This book presents a critical reimagining of education and educational research in addressing practices of representation and their relation to epistemology, subjectivity, and ontology in the context of early childhood education. Drawing on posthumanist perspectives and the immanent materialism of Deleuze and Guattari to conceive of early childhood education, childhood, and indeed adult life in new ways, it highlights the powerful role of language in subjectivity and ontology and introduces affectivity as a concept which can be put to work to undo habitual relations and meanings. It proposes that ethical becomings require the

engagement of an expansion and intensification of a body's affect or capacity and offers readers a provocation for enhancing creative capacity as an ethic. This book is an important contribution to the discussions on methods for living and of ways of thinking commensurate with the orientation of a posthuman turn.

An e-book can be purchased, borrowed, downloaded and used immediately, whereas when one buys or borrows a book, one must go to a bookshop, a home library or public library during limited hours or wait for a delivery. Electronic publishing or ePublishing includes the digital publication of e-books and electronic articles and the development of digital libraries and catalogues. EPUB, short for electronic publication, alternatively capitalized as ePub, ePUB, Epub or epub, with EPUB preferred by the vendor, is a free and open e-book standard by the International Digital Publishing Forum (IDPF). Self-publishing is the publication of any book or other media by the author of the work without the involvement of an established third-party publisher.
