Old Age in the Middle Ages and the Renaissance Albrecht Classen, 2012-02-14 After an extensive introduction that takes stock of the relevant research literature on Old Age in the Middle Ages and the early modern age the contributors discuss the phenomenon of old age in many different fields of late antique medieval and early modern literature history and art history Both Beowulf and the Hildebrandslied both Wolfram von Eschenbach's Parzival and Titivel both the figure of Merlin and the trans-European tradition of Perceval Peredur Parzival then the figure of the vetula in a variety of medieval French English and Spanish texts and of the Old Man in The Stricker's Daniel both the treatment of old age in Langland's Piers the Plowman and in Jean Gerson's sermons are dealt with Other aspects involve late antique epistolary literature early modern French farce in light of Disability Studies the social role of old impotent men in sixteenth and seventeenth century Netherlandish paintings and the scientific discourse of old age and health since the 1500s The discourse of Old Age proves to have been of central importance throughout the ages so the critical examination of the issues involved sheds intriguing light on the cultural history from late antiquity to the seventeenth century *Crafting the Witch* Heidi Breuer, 2009-05-05 This book analyzes the gendered transformation of magical figures occurring in Arthurian romance in England from the twelfth to the sixteenth centuries In the earlier texts magic is predominantly a masculine pursuit garnering its user prestige and power but in the later texts magic becomes a primarily feminine activity one that marks its user as wicked and heretical This project explores both the literary and the social motivations for this transformation seeking an answer to the question why did the witch become wicked Heidi Breuer traverses both the medieval and early modern periods and considers the way in which the representation of literary witches interacted with the culture at large ultimately arguing that a series of economic crises in the fourteenth century created a labour shortage met by women As women moved into the previously male-dominated economy literary backlash came in the form of the witch and social backlash followed soon after in the form of Renaissance witch hunting The witch figure serves a similar function in modern American culture because late industrial capitalism challenges gender conventions in similar ways as the economic crises of the medieval period Myths and Hero Tales

Arthurian Bibliography III: 1978-1992 Caroline Palmer, 1998. Details of all published Arthurian work post 1978 to 1992. If one wants to scoop up nearly everything on an Arthurian subject, there is no substitute for the Arthurian Bibliography series ANGLIA. In 1981, the first Arthurian Bibliography appeared, an exhaustive alphabetical author listing of all critical material recorded in the standard Arthurian bibliographies up to 1978. This was followed in 1983 by the second volume, giving full indexes by topic, key word, and individual work, author, to form a complete subject index of every topic in Arthurian literature. Summaries and reviews were also indicated where they existed. Arthurian Bibliography III updates this invaluable reference work for Arthurian scholars to 1992. Compiled from the BBSIA, it conveniently contains both author listing and subject index in one volume.

Race, Class, and Gender in "Medieval" Cinema L. Ramey, T. Pugh, 2007-02-19. The medieval film genre is not in general concerned with constructing a historically accurate past, but much analysis nonetheless centers on highlighting anachronisms. This book aims to help scholars and aficionados of medieval film think about how the re-creation of an often mythical past performs important cultural work for modern directors and viewers. The essays in this collection demonstrate that directors intentionally insert modern preoccupations into a setting that would normally be considered incompatible with these concepts. The Middle Ages provide an imaginary space far enough removed from the present day to explore modern preoccupations with human identity.
