Know Your Enemy The Story Of Rage Against The Machine:

Know Your Enemy: The Story of Rage Against the Machine Joel McIver, 2014-03-17 Rage Against The Machine's founding member and guitarist Tom Morello has given author Joel McIver his blessing to write this unauthorised biography of one of the most pro actively political rock bands on the planet In this book Joel McIver gives a clear and unbiased analysis of the group's stance on a wide range of issues as well as a chronology of their career **The American Flag** John R.

Vile, 2018-10-05 At a time when the U S flag is both a source of both pride and controversy this volume provides the first encyclopedic A to Z treatment of the U S flag in American history culture and law This title is a comprehensive resource for understanding all aspects of the American flag and its relationship to the American people The encyclopedia provides a thorough historical examination of key developments in the flag's design as well as laws and court decisions related to the flag and the First Amendment In relation to the flag's history it also discusses evolving public attitudes about its importance as a national symbol The encyclopedia contains illuminating scholarly essays on presentations of the flag in American politics the military and popular culture including art music and journalism Additionally these essays address important rules of flag etiquette and modern controversies related to them from flag burning to refusing to stand during the playing of the U S National Anthem

Unleashed: The Story of TOOL Joel McIver, 2012-03-07 The very first book about the Anglo American metal band Tool explores not only their uncompromising music but also their unsettling self made image based on mythological symbols and arcane theories The quartet of master musicians Maynard James Keenan Danny Carey Justin Chancellor and Adam Jones emerged from the club scene in Los Angeles in 1990 alongside their friends Rage Against the Machine grabbing the concept of heavy music and then completely redefining it With a sixties style commitment to art and agit prop they have now attained a level of artistic complexity and depth which makes their enduring success a miracle in today's culture of bland corporate entertainment Their rise to glory has been one of the stranger rock tales of our time Joel McIver leaves no detail omitted as he delves into the mystery behind Tool's music *The Self-destruction of the West*
