Kindergarten Lesson Plans For Inquiry About Leaves:

The Early Childhood Curriculum Suzanne L. Krogh, Pamela Morehouse, 2014-02-18 Based on research that demonstrates the powerful advantages of integrating the curriculum while providing inquiry opportunities The Early Childhood Curriculum shows how to make such an approach work for all children preschool through the primary grades The text demonstrates how to confidently teach using inquiry based methods that address the whole child while also meeting and exceeding academic standards Offering a foundation in early childhood theory philosophy research and development the 2nd edition of this unique textbook helps future teachers as well as current educators understand the why of curriculum in early childhood and invests them with the skills they need to move from simply following a script to knowledgeably creating curricula on their own Since each curricular subject has its own integrity there is a chapter for each discipline grounding the reader in the essentials of the subject in order to foster knowledgeable and effective integration The 2nd edition of The Early Childhood Curriculum includes information on the most recent trends in national curriculum standards particularly in regard to the Common Core State Standards Initiative and the Next Generation Science Standards Coupled with this information are practical suggestions for meeting standards while still providing young learners with a truly child centered educational experience Chapters contain real life vignettes that demonstrate inquiry and integration in practice The entire text reflects the philosophy that the use of inquiry to seek and obtain information is one of the most valuable and powerful tools children can acquire along the way to becoming lifelong learners

Science Activities: The Leaves Are Falling in Rainbows

Michael Knight, Ph.D., Terry Lynne Graham, 1987-10 The excitement and discovery of science exploration is introduced to young children with these thought provoking activities Successfully child tested these hands on experiences help your children learn about science the way children learn best Knowledge is gained and retained as children play with water air plants magnets and more Activities extend from independent exploration to classroom projects An excellent resource for the science learning center

Teaching Kindergarten Julie Diamond, Betsy Grob, Fretta Reitzes, 2015 Today s kindergarten teachers face enormous challenges to reach district mandated academic standards This book presents a model for 21st century kindergartens that is rooted in child centered learning and also shaped by the needs and goals of the present day Classroom teachers working with diverse populations of students and focusing on issues of social justice provide vivid descriptions of classroom life across urban and rural communities Teacher reflections and commentary from the editors link teacher decisions to principles of good practice Teaching Kindergarten illustrates how a progressive learning centered approach can not only meet the equity and accountability goals of the Common Core State Standards but go well beyond that to educate the whole child Book Features Rich examples of learner centered teaching in diverse public school settings Depictions of integrated curricula in science social studies math arts and language arts that address Common Core and other standards Connections to recent developmental research and pedagogy Programs promoting social and cultural awareness

Photographs of children's projects and a list of children's books The teachers you are about to read tell stories no one has heard before at a time when it is difficult to hear the individual voices in the classroom No grade level needs this soul searching examination more than kindergarten This book maps a remarkable number of journeys toward this goal I hope teachers will be inspired to add their own voices to the process of renewal Vivian Gussin Paley internationally renowned educator author and classroom teacher We need this book It speaks eloquently to what good practice looks like in real schools as well as what it means to be a good teacher These are stories of amazing educators whose work addresses what equity is all about starting with 5 year olds It's too bad the next 12 years of school are not more like these kindergarten classrooms Deborah Meier education activist senior scholar at New York University's Steinhardt School of Education
