religious backgrounds who share one commonality they've all experienced and rejected extreme religions. Covering a wide range of religious communities including Evangelical Catholic Jewish Mormon Muslim Calvinist Moonie and Jehovah's Witness and containing contributions from authors like Julia Scheeres, Jesus Land, and the stories in *Beyond Belief* reveal how these women became involved, what their lives were like, and why they came to the decision to eventually abandon their faiths. The authors shed a bright light on the rigid expectations and misogyny so often built into religious orthodoxy, yet they also explain the lure why so many women are attracted to these lifestyles, what they find that's beautiful about living a religious life, and why leaving can be not only very difficult but also bittersweet.

A Life Changing Journey with a Master

Marguerite Jalving, 2018-02-21 Marguerite Jalving is a person with both feet on the ground. With her high heels and elegant style, she stands with her strong temperament firm in her opinions. She gives vent to spontaneous anger as well as enthusiasm and sometimes less humble thoughts to the Master when she thinks He goes too far. At the same time, she feels the deepest affection and humble surrender for the divine, which is this book's paradox. You will find the book both humorous and deeply devotional, a picture of a human being's dialogue with the divine with its dreams and heavenly visions. Illustrated with the master's artwork via Jalving.

The Holy Sh!t Moment

James Fell, 2019-01-22 Motivation expert James Fell teaches readers how to skip the hard part and go directly from intention to committed action. After years of helping people change, James Fell had a sudden insight: about sudden insight, significant life change doesn't often come from just putting one foot in front of the other, carefully observing and altering habits, slogging through baby steps toward new behavior. Rather, the research reveals that serious life turnaround usually happens in a moment with a flash of inspiration. Epiphany arrives like a lightning strike, rapidly shifting the recipient of such enlightenment onto a new path that creates a better life. Motivational psychology has traditionally focused on slow and steady, gradual improvement over time to reach a desired goal, whether it's weight loss, career change, battling addiction, or success in relationships. We've been told since toddlerhood that the tortoise beats the hare. But through compelling science and powerful stories, James Fell shows us that the hare has the edge: overwhelming desire can be awakened fast and furiously. When you learn to become attuned to that sensation of sudden awakening, a new path can be followed almost effortlessly because it feels like destiny. Everyone has the ability to experience the lightning strike. *The Holy Sh!t Moment* will teach you how to create a life-changing epiphany and go directly from intention to action.
