MI5: British Security Service

Operations, 1909-1945 Nigel West,2019-04-30 The author of The Kompromat Conspiracy shares the history of MI5 from its beginnings in 1909 to 1945 and its role in the Second World War MI5 is arguably the most secret and misunderstood of all the British government departments Its enigmatic title much more than its proper name the Security Service stands in the public mind for the dark world of the secret services In reality it has a very specific responsibility counterintelligence Its purpose is to combat espionage and subversion directed against the UK Nigel West s book traces the history of MI5 from its modest beginnings in 1909 until 1945 focusing on the important role it played in World War II This includes the story of the sixteen enemy agents rounded up in Britain who were either hanged or shot the manipulation of the Axis espionage networks by the use of turned Abwehr agents the famous Double Cross System and the all important check on its success provided by the intercepted German signals decoded at Bletchley and the various deceptions practiced on the German High Command Laced with true anecdotes as bizarre and compulsively readable as any John Le Carr novel this book is the fruit of years of painstaking research West has traced and interviewed more than a hundred people who figure prominently in the story German and Soviet agents counterintelligence officers and even more than a dozen double agents In this newly revised edition Nigel West details the organizational charts which show the structure of the wartime security apparatus in the most accurate and informative account ever written of MI5 before and during the Second World War *Hitler's Secret Army* Tim Tate,2019-07-02 This dramatic expos of Allied subterfuge and betrayal uncovers the treachery of undercover fascists and American Nazi spy rings during the height of World War II Between 1939 and 1945 more than seventy Allied men and women were convicted mostly in secret trials of working to help Nazi Germany win the war In the same period hundreds of British Fascists were also interned without trial on specific and detailed evidence that they were spying for or working on behalf of Germany Collectively these men and women were part of a little known Fifth Column traitors who committed crimes including espionage sabotage communicating with enemy intelligence agents and attempting to cause disaffection amongst Allied troops Hundreds of official files released piecemeal and in remarkably haphazard fashion in the years between 2002 and 2017 reveal the truth about the Allied men and women who formed these spy rings Several were part of international espionage rings based in the United States If these men and women were for the most part lone wolves or members of small networks others were much more dangerous In 1940 during some of the darkest days of the war two well connected British

Nazi sympathizers planned overlapping conspiracies to bring about a fascist revolution These plots were foiled by Allied spymasters through radical and often contentious methods of investigation *The Index* ,1905 **The Knights**

an extraordinary impact on the history of the 20th Century but fourteen in particular can be said to have been demonstrably important. As one might expect few are household names and it is only with the benefit of recently declassified files that we can now fully appreciate the nature of their contribution. The criteria for selection have been the degree to which each can now be seen to have had a very definite influence on a specific course of events either directly by passing vital classified material or indirectly by organizing or managing a group of spies. Those selected were active in the First World War, the interwar period, the Second World War, the Cold War and even the post Cold War era. These include Walther Dew who formed a spy ring in German occupied Belgium during the First World War. This train watching network known as White Lady reported on German troop deployments and possible weaknesses in the German defences. Extending its operations into northern France, the ring provided 75 per cent of the information received by GHQ British Expeditionary Force. By the time of the Armistice in 1918, Dew's group had a staggering 1,300 members. Olga Gray, the 27 year old daughter of a Daily Mail journalist, was employed as a secretary by the Communist Party of Great Britain. In 1931 she undertook a mission for MI5 to penetrate the organization and discover its secret channel of communication with Moscow. Gray learned that the Party's cipher was based on Treasure Island and this breakthrough enabled the Party's messages to be read by Whitehall cryptographers. Renato Levi, an Italian playboy, was the longest serving British agent of the Second World War and is credited with creating the concept of strategic deception. While operating in Cairo as a double agent working for the Abwehr and the British, he was instrumental in misleading the Axis about Allied strength across the Middle East and helped Montgomery achieve his victory over Rommel's Afrika Korps at El Alamein. So successful was Levi in this and other deceptions, he was employed to persuade the Germans that the D Day landings in Normandy were a diversionary feint in anticipation of an invasion in the Pas de Calais. These and other surprising stories are revealed in this fascinating insight into a secret world inhabited by mysterious and shadowy characters, all of whom though larger than life really did exist. **Kaleidocide** David Swavely, 2013-12-10

In this sequel to *Silhouette*, Michael Ares must survive a series of assassination attempts to find out why he was destined to become one of the most powerful men on the planet. In the near future, a post-quake San Francisco is ruled by a private corporation called the Bay Area Security Service (BASS). BASS has established and maintained order in this new city state with a police force of peacers who have a license to kill, and the company has developed a cutting edge antigravity technology coveted by the rest of the world. Michael Ares has recently inherited the throne of BASS and immediately finds himself marked for assassination by an even more powerful leader, the Chinese general Zhang Sun. Michael doesn't understand why he was chosen to play this important role, nor does he know why Sun is so determined to see him dead. But to find out, he will first have to survive not just one attempt on his life, but an unrelenting barrage that has never failed to end in the death of the target. His only hope is to entrust his fate to an old friend whose company provides personal high tech protection that is almost as impressive as the forces arrayed against him. A future world of aerocars, net glasses and neural cyberware provides
