

*Uit het 'Woord vooraf' van de auteur citeren wij:*

'Herhaaldelijk heb ik over "het kerkelijk ambt" geschreven. Deze publicaties beslaan ongeveer 25 jaar en zijn geleidelijk dan ook een weerslag van de groeiende "priester crisis". Het was niet mijn bedoeling dit geheel te verwerken tot wat dan, zoals eertijds, "een volledige ambtstheologie" zou moeten heten. Uitgangspunt zijn vier artikelen (uit 1972, 1979 en 1980).

Deze vier artikelen werden bijgewerkt en aangevuld, met enkele hoofdstukken uitgebreid, op enkele details genuanceerd en in hun grondstelling veelal met nieuwe historische gegevens en verscherpte argumenten versterkt. Tenslotte werd dit geheel tot een nieuwe eenheid gestructureerd.

Ook als een theoloog weet, dat wat hij zegt niet iedereen welkom zal zijn, heeft hij – overtuigd van de bevrijdende kracht van de (ook historische) waarheid waarnaar hij naar eer en geweten op zoek is – niet het recht eigen inzicht een voercensuur op te leggen: hij heeft de plicht zijn onderzoekresultaat openbaar te maken.

Voor historische argumenten gelden alleen historische tegenargumenten.'

**Kerkelijk ambt** Edward Schillebeeckx, 1980      **The God of the Pastor** Gerard Zuidberg, 2021-10-01 This publication is the result of an extensive study based on 30 in depth interviews with priests and pastoral workers in Holland An account is given of their relationship with God Jesus and the Holy Spirit their prayer life reflective practice and lifestyle in other words the shape of the spirituality of Dutch pastors Attention is also given to the relation between their spirituality and their ministry How do they influence one another The main focus on the descriptions is on the imagery used by pastors to speak of their spirituality and ministry      **Religion as a Profession** Hans Schilderman, 2005-09-01 This volume offers a conceptual and empirical study of the religious profession It takes as its point of departure professionalisation theory that is discussed and applied to a profession in mainstream religion in this case Dutch Catholic ministry The book entails a well documented empirical study of attitudes of clergy and lay personnel in the Dutch Roman Catholic Church regarding the pastoral profession Their attitudes towards church authority apostolicity sacramental efficacy accession to the office and spiritual role are described extensively The research clarifies the extent to which these religious attitudes act as a positive or negative motif to engage in policies that are aimed at a professional development of the occupation The book offers an excellent insight into basic characteristics of a religious profession      T&T Clark Handbook of Edward Schillebeeckx Stephan van Erp, Daniel Minch, 2019-09-05 Written by leading experts on both the thought of Edward Schillebeeckx and modern theology this handbook offers the first comprehensive study of the historical philosophical political and theological aspects of Schillebeeckx s work As one of the most influential Catholic theologians of the twentieth century he played a key role in the preparations for the theological revolution of the Second Vatican Council and the debates of the post conciliar era His engagement with critical theory hermeneutics and biblical scholarship culminated in his groundbreaking Christological trilogy which marked Schillebeeckx as one of the most significant and innovative thinkers of his time By building an overview of recent research into Schillebeeckx s writing the contributors shed new light on his influence and ongoing relevance in contemporary theology Beginning with the roots of Schillebeeckx s views on metaphysics spirituality and faith the essays then move to his work during and after the Second Vatican Council and then to his engagement with new directions in philosophy and his renewal of classical topics such as creation theological and soteriological anthropology and eschatology Culminating with an analysis of theology and culture this handbook thoroughly explores the implications of Schillebeeckx s theology for a contemporary readership      **The Laity as Participants in the Mission of the Church** Humphrey C. Anameje, 2017-06-05 The church is made up of both the clergy and the laity And for it to properly fulfill the mission for which it was instituted by Christ all its members each according to his or her God given gift must contribute both to the upbuilding of the church and to its mission On the part of the laity their active participation in the general mission of the church ad intra and ad extra has been a great challenge in the life and practice of the church throughout its history The Second Vatican

Council in its spirit of aggiornamento makes some positive difference This work critically examines the conciliar documents some relevant postconciliar documents and theological reflection of some theologians And finally it proffers solutions that will enhance the active participation of the laity in the mission of the church in general and the church in Southeast Nigeria in particular

**Schillebeeckx** Philip Kennedy,1993 Published simultaneously in Great Britain by Geoffrey Chapman London A Michael Glazier book Includes bibliographical references p xiii xvi and index

**Edward Schillebeeckx and Contemporary Theology** Lieven Boeve,Frederiek Depoortere,Stephan van Erp,2010-10-07 What are contemporary theology s challenges What are its fruitful approaches Who are its promising contributors The contributions to this collection of essays try to find answers to these questions by making references to the Dutch Dominican scholar Edward Schillebeeckx using his theology as a starting point for an up to date investigation and discussion The theological work of Edward Schillebeeckx marks the transition from a pre modern to a modern approach to Christian faith Church and theology Already more than two generations of theologians have been trained in dialogue with his thought Contemporary theology testifies often implicitly to the enduring relevance of many of Schillebeeckx s insights while in other instances it pushes his thinking to its limits in order to deal with the current challenges for faith and society

*From Mother of the Redemption to Mother of All Believers* Antoni Nadbrzeżny,2024-12-09 Antoni Nadbrzeżny exposes the personalistic character of Schillebeeckx s Mariology In his book the author presents Mary as a human being whose holiness is great and mysterious According to the Flemish theologian Mary becomes the guarantor of the full and true humanity of Jesus It is a Mariology that finds its foundation in the history of salvation The book does not follow the path of abstract metaphysics but pays more attention to the real and existential elements of Mary s life This reinterpretation finds its source in the application of phenomenological thought In his theological picture of Mary Schillebeeckx rejects all Gnostic idyllic and dualistic thoughts The Mother of God appears as someone who seeks God who shares the tragic fate of the world and recognizes her place and mission in salvation history She participates in human suffering and the trial of faith

**The Hidden History of Women's Ordination** Gary Macy,2012-11-29 The Roman Catholic leadership still refuses to ordain women officially or even to recognize that women are capable of ordination But is the widely held assumption that women have always been excluded from such roles historically accurate How might the current debate change if our view of the history of women s ordination were to change In *The Hidden History of Women s Ordination* Gary Macy argues that for the first twelve hundred years of Christianity women were in fact ordained into various roles in the church He uncovers references to the ordination of women in papal episcopal and theological documents of the time and the rites for these ordinations have survived The insistence among scholars that women were not ordained Macy shows is based on a later definition of ordination one that would have been unknown in the early Middle Ages

Meta-Ecclesiology Cyril Hovorun,2015-08-18

The book explores the variables and invariables of the church Its argument is that self awareness of the church was often a matter of change depending on historical circumstances It encourages appreciating plurality in the church and sets the system of coordinates for identifying the ecclesial self **Kerkelijk ambt** Edward Schillebeeckx (o.p.),1980 **From Synagogue to Church** James Tunstead Burtchaell,2004-03-11 This important work challenges an entrenched scholarly consensus that at the beginning it was inspired leaders not ordained officers who dominated the church James Burtchaell illustrates that the traditional argument on behalf of clerical authority had read history backwards and found the apostles to be the first bishops In this study Burtchaell reads history forwards and demonstrates that first century Jews knew only one form of community organization that of the synagogue The three level structure of offices in the synagogue president elders and assistant emerges in the author s estimation as the most plausible antecedent for the Christian offices which stand forth clearly in the second century Burtchaell s conclusion is that ordained office is a foundational element in Christianity but that while the officers presided from the first they rarely led Thus while Jesus brother James presided as the ordained chief of the mother church in Jerusalem it was Peter Jesus inspired veteran disciple whose voice carried most authority This revisionist historical account of Christian origins creatively subverts the established positions on church order and thus opens up the arguments to new and larger conclusions *The Church as the Community of the Believers* Manuel Rebeiro,2001 *De Exterritoriale Openbaring* J.A. Montsma,2024-12-09 Strijd & inkeer Bart Latré,2011 De jaren 1960 waren op veel gebieden een keerpunt in de geschiedenis van de twintigste eeuw Ook op religieus vlak vond een culturele revolutie plaats De maatschappelijke invloed van de kerk en het christendom op de samenleving verminderde sterk Toch zagen in die periode vele nieuwe religieuze initiatieven het licht E n daarvan was de beweging van progressieve christenen Ge nspireerd door het Tweede Vaticaans Concilie de nieuw linkse maatschappijkritiek van mei 68 de bevrijdingstheologie en de basis gemeenschappen kwamen de progressieve christenen tot een alternatief christendom Ze pleitten voor een democratische kerkordening en voor een kerk die resoluut de kant van de armen koos Maatschappelijke kwesties analyseerden ze vanuit een nieuw links gedachtegoed Op spiritueel vlak beklemtoonden ze een wereldgerichte religieuze beleving Latré bestudeert de christelijke beweging tegen de achtergrond van evoluties in kerk en samenleving tussen 1958 1990 **Humanity in the Mystery of God** Jennifer Cooper,2009-06-30 Schillebeeckx s theology is a reflection on the nature of God who is both creator and redeemer his theology is a treatise on the God who is God for humanity This means of course that his theology is always both a reflection on the nature of God and on the meaning of humanity and hence there is a theological anthropology at the centre of his whole theological enterprise The definition of humanity is given in the relationship between the mystery of God the God who is both transcendent and immanent and the mystery of humanity For Schillebeeckx the meaning of humanity is revealed and established in the mystery of God as a vocation to intimacy with God This intimacy is described both as a dependence upon God and as a situated freedom and hence the description of humanity which emerges from Schillebeeckx s

treatise on God holds together humanity's metaphysical and moral significance. At the heart of this theocentric anthropology is its christological structure. Schillebeeckx develops a sacramental christology in light of his interpretation of Christ's incarnation. The relation of incarnation to the death, resurrection and glorification of Christ establishes a sacramental theological anthropology. The meaning of humanity is given in its creative, salvific, sanctifying, participative and personal relation to the God who is God both of creation and of covenant. This book develops an interpretation of Schillebeeckx's theological anthropology by analysing his theology of revelation and grace and by examining the christological structure of his theology. This christology centres on an interpretation of the incarnation in which the fully personal nature of Christ's humanity is key. This christology establishes the sacramental nature of humanity and hence Schillebeeckx's description of the meaning of human nature is also a theological description of the meaning of human action.
