Guide Scrum Developer Devsena Mishra:

A Guide to Scrum Developer Devsena Mishra, 2015-11-29 Today when most of the organizations are experimenting with Agile Scrum methodology it becomes necessary for an IT Professional to have some familiarity with Agile Engineering practices. *A Guide To Scrum Developer* is for anyone who is a part of Agile project or going to join an agile project and looking for a basic understanding of agile engineering practices. It gives you an overview of Scrum framework, Agile Architecture and Design, Agile Engineering Practices like TDD, Refactoring, Continuous Integration and XP Practices. It also covers information about Tools and Framework that one needs in an agile project because speed and accuracy is the main element of agile environment and for this we need to get rid of manual error prone approach of development and should adopt automation at maximum level possible.

I Dream of a Digital India Devsena Mishra, 2016-01-29 In his first Independence Day speech, our Prime Minister Shri Narendra Modi has called upon the youth of the country to participate and contribute to the growth of the nation. *I Dream of a Digital India* book is my contribution. It is a Digital India encyclopedia that covers different aspects of Digital India programme. I have tried to collect all important facts and records related with Digital India programme. This book helps in understanding the pace and direction in which Digital India programme is moving and gives a clear picture of its progress. Our Prime Minister used to say that 21st century is the century of knowledge and I believe that this book will help you in becoming a knowledge citizen. After writing this book I would say Good Governance has just begun and begun on a very promising note. Here I would like to mention that I skipped challenges part of Digital India because for that critics have already done a good job. If you Google you will find it. I believe that executors and enablers of this programme are capable enough to deal with any kind of challenge that will come their way. Big Foundation takes lots of positive energy of dynamic, dedicated and determined individuals. After the success, such individuals are called creators. Digital India is an ambitious programme and it needs lots of creators. I appeal to the professionals of our country to come forward and play the role of a creator in this programme.
