Healing Powers And Modernity Healing Powers And Modernity:

Healing Powers and Modernity Linda H. Connor, Geoffrey Samuel, 2001-02-28 What is the current state of traditional healing practices in contemporary Asian societies How are their practitioners faring in the encounter with Western science and its biomedical approach How are traditional healing practices being transformed by the politics of health within the modern nation state and by the processes of commodification typical of modern economies How do patients in Asian societies see the various healing options now open to them The authors all of whom are anthropologists observe the clashes and complementarities between traditional therapies and biomedicine which in its many manifestations is the dominant form of medicine supported by national governments and is emblematic of the modernity to which they aspire Some of the medical traditions such as the sophisticated herbal humoral systems of Tibetan medicine and Indian Ayurveda are becoming well known in the West both through scholarly study and through their increasing popularity with Western patients interested in their healing potential This book adds a new dimension to their study being focused unlike most previous writing on practice rather than textual tradition Healing Powers and Modernity Linda Connor, Geoffrey Samuel, *The Unsung Power of*

Women, Pilgrimage, and Rituals of Healing in Modern and Ancient Greece Evy Johanne Håland,2023-07-21 This book

investigates religious rituals and gender in modern and ancient Greece with a specific focus on women's role in connection with healing. How can we come to understand such mainstays of ancient culture as its healing rituals when the male recorders did not and could not know or say much about what occurred since the rituals were carried out by women? The book proposes that one way of tackling this dilemma is to attend similar healing rituals in modern Greece carried out by women and compare the information with ancient sources thus providing new ways of interpreting the ancient material we possess. Carrying out fieldwork being present during often enduring rituals within cultures despite other changes teaches one whole new ways of looking at written and pictorial records of such events. By bringing ancient and modern worlds into mutual illumination this text also has relevance beyond the Greek context both in time and space.

Healing, Performance and Ceremony in the Writings of Three Early Modern Physicians: Hippolytus Guarinonius and the Brothers Felix and Thomas Platter

M.A. Katritzky, 2016-12-05 While the writings of early modern medical practitioners habitually touch on performance and ceremony few illuminate them as clearly as the Protestant physicians Felix Platter and Thomas Platter the Younger who studied in Montpellier and practiced in their birth town of Basle or the Catholic physician Hippolytus Guarinonius who was born in Trent trained in Padua and practiced in Hall near Innsbruck. During his student years and brilliant career as early modern Basle's most distinguished municipal court and academic physician Felix Platter built up a wide network of private religious and aristocratic patients. His published medical treatises and private journal record his professional encounters with them as a healer. They also offer numerous vivid accounts of theatrical events experienced by Platter as a scholar student and gifted semi professional musician and during his Grand Tour and long medical career. Here Felix Platter's accounts many unavailable in translation are examined together with relevant extracts from the journals of his younger brother Thomas Platter and Guarinonius's medical and religious treatises. Thomas Platter is known to Shakespeare scholars as the Swiss Grand Tourist who recorded a 1599 London performance of Julius Caesar and Guarinonius's descriptions of quack performances represent the earliest substantial written record of commedia dell'arte lazzi or comic stage business. These three physicians records of ceremony festival theatre and marketplace diversions are examined in detail with particular emphasis on the reactions of respectable medical practitioners to healing performers and the performance of healing. Taken as a whole their writings contribute to our understanding of many aspects of European theatrical culture and its complex interfaces with early modern healthcare in carnival and other routine manifestations of the Christian festive year in the extraordinary performance and ceremony of court festivals and above all in the rarely welcomed intrusions of quacks and other itinerant performers.

From Ancient Myth to Modern Healing Pamela Donleavy, Ann Shearer, 2008-06-30 This book is about the energy personified by the classical Greek goddess Themis who brought her divine and natural right order to gods and humans and who still presides over law courts as the figure of Justice. In many Western countries today the growing dis-ease in minds and bodies of individuals is often echoed in whole communities. Rather than

coming together they seem to split apart in anger and distress But themis energy is equally powerful and can work to bring together and to heal From the battle of the Titans and Olympians to the oracle at Delphi and the banquet of the gods the stories of the goddess weave through these chapters to illuminate how themis energy is at work today The authors explore psychological healing in individuals and relate this to new research in neurocardiology on the subtle interactions of body and mind They show how the international movement for restorative justice is drawing on the same healing tools to benefit victims and offenders alike And they evoke the extraordinary story of the South African Truth and Reconciliation Commission which shows the world how themis energy can help transform a ravaged society This book deepens understanding of the psychological urge towards healing and wholeness which is as much a part of human beings as the urge to destroy It offers exciting new insights into Jung s unique approach to the relationship between individual and collective psychology It will appeal to psychologists who work with individuals and groups to lawyers and others concerned with the failure of current criminal justice systems and to people involved in religious political and other groups that seek to build communities which can encompass and even celebrate diversity rather than rejecting it in fear

Spirit Possession, Modernity & Power in Africa Heike Behrend, 1999 In Africa as well as in Europe many spirits and their mediums are part of local as well as global cultures Christian spirits named Hitler Mussolini or King Bruce Bruce Lee flourish in a pantheon of new holy spirits in Uganda waging war against the government Spirits of airplanes engines guitars and angels are found in Central Africa and thunder snakes and rain as well as playboys and prostitutes inhabit the spirit world in West Africa Spirit possession cults have continued to proliferate even in the secular West and continue to be a subject of intense interest Despite the continuous expansion of the field some problems are only now beginning to be explored The experts in this volume focus on questions of power the history and inner dynamics of cults the role of gender and images of the other based on research conducted during the last fifteen years in Africa The contributors document changes taking place across the continent as possession beliefs and practices respond to new circumstances and address the shifting local implications of an increasingly global socio economy Gender ethnicity and class are examined as intersecting forces and features of spirit phenomena The case studies presented are richly contextualized history social organization and upheaval alternative religious options all are considered relevant to an understanding of possession forms Contributors Leslie Sharp Heike Behrend Adeline Masquelier Mathias Krings Jean Paul Colley Alexandra O de Sousa Susan Kenyon Tobias Wendl Ute Luig and Linda Giles Co published with James Currey Publishers U K The Wisconsin edition is not for sale in the United Kingdom the traditional British Commonwealth excepting Canada nor in Europe

Modernity in Twentieth-Century West African Islamic Reforms Ousman Kobo,2012-08-27 In this book Ousman Kobo analyzes the origins of Wahhabi inclined reform movements in two West African countries Commonly associated with recent Middle Eastern influences reform movements in Ghana and Burkina Faso actually began during the twilight of European colonial rule in the 1950s and developed from local doctrinal contests over Islamic orthodoxy These early movements in turn gradually evolved in ways sympathetic to Wahhabi ideas Kobo also illustrates the modernism of this style of Islamic reform The decisive factor for most of the movements was the alliance of secularly educated Muslim elites with Islamic scholars to

promote a self consciously modern religiosity rooted in the Prophet Muhammad s traditions This book therefore provides a fresh understanding of the indigenous origins of Wahhabism *Early Modern Medicine* Olivia Weisser,2024-03-21 This collection offers readers a guide to analyzing historical texts and objects using a diverse selection of sources in early modern medicine It provides an array of interpretive strategies while also highlighting new trends in the field Each chapter serves as a study of a different type of source including the benefits and limitations of that source and what it can reveal about the history of medicine Contributors provide practical strategies for locating and interpreting sources putting texts and objects into conversation and explaining potential contradictions A wide variety of sources including account books legal records and personal letters provide new opportunities for understanding early modern medicine and developing skills in historical analysis Together the chapters highlight emerging methodologies and debates while covering a range of themes in the field from reproductive health to hospital care to household medicine With wide geographical breadth this book is a valuable resource for students and researchers looking to understand how to better engage with primary sources as well as readers interested in early modern history and the history of medicine Mental Health, Spirituality, and Religion in the Middle Ages and Early Modern Age Albrecht Classen,2014-07-28 This volume continues the critical exploration of fundamental issues in the medieval and early modern world here concerning mental health spirituality melancholy mystical visions medicine and well being The contributors who originally had presented their research at a symposium at The University of Arizona in May 2013 explore a wide range of approaches and materials pertinent to these issues taking us from the early Middle Ages to the eighteenth century capping the volume with some reflections on the relevance of religion today Lapidary sciences matter here as much as medical psychological research combined with literary and art historical approaches The premodern understanding of mental health is not taken as a miraculous panacea for modern problems but the contributors suggest that medieval and early modern writers scientists and artists commanded a considerable amount of arcane sometimes curious and speculative knowledge that promises to be of value and relevance even for us today once again Modern palliative medicine finds for instance intriguing parallels in medieval word magic and the mystical perspectives encapsulated highly productive alternative perceptions of the macrocosm and microcosm that promise to be insightful and important also for the post modern world *Modernity's Classics* Sarah C. Humphreys,Rudolf G Wagner,2013-02-11 This book presents critical studies of modern reconfigurations of conceptions of the past of the classical and of national heritage Its scope is global China India Egypt Iran Judaism the Greco Roman world and inter disciplinary textual philology history of art and architecture philosophy gardening Its emphasis is on the complexity of the modernization process and of reactions to it ideas and technologies travelled from India to Iran and from Japan to China while reactions show tensions between museumization and the recreation of presence It challenges readers to rethink the assumptions of the disciplines in which they were trained Demons and Illness from Antiquity to the Early-Modern Period Siam Bhayro,Catherine

Rider, 2017-02-06 In many near eastern traditions including Christianity Judaism and Islam demons have appeared as a cause of illness from ancient times until at least the early modern period This volume explores the relationship between demons illness and treatment comparatively Its twenty chapters range from Mesopotamia and ancient Egypt to early modern Europe and include studies of Judaism Christianity and Islam They discuss the relationship between demonic illnesses and wider ideas about illness medicine magic and the supernatural A further theme of the volume is the value of treating a wide variety of periods and places using a comparative approach and this is highlighted particularly in the volume s Introduction and Afterword The chapters originated in an international conference held in 2013 Ultimately Demons and Illness admirably performs the important task of reminding modern scholars of premodern health of the integral role played by these complex and shifting entities in the lives of people across the globe and through the centuries Rachel Podd Fordham University in Social History of Medicine 32 3 2019 Given the sheer breadth of its scope the volume is of course illustrative rather than comprehensive in its coverage yet there is a definite coherence to its content aided by the introduction and afterword which bookend the work and help begin to draw out the threads of commonality and difference As such it constitutes a significant and welcome resource for comparative explorations of historical cultural links between demons illness medicine and magic while offering a clear invitation to future work Matthew A Collins Journal for the Study of the Old Testament 43 5 2019
