

T600 AeroCab's new contoured cab roof, integrated side panels and redesigned chassis fairings reduce drag by an additional 3 percent compared to the T600 — making it one of the most fuel-efficient Class 8 trucks on the road today.

Full-length chassis fairings can further reduce turbulence under the sleeper, guiding the wind smoothly back the length of the tractor.

The bumper has been carefully formed to direct the air under and around the cab.

The T600's sleek roofline incorporates an aerodynamic sunvisor with flush-mounted marker and clearance lights.

Here's a wind-cheating mirror design with "breakaway" low-profile mounting brackets. They're heated, adjustable on two axes and incorporate a night vision option — all electronically controlled from inside the cab.
