Love Objects Love Objects:

The Unexpected Love Objects of Dunya Noor Rana Haddad, 2018-03-21 Aspiring photographer Dunya Noor discovers early on that her curious spirit rebellious nature and very curly hair are a recipe for disaster in 1980s Syria And at the tender age of thirteen she is exiled to live with her grandparents in England Many years later in London she meets Hilal the son of a humble tailor from Aleppo and no match for Dunya daughter of the great heart surgeon Joseph Noor But dreamy restless Dunya falls in love with Hilal and they decide to return to Syria together embarking on a journey that will change them both forever Rana Haddad s vivid and satirical debut novel captures the essence of life under the Assad dictatorship in all its rigid absurdity With humor and an unexpected playfulness this is a story of love and light against the forces of conservatism and oppression

On Love Hugh Feiss, 2012 The version of the Rule of St Augustine used at the Abbey of St Victor began with the command to love God above all things and ones neighbor as oneself Not surprisingly then love was a pervasive theme in the writings produced there many of which are introduced and translated here 1 five lyrical essays by Hugh of St Victor d 1141 The Praise of Charity The Betrothal Gift of the Soul In Praise of the Spouse On the Substance of Love What Truly Should Be Loved 2 On the Four Degrees of Violent Love by Richard of St Victor d 1173 which traces the likenesses and differences between romantic love and the love of God 3 Achard of St Victor d 1170 Sermon 5 and two of Adam of St Victor s sequences are examples of how these authors wove love into their writings 4 excerpts from the Microcosmus by Godfrey of St Victor d ca 1195 summarize the central place of love in his humanistic theological anthropology

Queer Objects Guy Davidson, Monique Rooney, 2020-06-29 Pursuing the discursive or material effects of relational queerness this book reflects on how objects can illuminate affect and animate queer modes of being In the early 1990s the queer theorist Eve Kosofsky Sedgwick defined queer as multiply transitive relational and strange rather than a fixed identity In spite of this much of the queer theoretical scholarship of the last three decades has used queer as a synonym for anti normative sexual identities The contributions to this volume return to the idea of transitivity exploring what happens when queer is thought of as a turning toward or turning away from a diverse range of objects including bodily waste frozen cats archival ephemera the writing of Virginia Woolf the Pop art of Ray Johnson the podcast S Town and Maggie Nelson s memoir *The Argonauts* Relevant to those studying queer theory this book will also be of wider interest to those researching identity and the way in which it is represented in a variety of artistic disciplines This book was originally published as a special issue of *Angelaki*

Love and Other Emotions Jason W. Brown, 2018-03-08 This book is an account of the psychology of romantic love in the context of a theory of emotions The account develops out of studies in brain psychology and the extension to topics in process philosophy such as the nature of value and belief and the central role of feeling in mental process The approach is subjectivist that is from the internal standpoint and in this respect it differs greatly from the externalist and objectivist trends in modern cognitive science and empiricist philosophy Love is the ultimate in value so that a theory of love is also a theory of the nature

of value and its relation to feeling belief and to drive and desire The role of intention reason and appraisal is critiqued The relation to other feelings such as jealousy envy anger loss and grief is discussed in terms of a general theory of emotion and the basis in a process account of the mind brain state *Evolutionary Theory and Human Nature* Ron Vannelli, 2012-12-06

Evolutionary Theory and Human Nature is an original highly theoretical work dealing with the transition from genes to behavior using general principles of evolution especially those of sexual selection It seeks to develop a seamless transition from genes to human motivations as bio electric brain processes emotional cognitive processes to human nature propensities various constellations of emotional cognitive forces desires and fears to species typical patterns of behavior This work covers two often antagonistic fields biology and the social sciences It should be of strong interest to anthropologists sociologists sociobiologists psychobiologists and psychologists who are interested in the question of human nature influences on social behavior

Love's Vision Troy Jollimore, 2011-07-05 Love often seems uncontrollable and irrational but we just as frequently appear to have reasons for loving the people we do In *Love's Vision* Troy Jollimore offers a new way of understanding love that accommodates both of these facts arguing that love is guided by reason even as it resists and sometimes eludes rationality At the same time he reconsiders love's moral status acknowledging its moral dangers while arguing that it is at heart a moral phenomenon an emotion that demands empathy and calls us away from excessive self concern Love is revealed as neither wholly moral nor deeply immoral neither purely rational nor profoundly irrational Rather as Diotima says in Plato's *Symposium* love is something in between Jollimore makes his case by proposing a vision view of love according to which loving is a way of seeing that involves bestowing charitable attention on a loved one This view recognizes the truth in the cliché love is blind but holds that love's blindness does not undermine the idea that love is guided by reason Reasons play an important role in love even if they rest on facts that are not themselves rationally justifiable Filled with illuminating examples from literature *Love's Vision* is an original examination of a subject of vital philosophical and human concern

First & Last Things Herbert George Wells, 1908

Reflections on Sentiment Alessa Johns, 2015-12-16 *Reflections on Sentiment* not only addresses current scholarly interest in feeling and affect but also provides an occasion to celebrate the career of George Starr who in more than fifty years of incisive scholarship and committed teaching has elucidated the work of Daniel Defoe and the role of sentimentalism in what was once reductively termed an age of reason and realism Due to the critique Starr spearheaded scholars today can approach with greater assurance the complex interplay of reason and emotion thought and sensibility science and feeling rationality and enthusiasm judgment and wit as well as forethought and instinct as these shaped the scientific religious political social literary and cultural revolutions of the Enlightenment Indeed contributors to this anthology take inspiration from Starr's work to shed new light on Enlightenment thought and sociocultural formations generally offering fresh interpretations of a period in which Reflection and Sentiment circulated mutually influenced each other and contended equally for cultural attention In nine

separate essays they explore the ways sentiment and sentimentalism inflect the moral and ideological ambit of Enlightenment discourses the sociopolitics of religious debate the issues promoted by women writers by gender and family relations the artistic and rhetorical uses of lived language the impacts of cultural developments on novelistic form and the wide shifts in the literary marketplace Deploying tools advanced by new work in animal studies gender criticism media analysis genre studies the new formalism and ethical inquiry and enabled by the power of digitization and new databases the authors of this volume explain how and to what ends denizens of the Enlightenment were touched and moved An Expert Look at Love, Intimacy and Personal Growth Robert M. Gordon, 2008 Why do so many people have problems with love and intimacy Why do some parents scapegoat their children What is Parental Alienation Syndrome What is the MMPI Why must we grieve loss This title presents a model of love relations by integrating evolutionary psychology psychoanalysis cognitive and social psychology First Things Mary Jacobus, 1995 Mary Jacobus combines close readings with theoretical concerns in an examination of the many forms taken by the mythic or phantasmic mother in literary psychoanalytic and artistic representations
