Ki 27 Nate Aces Aircraft Of The Aces:

Ki-27 'Nate' Aces Nicholas Millman,2013-08-20 Introduced into service early in 1938 during a time of extensive re organisation of Army air units the Ki 27 known as the 97 Sen by its pilots achieved its first successes during the so called China Incident against the mainly biplane types operated by the Chinese On 10 April 1938 Ki 27 pilots of the 2nd Daitai later to become the 64th Sentai claimed 24 Chinese biplane fighters shot down for the loss of only two of their own Almost within a year of its combat debut against the Chinese the 97 Sen was to be tested in fighting against the Russians during the Nomonhan Incident of 1939 Initially the 97 Sen proved superior to the Soviet I 16 monoplanes but the latter were hastily modified to better engage the Japanese fighter and the Russian pilots rapidly adapted to exploit their own strengths and the enemy weaknesses A handful of Japanese Army Air Force JAAF aces emerged from this showdown to be lauded by the Japanese press and ever associated with the iconic 97 Sen Shimada the Red Legged Hawk Shihonara the Richthofen of the Orient and Yoshiyama the warrior of the Holombile Plateau These were the glory days for the JAAF and many of the successful 97 Sen pilots went on to become the outstanding leaders and veteran aces of the Pacific War By December 1941 the JAAF had just started to replace the 97 Sen with the more modern Hayabusa but the fixed undercarriage fighter still equipped 17 of the 19 Army fighter Sentai and took the brunt of the offensive against the British and Americans in Southeast Asia and the Philippines as well as the Homeland Defence capability at the time of the Doolittle Raid Initially facing more modern Allied types of fighter the 97 Sen was more than able to hold its own by exploiting its outstanding aerobatic qualities But the writing was on the wall for an unarmoured fixed undercarriage aircraft with two rifle calibre machine guns as the Allies consolidated and began their fightback In China Chennault had already assessed the 97 Sen s strengths and weaknesses describing it as a fighter that climbs like a sky rocket and manoeuvres like a squirrel Prior to the outbreak of the Pacific War he had sent a complete dossier on the type to the USA where it was studiously ignored The pace of re equipment with new types and the resurgence of Allied airpower required JAAF units to continue with the 97 Sen as main equipment especially on the quieter fronts and in Home Defence By 1943 it was considered seriously obsolete but was still being encountered in combat by Allied pilots especially in the air defence role The Ki 27 also found an important secondary role as an armed fighter trainer equipping an important number of training units and flying schools The Mansyu Ki 79 a purpose built trainer produced in both single and two seater versions was based on the Ki 27 It also served expediently in the suicide attack role and in at least one epic air defence combat In February 1945 over Chiba experienced ace WO Masatoshi Masuzawa flying one of the open cockpit trainers downed a US Navt Hellcat Masuzawa had scored his first victory in a 97 Sen over Nomonhan in 1939 and in three months of fighting there had claimed 12 enemy aircraft shot down He epitomised the veteran JAAF flyers who had first taken the 97 Sen to war and survived to see the atom bombs dropped on their homeland

Ki-61 and Ki-100 Aces Nicholas Millman,2015-11-20 This is the story of the elite Japanese Army Air force

JAAF aces that flew the Kawasaki Ki 61 Hien Swallow and the Ki 100 Goshikisen in the Pacific Theatre of World War 2. The former codenamed Tony by the allies was a technically excellent aircraft possessing power stability and a good rate of climb differing radically from the usual Japanese philosophy of building light ultra manoeuvrable fighters. Its pilots soon realised however that the type was plagued by a number of dangerous mechanical issues. Then as the war moved relentlessly closer to Japan's doorstep a desperate expedient innovation to the Ki 61 airframe by fitting it with a radial instead of inline engine resulted in one of the finest fighters of World War 2 the Ki 100. This book uses the latest findings to provide a gripping account of some of the most remarkable and hard pressed fighter pilots of the war. It reveals how these men unlike so many of their unfortunate late war colleagues could surprise Allied aircraft in high performance fighters and claim successes in the face of enormous odds.

A6M Zero-sen Aces 1940-42 Nicholas Millman, 2019-04-18 The Mitsubishi A6M Zero sen was Japan's Spitfire. In continuous development and operational service from the time of the Sino Japanese war in 1940 to the end of the Pacific War in 1945 it is held in almost mythical awe similar to Britain's legendary fighter aircraft. At the time of its operational debut the fighter's design features offered the revolutionary combination of an all round vision canopy cannon armament and a jettisonable drop tank giving it phenomenal range. Together with the flying and tactical proficiency of superbly trained pilots this made the Zero sen a true strategic fighter spearheading Japan's offensive in the Pacific. It was also the mount of a plethora of successful and flamboyant naval aces engaged in both sea and land campaigns. This volume covers the use of the A6M2 variant from its debut in China to the Solomons Campaign and also tells the story of the A6M2 fighter aces of the 4th and Tainan Kokutai.

Desperate Sunset Mike Yeo, 2019-12-26 In a last desperate bid to stave off defeat Japan's High Command launched the terrifying kamikaze attacks. By the middle of 1944 Imperial Japan's armed forces were in an increasingly desperate situation. Its elite air corps had been wiped out over the Solomons in 1942-43 and its navy was a shadow of the force that had attacked Pearl Harbor in 1941. But the Japanese had one last desperate card to play. The Japanese High Command decided that the way to inflict maximum damage on the superior enemy forces was to get the poorly trained Japanese pilots to crash their explosive laden aircraft onto their target essentially turning themselves into a guided missile. The kamikazes announced themselves in the immediate aftermath of the Leyte Gulf naval battles sinking the USS St Lo and damaging several other ships. The zenith of the kamikaze came in the battle of Okinawa which included ten kikusui Floating Chrysanthemum operations which involved up to several hundred aircraft attacking the US fleet. Fully illustrated throughout *Desperate Sunset* examines the development and evolution of the kamikaze using first hand accounts combat reports and archived histories.

Japanese Army Air Force Aces 1937-45 Henry Sakaida, 2012-10-20 Little has been published in English on the Japanese Army Air Force JAAF let alone its most successful fighter pilots no less than 150 of them achieved ace status during eight years of near constant war. They are all listed in this volume. From the arid plains of the Mongolian border region to the lush jungles of New Guinea the JAAF was more than a match for the many opponents it

fought against for control of the skies Indeed even when the mighty Allied war machine proved almost overwhelming from early 1944 onwards the elite fighter pilots of the various sentais within the JAAF fought on with near fanatical loyalty in defence of the Home Islands

F6F Hellcat Aces of VF-9 Edward M. Young,2014-03-20 In the course of two combat tours VF 9 pilots shot down 250 Japanese aeroplanes and produced 20 aces VF 9 was activated in March 1942 as part of Carrier Air Group CAG 9 one of the many air groups the US Navy was hurriedly forming in the aftermath of the Japanese attack on Pearl Harbor Equipped with Grumman F4F Wildcats VF 9 first saw combat during the Allied invasion of North Africa in November 1942 where the squadron engaged Vichy French fighters over Morocco

Returning to the United States VF 9 became one of the first squadrons to receive the Grumman F6F Hellcat and to deploy on the USS Essex the first of its class of fleet carriers that would form the backbone of the US Navy's Fast Carrier Task Force. VF 9 the Hellcat and the Essex all entered combat in the fall of 1943. This book details how in the hands of the squadron's pilots and with other Navy fighter squadrons the Hellcat proved superior to the Imperial Japanese Navy's A6M Zero which had heretofore been the world's premier carrier fighter plane.

Brewster F2A Buffalo Aces of World War 2 Kari Stenman, Andrew Thomas, 2013-06-20 Although designed and built for the US Navy the F2A fought in only one major US engagement the battle of Midway in which F2A pilots managed to shoot down a number of Japanese fighters. Soon replaced by the navy the F2A was exported to Britain where it was nicknamed the Buffalo thanks to its stubby appearance. The British sent most of these fighters to the Far East where they were used in the defence of Singapore and Malaya. It was in the Winter War however that the F2A truly found a home. Calling the plane simply the Brewster the Finnish flew it against the invading Russians. Overall 37 Finns achieved ace status flying the Brewster and it was the Finnish fighter of choice until succeeded by the Bf 109 in 1943.

P-36 Hawk Aces of World War 2 Lionel Persyn, Kari Stenman, Andrew Thomas, 2012-12-20 A fascinating account of a plane that served on both sides during World War 2 and in a variety of environments from Pearl Harbor to the deserts of North Africa to the barren forests of Karelia and the jungles of Burma. The Curtiss P 36 was considered a revolution in performance design in comparison to other US fighters. Yet by the time of the Japanese attack on Pearl Harbor the P 40 was increasingly supplanting the P 36 which the US then exported to France under the guise of the Hawk 75. Flown by the French captured by the Germans sold to the Finns transferred to India and Africa and even incorporated into the RAF the Hawk 75 saw service in every theatre of operations and in a variety of combat environments. This book depicts the interesting life of this plane with colour artwork photographs and first hand accounts.

Aces In Combat Eric Hammel, 2020-12-05 ACES IN COMBAT The American Aces Speak Eric Hammel Adding to the acclaimed first four volumes of his exciting in the cockpit series The American Aces Speak leading combat historian Eric Hammel comes through with yet another engrossing collection of first person accounts by American fighter aces serving in World War II and the Korean War. As are the four earlier volumes Aces In Combat is a highly charged excursion into life and death in the air told by men who excelled at piston engine and jet engine aerial combat and lived to tell about it. It is an emotional rendering of what brave airmen felt and how they fought in the now dim days of America's living national history. View the Battle of Midway through Lieutenant Jim Gray's eyes as he must balance the needs of fellow pilots against the needs of his nation. Share the fear with Captain Charlie Sullivan as would be rescuers deep in the New Guinea jungle attempt to turn him into a blood sacrifice. Crew a Canadian Mosquito night fighter as Lieutenant Lou Luma stalks the wily Hun and bags an ace over an airfield deep in Germany. Share Lieutenant Bud Fortier's and Major George Loving's grief when on missions nearly eight years apart they look on helplessly as trusted wingmen dive to their deaths in treacherous ground attack runs. And watch anxiously as Captain

Tom Maloney hovers between life and death for ten lonely days after stepping on a mine on an enemy held beach These are America's eagles and the stories they tell are their own in their very own words P-40 Warhawk Aces of the CBI Carl Molesworth, 2012-10-20 This book details the colourful experiences of the elite pilots of the AAF's Tenth and Fourteenth Air Forces in the forgotten China Burma India theatre during WW2 Inheriting the legacy of the American Volunteer Group AVG units such as the 23rd FG held the line against overwhelming Japanese forces until the arrival of the first P 38s and P 51s in 1944 The Warhawk became synonymous with the efforts of the AAF in the CBI being used by some 40 aces to claim five or more kills between 1942-45 This volume is the first of four covering the exploits with the P 40 during World War 2 Why Air Forces Fail Robin Higham, Stephen J. Harris, 2006-02-17 Includes two new chapters One of the more interesting and better books on military aviation to appear in the last few years Journal of Military History Since the publication of the first edition of Why Air Forces Fail the debate over airpower's role in military operations has only intensified Here eminent historians Robin Higham and Stephen J Harris assemble a team of experts to add essential new details to their cautionary tale for current practitioners of aerial warfare Together the contributors examine the complex often deep seated reasons for the catastrophic failures of the Russian Polish French British Italian German Argentine and American air services Complemented by reading lists and suggestions for further research this seminal study with two new chapters provides an essential and detailed analysis of defeat Contains many interesting insights and interpretations an excellent introduction to the study of military failure in general and air forces in particular Journal of America's Military Past I recommend this book to those who are interested in air forces and air power whether amateur or professional past present and future Richard Cobbold Bryanston The Yearbook Provides an excellent analysis of the root causes of failure this engaging study goes far beyond the aerial battlefield to examine the circumstances leading to defeat Dennis Drew Colonel USAF Ret

Sino-Japanese Air War 1937-1945 Hakan Gustavsson, 2017-01-20 Morane-Saulnier MS.406 Aces Kari Stenman, Christian-Jacques Ehrengardt, 2014-05-20 The story of the aces who flew the MS 406 an important aircraft not only because it was built in larger numbers than any other French fighter of the period but also because it was the first modern fighter in the Armée de l'Air inventory Although comparable to the British Hurricane and early models of the German Bf 109 it was outclassed when flown against the more powerful and faster Bf 109E With little or no protection no armour or self sealing tanks the MS 406 sustained heavy losses during the Battle of France Too lightly armed and fitted with unreliable weaponry the French fighter struggled to down German bombers It therefore comes as no surprise that only a dozen French pilots became fully fledged aces on the type during this period despite the aircraft being present in significant numbers However a score of pilots who bagged their very first kills at the controls of the MS 406 fought on after the fall of France flying Dewoitine D 520s Spitfires and even Soviet Yak 3s to attain ace status against both Allied and Axis opponents F4F Wildcat and F6F Hellcat Aces of VF-2 Thomas McKelvey Cleaver, 2015-02-20 The first VF 2 was a prewar unit that had been

dubbed the hottest outfit afloat due to the skill of their non commissioned pilots This first unit only saw combat at the Battle of the Coral Sea although VF 2 pilots flying Grumman F4F Wildcats were able to rack up 17 claims there during the bitter 48 hour period of fighting The second Fighting Two was armed with the new Grumman F6F 3 Hellcat fighter Arriving in Hawaii in October 1943 the squadron so impressed Cdr Edward H Butch O Hare the Medal of Honor winning first US Navy ace of World War 2 that he requested the squadron replace VF 6 in his CAG 6 aboard USS Enterprise No unit US Navy unit created more aces than VF 2 whose pilots went into action over the Carolines Marianas Guam Iwo Jima and the Battle of the Philippine Sea Using exquisite photographs and first hand accounts from the elite fliers themselves this volume tells the story of the ace pilots who comprised the original VF 2 and the second
