Before you start...

Proper installation is your responsibility. Make sure you have everything necessary for correct installation. It is the personal responsibility and obligation of the customer to contact a qualified installer to assure that electrical and plumbing installation meet national and local codes and ordinances.

Check location where dishwasher will be installed. The location should provide:

- Easy access to water, electricity and drainage.
- Convenient loading — the best position is left or right of kitchen sink.
- Opening that is square for proper dishwasher operation and appearance.
- Cabinet front that is perpendicular to floor.
- Protection against freezing to prevent the water inlet valve, water lines to dishwasher, water lines in dishwasher, and drain from rupturing. (Ruptures from freezing are not covered by the warranty.)
- 1/4" minimum clearance between motor and flooring to prevent motor overheating.
