nations Sustainable Development Agenda 2030 Minerals and metals are used throughout the world in manufacturing construction infrastructure production of electronics and consumer goods Alongside this widespread use extraction and processing of mineral resources take place in
