Hybridity in Spanish Culture Emily Knudson-Vilaseca, Maureen Tobin Stanley, María P. Tajés, 2011-05-25 Hybridity in Spanish Culture is an anthology that explores hybridity in select works from the dawn of Imperial Spain to the twenty first century The phenomenon of hybridity has been pervasive throughout Spanish history The hybrid literary and visual texts studied in this volume ranging from aljamiado writings and the legacy from the convivencia to contemporary immigration narratives blur or erase purportedly fixed boundaries between history and fiction story and History nationality and transnationalism subjectivity and objectivity as well as between genres cultures languages and eras Hybridity constitutes the state of simultaneously belonging to categories that had previously been considered exclusive It renders the concept of pure as a construct a chosen perception a psychic imposition on experience Implicit within hybridity is a fusion of two or more separate factors entities or concepts but the essential aspect of this fusion is that the hybrid text becomes an original Hence hybridity nods to the past but points to the future Hybridity in Spanish Culture written both in Spanish and English as a metahybrid is a collection about hybridity that is a hybrid itself In hopes of blurring borders dissipating taxonomies and dehierarchizing binary oppositions the European and US authors and editors contribute to cultural studies scholarship and underscore the omnipresence and ubiquity of interstitial conditions as they relate to national or cultural identity linguistic crossings inter genre blendings and the conception of home and belonging

Henri Lefebvre and the Spanish Urban Experience Benjamin Fraser, 2011-09-19 An important contribution to the still evolving field of urban cultural studies Henri Lefebvre and the Spanish Urban Experience is the first book to thoroughly apply the French urban philosopher's thoughts on cities to the culture and literature of Spain Fraser shows how Lefebvre's complex view of the city as a mobile phenomenon is relevant to understanding a variety of Spanish cultural products from urban plans and short writings on the urban experience during the nineteenth century by Mariano José de Larra Ramón de Mesonero Romanos and Ildefonso Cerdà to urban theories cultural practices and literary fiction of the twentieth by Luis Martín Santos Juan José Millás Juan Goytisolo and Manuel Delgado Ruiz He pushes on to interrogate even the appearance of Mediterranean space and

Barcelona in recent video games Working through the direct and indirect resonance of the French philosopher s legacy in Spain a comprehensive first chapter grounds the reader in the key concepts of Lefebvre s urban theory that are explored throughout the book his critiques of static space modern urban planning knowledge alienation in everyday life and his emphasis on a method that underscores the importance of movement and rhythm Fraser compellingly shows how each of these aspects of Lefebvre s work relates to the others just as he ties together canonical and non traditional cultural products from Madrid and Barcelona

Representing Childhood and

Atrocity Victoria Nesfield,Philip Smith,2022-12-01 Atrocity presents a problem to the writer of children s literature To represent events of such terrible magnitude and impersonal will as the Holocaust the transatlantic slave trade or the Rwandan genocide such that they fit into a three act structure with a comprehensible moral and a happy ending is to do a disservice to the victims Yet to confront children with the fact of widescale violence without resolution is to confront them with realities that may be emotionally disturbing and even damaging Despite these challenges however there exists a considerable body of work for and about children that addresses atrocity To examine the ways in which writers and artists have attempted to address children s experience of atrocity this collection brings together original essays by an international group of scholars working in the fields of child studies children s literature comics studies education English literature and Holocaust genocide and memory studies It covers a broad geographical range and includes works by established authors and emerging voices

Memory and Spatiality in

Post-Millennial Spanish Narrative Lorraine Ryan,2016-04-22 Focusing on literary texts produced from 2000 to 2009

Lorraine Ryan examines the imbrication between the preservation of Republican memory and the transformations of Spanish public space during the period from 1931 to 2005 Accordingly Ryan analyzes the spatial empowerment and disempowerment of Republican memory and identity in Dulce Chac n s Cielos de barro ngeles L pez s Martina la rosa n mero trece Alberto M ndez s Los girasoles ciegos Carlos Ruiz Zaf n s La sombra del viento Emili Teixidor s Pan negro Bernardo Atxaga s El hijo del acordeonista and Jos Mar a Merino s La sima The interrelationship between Republican subalternity and space is redefined by these writers as tense and constantly in flux undermined by its inexorable relationality which leads to subjects endeavoring to instill into space their own values Subjects erode the hegemonic power of the public space by articulating in an often surreptitious form their sense of belonging to a prohibited Republican memory culture In the democratic period they seek a categorical reinstatement of same on the public terrain Ryan also considers the motivation underlying this coterie of authors commitment to the issue of historical memory an analysis which serves to amplify the ambits of existing scholarship

that tends to ascribe it solely to postmemory
