The Connecticut School Journal, 1902 **Resources in Education**, 1986 *The Massachusetts Teacher*, 1952 *University of the State of New York Bulletin*, 1950 **How Do We Make the Greatest America** Dok Kyu Pak, 2019-12-09

There is a crime and a social disorder in any nation's society. But I hope the first-class countries like America do not have that. This book tries to cultivate conflicts/disputes in the great America. These are the result of redistributing social production, cleansing political power, and re-arranging people's duties and rights. Conflicts/disputes reproduce and develop all human social, cultural, and economic values. These raise awareness of human ethics and moral norms and challenge existing forms. This challenge is human life force. Conflicts/disputes criticize social, cultural, artistic, social order, and values and seek higher values in all sectors. Therefore, this book wants to be positive, romantic, and future-oriented. Therefore, there is a contention in this book that conflicts with American law, tradition, or social practice, but it is motivated by conflict. I have not escaped from the intention of building the great America under any circumstances. Logical contradictions also have a productive purpose. Because this book is dialectic.
