legislative and human rights interventions and the frequent appellate judicial consideration which non patient claims have attracted in recent times The aim of the book is to have utility for both legal and medical professionals for academics and students of comparative medical negligence and tort law and for law reformers who may be interested in adopting certain features of statutory models elsewhere which pertain to some non patient claims such as those based upon Good Samaritan conduct Important parallels or counterpoints from other common law jurisdictions in which courts and commentators have grappled with the legal complexities of non patient claims are also discussed and critically analyzed Forthcoming Books Rose Army,2003 **Medical and Health Care Books and Serials in Print** ,1997 Subject Guide to Books in Print ,1996 Law Books Published ,1989 Bowker's Law Books and Serials in Print ,1998 **American Book Publishing Record** ,2006 *The Law of Health Care Finance and Regulation* Mark A.
