**From Harm to Healing** Ruth Montiel Arias,Liz Tyson,2024-09-17 A moving and engrossing photographic narrative exploring the lives past and present of some of the rescued monkeys currently residing at the Born Free USA Primate Sanctuary in South Texas USA From Harm to Healing combines photography and narrative to explore the stories of eight monkeys rescued from traumatic and abusive situations and rehomed to one of the largest animal sanctuaries in the United States the Born Free Primate Sanctuary With an honest and open approach to the work of sanctuaries the book seeks to consider the complexities and challenges of life after rescue It posits the work of sanctuaries not simply as a happily ever after for victims of the pet trade vivisection and zoos but as a journey toward recovery that may take years or even decades Wild animals such as monkeys remain caged even in sanctuaries of the absolute highest standards Understanding this the book explores the ethical obligations and challenges faced by the staff as well as the monkeys and their individual obstacles that must be overcome in the journey to recovery Ultimately From Harm to Healing seeks to share the individual tales of the monkeys from their perspective and makes the case that while sanctuaries are vital to protect animals from further harm they are not the answer to end animal suffering Indeed the only way in which we can end the suffering of exploited wild animals is to tackle the source head on In the meantime sanctuaries continue to pick up the pieces and do what they can to help victims of exploitation move from situations of harm to those of healing

**Chinese Traditional Healing (3 vols)** Paul Unschuld,Jinsheng ZHENG,2014-05-09 Research on past knowledge practices personnel and institutions of Chinese health care has focussed on printed text for many decades

The Berlin collections of handwritten Chinese volumes on health and healing from the past 400 years provide a hitherto unprecedented access to a wide range of data. They extend the reach of medical historiography beyond the literature written by and for a small social elite to the reality of health care as practiced by private households, lay healers, pharmacists, professional doctors, magicians, itinerant healers, and others. The nearly 900 volumes surveyed here for the first time demonstrate the heterogeneity of Chinese traditional healing. They evidence the continuation of millennia-old therapeutic approaches long discarded by the elite, and they show continuous adaptation to more recent trends. *Healing a Village* Mark Lefebvre, 2025-06-10 Offers a hopeful practical blueprint for building community-based recovery systems to combat addiction and save lives. This book is about hope. Over 107,000 fellow Americans died in 2023 from drug overdoses, and another 178,000 died from excessive alcohol use. Lethal illicit drugs such as fentanyl, methamphetamine, and xylazine are showing up on our streets and poisoning our fellow citizens, including those who may not even intend to use these toxic synthetic drugs. *Healing a Village* details a plan to build recovery capacity within a community to remove barriers and improve access to service for individuals and families seeking help from addiction. The author provides real-life examples of successful community coalitions that have delivered positive outcomes for their communities, from prevention to harm reduction to treatment to recovery support. Lefebvre, the author, shares from his own experiences. When I exited our local hospital following a 4-day detox, there were no treatment and recovery resources within my community. I was forced to travel to the west coast for treatment. That is no longer the case in my community today. A case study of the Greater Portsmouth NH Recovery Coalition provides a deep dive on each of the elements of a Recovery Ready Community. The author uses personal struggles and successes in building recovery coalitions to validate the book's thesis of hope. *The Story of Life* Christopher McKeon, 2022-08-01 Creator, do you have a family? said my youngest. And he answered, Thus began our healing through awareness with Mina. How we address the human person, God who built our universe, the archangels, and many others in spirit world. Our explosive conversation over the next 18 hours revealed God, angels, humanity, why we are as we are, and our universe as never before imagined. Spirit mediums Christopher McKeon and his daughters Ayako and El shatter the paradigms and magical thinking handed down to us through history by religion, philosophy, mysticism, and science. Experience as we did healing of your trauma, pain, and suffering through gaining awareness of your true reality. Included are ten historical spirit persons who give short testimonies of their experiences to help explain certain aspects of our your life reality. You'll never feel the same or look at the world around you the way you did as your awareness takes flight from unawareness with new wings on new winds. Be prepared for a story of life like nothing you've ever experienced. Best of all, you'll learn how you too can talk to Mina, angels, your spirit family, and guides, and willing spirit persons to get your own answers without having to take ours on faith as a ground-floor participant in the nascent worldwide energy testing community. For Mina, this book is all about healing your pain and suffering by revealing our personal and larger human reality. You'll find it all inside A

Maya Dusenbery brings together scientific and sociological research interviews with doctors and researchers and personal stories from women across the country to provide the first comprehensive accessible look at how sexism in medicine harms women today In *Doing Harm* Dusenbery explores the deep systemic problems that underlie women's experiences of feeling dismissed by the medical system Women have been discharged from the emergency room mid heart attack with a prescription for anti anxiety meds while others with autoimmune diseases have been labeled chronic complainers for years before being properly diagnosed Women with endometriosis have been told they are just overreacting to normal menstrual cramps while still others have contested illnesses like chronic fatigue syndrome and fibromyalgia that dogged by psychosomatic suspicions have yet to be fully accepted as real diseases by the whole of the profession An eye opening read for patients and health care providers alike *Doing Harm* shows how women suffer because the medical community knows relatively less about their diseases and bodies and too often doesn't trust their reports of their symptoms The research community has neglected conditions that disproportionately affect women and paid little attention to biological differences between the sexes in everything from drug metabolism to the disease factors even the symptoms of a heart attack Meanwhile a long history of viewing women as especially prone to hysteria reverberates to the present day leaving women battling against a stereotype that they're hypochondriacs whose ailments are likely to be all in their heads Offering a clear eyed explanation of the root causes of this insidious and entrenched bias and laying out its sometimes catastrophic consequences *Doing Harm* is a rallying wake up call that will change the way we look at health care for women
