

Kindle Ebook Library

Robert R. Redfield

Kindle Ebook Library:

The eBook Revolution Kate Sheehan, 2013-01-03 The book ecosystem is radically changing and libraries must change with it This book tackles the controversial discussion about eBooks and explores librarian driven solutions and visions for the future of libraries in the 21st century The eBook Revolution A Primer for Librarians on the Front Lines is exactly what its title promises an essential resource for librarians facing the formidable task of coordinating the library wide transition to eBooks and fielding questions from patrons about eBooks on a daily basis After an introduction that covers the basics of eBooks and current eBook technology the author puts things into perspective documenting the changes that have occurred over the past decade She also delves into important eBook issues identifying librarian driven solutions and providing glimpses of what libraries in the near future will likely be like The book examines perennially critical issues such as accessibility resource sharing and the digital divide within the context of eBook technology and provides a clear framework for discussing eBooks thereby enabling readers to make informed decisions regarding their own organizations

Trade eBooks in Libraries

Paul Whitney, Christina Castell, 2016-12-05 With the advent of downloadable retail eBooks marketed to individual consumers for the first time in their history libraries encountered an otherwise commercially available text format they were prevented from adding to their collections Trade eBooks in Libraries examines the legal frameworks which gave rise to this phenomenon and advocacy efforts undertaken in different jurisdictions to remove barriers to library access The principal authors provide a general historical overview and an analysis of library eBook principles developed by a variety of library associations and government reviews In addition experts from twelve countries present summaries of eBook developments in their respective countries and regions

encircled the globe importing Asian luxuries such as spices textiles and teas But it also conquered much of India with its private army and broke open China s markets with opium The Company s practices shocked its contemporaries and still reverberate today This expanded edition explores how the four forces of scale technology finance and regulation drove its spectacular rise and fall This story provides vital lessons on both the role of corporations in world history and the steps required to make global business accountable today

Inventing Africa Robin Derricourt,2011-03-04 *Inventing Africa* is a critical account of narratives which have selectively interpreted and misinterpreted the continent s deep past Writers have created alluring images of lost cities vast prehistoric migrations and golden ages of past civilisations Debates continue on the African origins of humankind the contributions of ancient Egypt to the world and Africa s importance to global history Images of Africa simplifying a complex and diverse continent have existed from ancient Mediterranean worlds slave trading nations and colonial powers to today s political elites ecotourists and aid givers Robin Derricourt draws on his background as publisher and practitioner in archaeology and history to explore the limits and the dangers of simplifications arguing as with Said s concept of Orientalism that ambitious ideas can delude or oppress as well as inform Defending Africa against some of the grand narratives that have been imposed upon its peoples *Inventing Africa* will spark new debates in the history of Africa and of archaeology

Ireland's Economic History Gerard McCann,2011-09-12 This book explores the complex developments that have shaped Ireland s economic development north and south and led to recurring crises and instability The Irish economy has been traditionally portrayed as a product of its political divisions and the colonial legacy divided and analysed in terms of the hegemonic tensions that exist on the island Influenced by these divisions academics have tended to look at a two region approach to economic development without adequately acknowledging the interactive nature of the island economy as a source of the crises or as a solution to systemic divergence McCann s definitive and dynamic history of the Irish economy circumvents conventional analyses and investigates the economic development of the island economy as a whole highlighting where aggressive differentiation has been divisive and destabilising He concludes by considering an alternative integrated and cohesive process of economic development

Crucible of Resistance Christos Laskos,Euclid Tsakalotos,2013-09-05 Syriza s victory in the recent Greek general election shook the foundations of the Western political establishment and gave hope to the millions suffering the austerity measures imposed by the European Troika Millions asked how did this happen and what is it about Greece that created such a centre of radicalism This insider s account from Syriza s Finance Minister Euclid Tsakalotos and economist Christos Laskos shows that that the narrative of Greek exceptionalism is a myth The blame game that has been played by the EU powers is an ideological tool used to shift attention from the disillusionment and anger at the European and global capitalist economic order By alienating an entire nation of people the Troika has revealed the internal contradictions of the modern neoliberal establishment as well as the inadequacies of the earlier social democratic Keynesian regime Tsakalotos and Laskos suggest that there is very little that differentiates Greece from other countries

struggling under austerity and that parties such as Syriza could usher in a new democratic and socialist era across the continent

Pierre Bourdieu Jeremy F. Lane, 2000-07-20 This beautifully written and lucidly argued study is the most persuasive account of Bourdieu's work yet to be published Lane illuminates much that can puzzle a foreign readership by expertly situating Bourdieu within a French context At the same time he points to those aspects of Bourdieu's writing which are of particular relevance to contemporary debates on questions of citizenship and globalisation He gives a fascinating account of Bourdieu's astonishingly prescient analyses of the impact of the expansion of higher education the influence of the mass media the growth of the culture industries and the changing nature of political and social elites not just in France but in the western world Professor Jill Forbes Queen Mary and Westfield University of London [New Directions in Economic Anthropology](#)

Susana Narotzky, 1997-04-20 Using an historical perspective Narotzky highlights the interdependent nature of the contemporary world economy and includes case studies of Western societies She gives special emphasis to current issues such as the anthropology of work the informal economy and the cultures of industrialisation *North Korea on the Brink*

James Glyn Ford, Soyoung Kwon, 2007-11-20 North Korea's development and testing of nuclear weapons made headlines in the Western media but is the country really a threat to the rest of the world This accessible introduction examines the country's history and focuses on whether the threat is realistic or exaggerated by the US in order to gain international support for the controversial missile defence system It also shows what the EU can do to engage with North Korea and counterbalance the US policy of isolationism North Korea is struggling to survive in the face of US threats of pre-emptive action and regime change by developing its own Weapons of Mass Destruction For the EU the challenge is to resolve this stand off providing North Korea with sufficient security guarantees to enable them to give up their nuclear weapons and enough assistance to enable the economic and social reforms that the country so desperately needs *Understanding Al Qaeda*

Mohammad-Mahmoud Ould Mohamedou, 2011-06-03 This book controversially argues that Al Qaeda has clear aims and that the only way to defeat it is to engage with its arguments in a serious way Since the publication of the first edition in 2006 Mohamedou has brought the text right up to date Starting with Al Qaeda's creation almost twenty years ago and sketching its global mutation Mohamedou explains that there is a cogent strategy to Al Qaeda's actions He shows that the war on terror is failing only serving to recruit more terrorists to Al Qaeda's cause He also puts forward a case for how the international community can best respond Arguing that it is dangerous to dismiss Al Qaeda as illogical and irrational this incisive and original book is important for policy makers and ideal for undergraduates in international relations Middle East studies and peace conflict studies *Amazon Fire Phone: The Missing Manual*

Preston Gralla, 2014-12-16 Unleash the powers of the Amazon Fire phone with help from technology guru Preston Gralla Through clear instructions and savvy advice this fast paced engaging guide shows you how to make the most of Fire phone's innovative features including Firefly Dynamic Perspective one handed gestures and integration with Amazon Prime The important stuff you need to know Gain

Idiotism Neal Curtis,2012-11-09 Idiotism examines society in late capitalism where the market logic of neoliberalism has become the new common sense Using the Greek word idios meaning private Neal Curtis calls this privatisation of the world idiotism Through constructing a new vocabulary with which to understand our society Curtis examines idiotism across the spheres of economics politics and culture drawing on the philosophy and political theories of Martin Heidegger Louis Althusser Franco Berardi Jacques Ranciere and Cornelius Castoriadis This book recasts our conception of the new privatised world s common sense presenting it as not simply a case of false consciousness but an problem related to our own existence

World in Crisis Gabriel Kolko,2009-03-20 *World in Crisis* is a new book from one of the world s leading scholars Gabriel Kolko provides a panoramic overview of the problems facing the US and the world today Each chapter covers a key topic spanning a range of international issues including the current financial crisis the limits of US foreign policy the politicisation of intelligence and why a war with Iran would be likely to culminate in disaster for the US Kolko also outlines why changes in military technology make all wars no matter who fights them increasingly futile At the heart of the book is the idea that the international system is in the grip of a great transition Kolko shows how America is losing its dominance and examines the profound changes we are experiencing as it is forced to accept the limits of its military power

Adopting the Song of Term: An Mental Symphony within **Kindle Ebook Library**

In a global used by displays and the ceaseless chatter of instantaneous communication, the melodic elegance and psychological symphony produced by the written word frequently fade in to the background, eclipsed by the constant sound and disturbances that permeate our lives. However, located within the pages of **Kindle Ebook Library** an enchanting literary value brimming with raw feelings, lies an immersive symphony waiting to be embraced. Constructed by a masterful composer of language, this fascinating masterpiece conducts readers on a mental trip, skillfully unraveling the hidden tunes and profound impact resonating within each carefully constructed phrase. Within the depths of the moving review, we can explore the book is main harmonies, analyze its enthralling writing style, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
