Organizing Global Technology Flows Pierre-Yves Donzé, Shigehiro Nishimura, 2013-11-12 Research on the international transfer of technology in economics and management literature has primarily focused on the role of countries and that of companies in particular multinational enterprises MNEs Similarly economic and business historians have tended to view international technology transfer as a way for economically backward countries to acquire new technologies in order to catch up with more developed economies This volume provides a more in depth understanding of how the international transfer of technologies is organized and in particular challenges the core periphery model that is still dominant in the extant literature By looking beyond national systems of innovation and statistics on foreign trade patent registration and foreign direct investment the book sheds more light on the variety of actors involved in the transfer process including engineers

entrepreneurs governments public bodies firms etc and on how they make use of a broad set of national and international institutions facilitating technology transfer Put differently the volume offers a better understanding of the complexity of global technology flows by examining the role and actions of the different actors involved By bringing together a number of original case studies covering many different countries over the period from the late 19th to the 21st century the book demonstrates how technology is being transferred through complex processes involving a variety of actors from several countries using the national and international institutional frameworks **Autocar** ,2005 Torque ,2007-04 Singapore s best homegrown car magazine with an editorial dream team driving it We fuel the need for speed **The Report: Tunisia 2016** Oxford Business Group,2016-05-04 With Tunisia s young population and well maintained infrastructure there is the opportunity for strong economic development The establishment of democratic rule in the country should also be a major boon in terms of creating a positive business environment characterized by the strong rule of law Tunisia has a deserved reputation for stability and moderation and while the political dialogue will undoubtedly be trying and the security environment a challenge recent months have shown the propensity of key actors to focus on consensual policies which bodes well for Tunisia s long term outlook Daily Graphic , *Daily Graphic* Yaw Boadu-Ayeboafah,2005-01-27 **Blackass** A. Igoni Barrett,2016-03-01 Furo Wariboko a young Nigerian awakes the morning before a job interview to find that he s been transformed into a white man In this condition he plunges into the bustle of Lagos to make his fortune With his red hair green eyes and pale skin it seems he s been completely changed Well almost There is the matter of his family his accent his name Oh and his black ass Furo must quickly learn to navigate a world made unfamiliar and deal with those who would use him for their own purposes Taken in by a young woman called Syreeta and pursued by a writer named Igoni Furo lands his first ever job adopts a new name and soon finds himself evolving in unanticipated ways A Igoni Barrett s Blackass is a fierce comic satire that touches on everything from race to social media while at the same time questioning the values society places on us simply by virtue of the way we look As he did in Love Is Power or Something Like That Barrett brilliantly depicts life in contemporary Nigeria and details the double dealing and code switching that are implicit in everyday business But it s Furo s search for an identity one deeper than skin that leads to the final unraveling of his own carefully constructed story
