*Kierkegaard, Eve and Metaphors of Birth* Alison Assiter, 2015-04-29 There has been a recent revival of interest in reading Kierkegaard as an ontologist as a thinker who engages with questions about the kinds of entity or process that constitute ultimate reality This new way of reading Kierkegaard stands alongside a revival of interest in ontology and metaphysics more generally This highly original book concentrates on the claim that Kierkegaard focuses in part on ontological questions and on issues pertaining to the nature of being as a whole Alison Assiter asserts that Being for Kierkegaard following Schelling can be read in terms of conceptions of birthing the capacity to give birth as well as the notion of a birthing body She goes on to argue that the story offered by Kierkegaard in *The Concept of Anxiety* about the origin of freedom connects with a birthing body and that Kierkegaard offers a speculative hypothesis in terms of metaphors of birthing about the nature of Being

*A New Theory of Human Rights* Alison Assiter, 2021-03-01 This book offers a new materialist thesis that focuses on the dynamic biological core of humans shared with other animals and the rest of the natural world to develop a radical theory of human rights It therefore makes a unique contribution to literature and to academic and societal debates both on new materialisms and on human rights Many on the political far right deride the concept of a human right This has occurred in tandem with a growing contempt for the rule of law and for obligations to protect land or the environment to recognize the rights of

minorities or even to respect the various mechanisms of democracy On the other hand contemporary left wing inspired literature has also rejected the concept of a human right as Enlightenment inspired and western This has gone hand in hand with a contestation of essentialism and universalism These theoretical positions have been variously critiqued as racist sexist as well as Eurocentric Drawing on metaphysics and ethics with protagonists drawn from traditions across analytic and continental philosophy and feminist theory Assiter challenges these critics to form a distinctive new materialist position Most people defenders and critics take for granted that the concept of human rights and the universal view of humanity derive from the European Enlightenment However this book develops a different story of its origin from the earlier period of both Aristotle and the Zoroastrian Persian Empire and locates the concept of a right partly in our biological core yet challenges the assumption that this is constructed by language of any kind specifically including scientific discourse **The**

Sponheim, 2017-01-01 Søren Kierkegaard 1813 1855 the

Danish theologian philosopher and preacher in his last years issued a blistering attack on the established Christianity of the nineteenth century That challenge was also a summons to an authentic life of Christian faith With intensity and acumen Kierkegaard diagnosed the spiritual and intellectual ills of modernity and Christendom and offered a constructive upbuilding for active faithful Christian existence One of Kierkegaard s key texts The Sickness unto Death outlines the problem of the human condition sin despair and draws the reader into the heart of the Christian faith the infinite qualitative difference between God and creatures and the paradox of the God man who came to bring abundant life in the form of authentic selfhood grounded transparently in the Creator In this volume Paul R Sponheim introduces readers to Kierkegaard unfolds this pivotal text and its connections to Kierkegaard s theological and ethical worldview and traces the reception and significance of this text in the modern and contemporary theological tradition In this Existing Before God continues the contribution of the Mapping the Tradition series in providing compact yet salient maps of the theological historical social and contextual impact of the most important minds and texts of Christian history **Isotopography** Niels Wilde,2024-08-19 While the concept of place remains undertheorized in Kierkegaard research this study argues that place is at the center of Kierkegaard s thinking The first part of the book shows that Kierkegaard s notion of situatedness as being placed in a socio historical situation conditioned by a situation prior to situatedness points to a realist position and a flat ontology Secondly the book develops a detailed analysis of the ontological structure of the existential place the place we ourselves are and concrete places the places where we are Place opens a qualified space within bounds the existence sphere an atmosphere of elemental attunement and attuned elementality Finally the book collects the dots from part one and two in a topological realist approach to Kierkegaard s theology and three main definitions of God God is love God is that everything is possible and God is the middle term The book concludes that Kierkegaard s existential topography reveals a realist position where we are is never exhausted by being the place where we are Passion for Nothing Peter Kline,2017-09-01 Passion for Nothing offers a reading of Kierkegaard as an apophatic author As it functions in this book apophasis is a flexible term inclusive of both negative theology and deconstruction One of the main points of this volume is that Kierkegaard s authorship opens pathways between these two resonate but often contentiously related terrains The main contention of this book is that Kierkegaard s apophaticism is an ethical religious difficulty one that concerns itself with the whylessness of existence This is a theme that Kierkegaard inherits from the philosophical and theological traditions stemming from Meister Eckhart Additionally the forms of Kierkegaard s writing are irreducibly apophatic animated by a passion to communicate what cannot be said The book examines Kierkegaard s apophaticism with reference to five themes indirect communication God faith hope and love Across each of these themes the aim is to lend voice to the unruly energy of the unsayable and in doing so let Kierkegaard s theological spiritual and philosophical provocation remain a living one for us today Radical Intellectuals and the Subversion of Progressive Politics Michael J. **Being Born** Alison Stone, 2019-09-26 All human beings are born and all human beings die In these two ways we are finite our lives begin and our lives come to an end Historically philosophers have concentrated attention on our mortality and comparatively little has been said about being born and how it shapes our existence Alison Stone sets out to overcome this oversight by providing a systematic philosophical account of how being born shapes our condition as human beings Drawing on both feminist philosophy and existentialist concerns about the structure of meaningful human existence Stone offers an original perspective on human existence She explores how human existence is shaped by the way that we are born Taking natality into account transforms our view of human existence and illuminates how many of its aspects are connected with our birth These aspects include dependency the relationality of the self vulnerability reception and inheritance of culture and history embeddedness in social power situatedness and radical contingency Considering natality also sheds new light on anxiety mortality and the temporality of human life This book therefore bears on death and the meaning of life as well as many debates in feminist and continental philosophy

The Beautiful Animal Michael Lewis, 2018-06-20 Can philosophy conceive of a perfect animal? Can it think of the animal as anything other than an imperfect human? The book attempts to rethink the Hegelian dialectic so as to render it capable of assigning a proper place to the animal and in particular the beautiful animal and to rework the philosophy of nature so as to encompass the fossil. The fossil itself teaches philosophy and in particular the dialectic how it must modify itself in order to encompass the beautiful animal in the form of what we term the fossilised dialectic resistant to the spiritualisation which will always leave the animal behind. If philosophy can admit the animal in this way we might then ask what philosophy can learn from this animal that will have taken up residence in its home. What does a specifically domestic animal teach us? At the very least it shows us that the function we give to the furnishings of the house is not the only one and perhaps therefore that there is no single, unique function. In this way animals teach us the most philosophical lesson: there is to see the world as it is in itself.

*Augustine and Kierkegaard* Kim Paffenroth, John Doody, Helene Tallon Russell, 2017-09-20 This volume is a continuation of our series exploring Saint Augustine's influence on later thought, this time bringing the fifth-century bishop into dialogue with 19th-century philosopher, theologian, social critic and originator of Existentialism, Søren Kierkegaard. The connections, contrasts and sometimes surprising similarities of their thought are uncovered and analyzed in topics such as exile and pilgrimage, time and restlessness, inwardness and the church as well as suffering, evil and humility. The implications of this analysis are profound and far-reaching for theology, ecclesiology and ethics.
