God's Grand Design William R. Arnold, 2021-06-30 God s Grand Design By William R Arnold Edited by Ms Aurora Payad Arnold God s Grand Design is to restore mankind to its original state of sacred perfection after Adam and Eve fell and created the original sin of disobedience hiding and lying to the Lord When God cursed the serpent for tempting Adam and Eve to be like God he

promised to send his only begotten Son to save humanity He did via the incarnate word in the womb of the immaculately conceived Virgin Mary God wants to be man and receive a new body to defeat death through Jesus Christ Man wants to become God to receive eternal life Man's journey to become God starts from being an ignorant baby gaining knowledge to a cowardly teenager obtaining courage to an adult converting greed to generosity to a wise man changing selfishness to unselfishness and at last to a free man able to think for himself in eternal service to God in his kingdom The journey requires him to know right from wrong good from evil and God's will from man's will and thus defeat evil worldly temptations and demonic possession Through Christ God and man are destined to become one through three advents making the God Man Christ into the new human spirit blessings Then the Man God Jesus becomes the new human flesh to make all things perfect in the sight of God Jesus Christ came as a priest on a donkey to decode the Torah bring knowledge and remove blindness to defeat sin By his death and resurrection he granted free redemption to man's flesh to give him a new body The second coming of Jesus Christ as thief in the night will bring awakening to remove deafness by teaching God's truths to defeat evil As a just judge on a cloud on his third advent the Lord will remove mankind's dumbness to defeat death And then man can become worthy of receiving God's rewards of paradise in heaven or heaven on earth

Science and Religion United Ulrich A. K. Betz, 2024-05-30 This book offers a fresh perspective on how science and religion are connected and how prayer aligns with the laws of nature It explores a holistic worldview where science and religion complement each other shedding light on life society and philosophical and societal concerns We are born into a

world full of mysteries that we only partially understand We don't know where we are coming from we don't know why we live and we don't know where we will go We don't know how everything started we even don't know what everything really is We are living in an era of rapid change marked by disruptive technologies like artificial intelligence and computers Combined with a perception that the old wisdom transferred to us by religion is outdated traditional values and institutions that had worth and power over many centuries are now losing their appeal Science has made remarkable progress but can't answer life's most profound questions about our origins purpose and destination why do we live and what should we do In this book the author begins with an overview of science our understanding of the universe highlighting gaps in our knowledge like what started the Big Bang followed by examples of successful scientific achievements and insights into the limits of science In the subsequent chapters the author examines topics such as mind over matter and the coexistence of evolution creation natural laws and miracles An attempt to answer the theodicy question is also provided in this book where the author connects new scientific discoveries with ancient religious wisdom The book concludes with a chapter devoted to innovation and a call for building a better world This book is a compelling read for scholars professionals and curious laymen alike ready to expand their horizons [The Single's Connection](#) Mary Wan Joo Tay,2010 **Rings on Fire** Desmond Ng,Elaine
