Ceramic Material Systems Martin Bechthold,Anthony Kane,Nathan King,2015-08-31 Far beyond its long standing decorative and protective use architectural ceramics has matured into a material system of great potential Triggered by material research design computation and digital fabrication methods the innovations in ceramic technology are enabling expanded applications for ceramics as a multi functional performative material system Ceramic material systems comprise the full ecosystem from material extraction and processing to the assembly of construction elements and their eventual reuse and recycling This book establishes the state of the art of this quickly emerging field with a particular interest in presenting the knowledge needed for developing project specific solutions that often involve custom ceramic elements The authors provide a rigorous background of the materials and associated technologies as well as inspiration from the very best contemporary buildings using ceramic systems along with an overview of emerging ceramic technologies and research The main section of the book is supplemented with a descriptive and critically commented listing of the most interesting and innovative ceramic products on the market today ranging from interior tile products to complex active fa ade systems and roof products

Keramische Bausysteme Martin Bechthold,Anthony Kane,Jonathan King,2015-07-01 Architectural ceramics have long been confined to decorative surfaces Today innovations in material technology production methods and assembly systems allow applications that combine the materials emotional attractiveness with new functionalities Ceramic materials take the form of building systems that are used for facades roofs and interior walls The functional advantages concern light and climate control in the first place including air purification humidity control and also sound modulation
