Pigs Fly Rick Carnevali,2014-01-24 This book chronicles the various methods the author inadvertently employed trying to kill
himself during his life On the farm evil machinery attempted to have their way with him on several occasions Later while
recklessly operating old Triumph and Ducati motorcycles he nearly did the deed to the consternation of the folks As a state
patrolman he almost allowed several insane motorists to complete the job left unfinished by the tractors and bikes He was
forced to chase armed psychopaths the wrong way on the freeway and jerked other motorists out their side window after
they tried to run him down Thirteen years of investigating fatal accidents convinced the author to seek a less gruesome line
of work so he took up flying police aircraft instead As a novice flight instructor the author was attacked in the cockpit by a
crazed student pilot who put the plane into a spin While flying state patrol planes he survived engine failures dead stick
landings air borne dog fights with drug runners and icing encounters so severe he still has nightmares Flying state personnel
and governors in the state s turbo prop and turbo jet aircraft had some crazy moments too Hauling prisoners and serial
killers around the country forced the author to always keep his sidearm close by A narrow escape from an inverted flat spin
in an AT6 Texan was the scariest of all He flew corporate jets after retirement and describes some hairy moments locating
radio collared elk while flying over the Olympic Mountains Releasing sterile insects over Jamaica was exciting especially after
several million of them escaped into the cockpit and tried to gag him one morning He feels quite fortunate to have survived
