It asserts that Jesus was not an actual person but was a creation largely based on earlier stories of deities or god men saviours who had been crucified and descended to and ascended from the underworld. It has been noted that Graves derived many of the most important facts collated in this work from the comprehensive 1833 work *The Anacalypsis* by Sir Godfrey Higgins. These works thus present an early variant of what would come to be known as the Jesus myth hypothesis. *A Skeptic's Investigation Into Jesus* J. P. Hannah, 2020-04-27

Does human life have any significance? The statements below have become widely accepted in the Western world: life is the accidental product of random events; the laws of physics are totally deterministic; science does not accept a connection between physical matter and human consciousness; theism is a conclusion from evidence while faith is speculation; science and faith are incompatible; offering contradicts the existence of a loving omnipotent God; Jesus was a compilation of pagan mythologies or a human teacher who was deified. But do these statements represent eternal truths? Are they logical conclusions based on established facts or merely opinions? What is the evidence? To investigate these and other questions of existence and faith, a skeptical academic objectively explored relevant aspects of philosophy, mythology, history, archaeology, cosmology, quantum physics, biochemistry, and various faiths that finally led to investigation of the Judeo-Christian Scriptures including the Dead Sea Scrolls and the gnostic gospels. The findings of this research not only challenge many modern assumptions but also have significant implications for our understanding of reality. Written with minimum technicality for general readership, this book presents a wide range of interesting and carefully confirmed facts relevant to the above questions. Whether you are an atheist or an agnostic, a Christian or a follower of another faith or have simply not been interested, this investigation provides valuable and surprising insights into the nature of the universe and our place in it.

Herbert Cutner,2000 Did pagan mythologies represent Christs miracles in order to convince them to accept the Christian faith Beyond these miracles is there enough evidence to prove there was a Jesus Cutner says no He also says that the Apostle Paul never portrayed Jesus as a man but as a spiritual being To Paul Christ is found in a spiritual sense within oneself as opposed to being an actual historical personage When the Church accepted Paul this inner reflection was outwardly projected by the Church into an actual man a saviour according to Cutner This might be why Paul was almost rejected by the Church his views posed a danger to those who might rely on their own spiritual knowledge rather than the authority of the Church Whether Jesus lived or not we still have a lot to learn about ourselves and our true place in the universe This book although critical may be useful in that respect Atrahasis Albert T.
