Knights and Ladies, 1996-10-15 Journey back to the time of knights and ladies in this look at medieval costumes displayed in scenes that capture the pageantry of daily castle life *Medieval Fashions Coloring Book* Tom Tierney, 1998-01-01 Illustrations portray people from every class of society from farmers to courtiers *Courtly Love Undressed* E. Jane Burns, 2014-07-09 Clothing was used in the Middle Ages to mark religious military and chivalric orders lepers and prostitutes The ostentatious display of luxury dress more specifically served as a means of self definition for members of the ruling elite and the courtly lovers among them In *Courtly Love Undressed* E Jane Burns unfolds the rich display of costly garments worn by amorous partners in literary texts and other cultural documents in the French High Middle Ages Burns reads through clothes in lyric romance and didactic literary works vernacular sermons and sumptuary laws to show how courtly attire is used to negotiate desire sexuality and symbolic space as well as social class Reading through clothes reveals that the expression of female desire so often effaced in courtly lyric and romance can be registered in the poetic deployment of fabric and adornment and that gender is often configured along a sartorial continuum rather than in terms of naturally derived categories of woman and man The symbolic identification of the court itself as a hybrid crossing place between Europe and the East also emerges through Burns s reading of literary allusions to the trade travel and pilgrimage that brought luxury cloth to France *Harnessing the Technicolor Rainbow* Scott Higgins, 2009-02-17 Like Dorothy waking up over the rainbow in the Land of Oz Hollywood discovered a vivid new world of color in the 1930s The introduction of three color Technicolor technology in 1932 gave filmmakers a powerful tool with which to guide viewers attention punctuate turning points and express emotional subtext Although many producers and filmmakers initially resisted the use of color Technicolor designers led by the legendary Natalie Kalmus developed an aesthetic that complemented the classical Hollywood filmmaking style while still offering innovative novelty By the end of the 1930s color in film was thoroughly harnessed to narrative and it became elegantly expressive without threatening the coherence of the film s imaginary world *Harnessing the Technicolor Rainbow* is the first scholarly history of Technicolor aesthetics and technology as well as a thoroughgoing analysis of how color works in film Scott Higgins draws on extensive primary research and close analysis of well known movies including *Becky Sharp* *A Star Is Born* *Adventures of Robin Hood* and *Gone with the Wind* to show how the Technicolor films of the 1930s forged enduring conventions for handling color in popular cinema He argues that filmmakers and designers rapidly worked through a series of stylistic modes based on the demonstration restraint and integration of color and shows how the color conventions developed in the 1930s have continued to influence filmmaking to the present day Higgins also formulates a new vocabulary and a method of analysis for capturing the often elusive functions and effects of color that in turn open new avenues for the study of film form and lay a foundation for new work on color in cinema *The Bee Hive*, 1928 *The Legend of Zelda Encyclopedia Deluxe Edition* Nintendo, 2018-06-19 The Legend of

Zelda is one of the most successful franchises of all time with nearly twenty video games and thirty years of history but it all started with a gold cartridge The Legend of Zelda Encyclopedia Deluxe Edition honors the game that started it all by recreating the original gold cartridge as faithfully as possible The book comes with a black polypropylene sleeve lined with velvet flocking and a scale instruction booklet with fun theme appropriate material inside The cover is a gold foil paper with gloss lamination and a spot gritty varnish The details are embossed and debossed It has gold gilding on the top and foredge with black gilding on the bottom This book looks and feels so much like the original cartridge you might find yourself blowing into the bottom before you open it Everything you've ever wanted to know about The Legend of Zelda now in one collectable volume featuring rare and never before seen material on lore locations characters and much more This 328 page book is an exhaustive guide to The Legend of Zelda from the original The Legend of Zelda to Twilight Princess HD Inside you'll discover Even more insights on the lore of Hyrule A comprehensive collection of items and enemies from potions to poes An expanded Legend of Zelda timeline Maps screencaps and rare development sketches of your favorite characters An exclusive interview with Series Producer Eiji Aonuma And much more This the last of The Goddess Collection trilogy which includes Hyrule Historia and Art Artifacts is a treasure trove of explanations and information about every aspect of The Legend of Zelda universe Celebrate over thirty years of The Legend of Zelda with a heartfelt homage to the origins of this legendary franchise
