Health Issues Among Incarcerated Women:

Health Issues Among Incarcerated Women Ronald L. Braithwaite, Kimberly Jacob Arriola, Cassandra Newkirk, 2006 This text addresses the physical and mental needs of women prisoners and suggests that they can't be properly treated unless their lifestyles before during and after incarceration are considered The book is useful for policy makers as well as graduate students in the fields of criminal justice and health care Epidemiological Criminology Eve Waltermaurer, Timothy A. Akers, 2014-11-13 Epidemiological criminology is an emerging paradigm which explores the public health outcomes associated with engagement in crime and criminal justice This book engages with this new theory and practice based discipline drawing on knowledge from criminology criminal justice public health epidemiology public policy and law to illustrate how the merging of epidemiology into the field of criminology allows for the work of both disciplines to be more interdisciplinary evidence based enriched and expansive This book brings together an innovative group of exemplary researchers and practitioners to discuss applications and provide examples of epidemiological criminology It is divided into three sections the first explores the integration of epidemiology and criminology through theory and methods the second section focuses on special populations in epidemiological criminology research and the role of race ethnicity age gender and space as it plays out in health outcomes among offenders and victims of crime and the final section explores the role policy and practice plays in worsening and improving the health outcomes among those engaged in the criminal justice system Epidemiological Criminology is the first text to bring together in one source the existing interdisciplinary work of academics and professionals that merge the fields of criminology and criminal justice to public health and epidemiology It will be of interest to academics and students in the fields of criminology epidemiology and public health as well as clinical psychologists law and government policy analysts and those working within the criminal justice system **Women, Incarceration, and Human Rights Violations** Alana Van Gundy, Amy Baumann-Grau, 2016-02-17 A rich examination of the neglect and abuses occurring to women in correctional facilities Women Incarceration and Human Rights Violations draws upon a wealth of case studies from around the world and class action lawsuits to shed light on covert abuse such as sexual or physical abuse as well as overt abuse such as the denial of medical treatment Adopting a feminist framework this book offers a comparative evaluation of abuse in domestic and international correctional facilities demonstrating the extent to which women are at high risk of being sexually abused and re victimized in the correctional system where pregnancy and other specific medical and health issues are consistently ignored Calling attention to the necessity of addressing the gender specific needs of women who are incarcerated Women Incarceration and Human Rights Violations offers a review of current policy laws and regulation bearing on the issue while providing concrete recommendations and policy changes to address abuses As such it will appeal to sociologists criminologists and policymakers concerned with questions of gender penology and institutional abuse **Women in the Criminal Justice System** Tina L. Freiburger, Catherine D. Marcum, 2015-07-29

This book provides a rare up to date examination of women both as offenders and employees in the criminal justice system It presents the current state of females in the system through contributions by expert authors It discusses the criminal justice system s reaction to women as well as the successes and failures of its responses and current and future consequences It outlines the history of women in the context of the criminal justice system discusses specific women s issues in focused chapters and highlights key concepts statistics and legislation Each chapter ends with discussion questions to enhance understanding

Female Offenders and Reentry Lisa M. Carter,Catherine D. Marcum,2017-07-20 Often research concerning the female offender is scarce This book adds to the criminological literature on the topic of reentry for women focusing on the barriers women face as they return to society and adjust to life after incarceration Each chapter addresses specific issues challenges and obstacles affiliated with the hindrance of successful reentry processes associated with female offenders as well as data driven empirical studies While corrections has often misunderstood or overlooked the needs of returning offenders the shortcomings of the institutions have a greater impact on women than on their male counterparts particularly regarding the occurrence of social and medical problems especially those related to mental health and substance abuse *Female Offenders and Reentry* helps criminal justice students and practitioners see the full picture when considering the challenges faced by female offenders reintegrating into society

What Works With Women Offenders Rosemary Sheehan,Gill McIvor,Chris Trotter,2013-05-13 The number of women prisoners has been growing rapidly during recent years and in many places has more than doubled in the past decade significantly outstripping increases in the number of male prisoners and with particular consequences for minority ethnic black and aboriginal women who constitute disproportionate levels of prison populations in many countries including Canada the United States the UK and Australia *What Works with Women Offenders* provides a comprehensive analysis of the issues relating to work with women offenders Chapters are written by academics and professionals with a high degree of expertise in their specific field and its practical focus is designed to make it relevant to those working with women offenders Imprisoning women offenders does not solve the problems that underlie the involvement of women in the criminal justice system and a particular concern of this book is to identify and develop alternative responses that offer appropriate support and intervention to address womens underlying problems and reduce re offending The increase in womens imprisonment is very much an international phenomenon and the book also aims to share knowledge and experiences from different jurisdictions to be shared more widely and for the lessons learnt from good practice to be more widely disseminated

Health Issues in the Black Community Ronald L. Braithwaite,Sandra E. Taylor,Henrie M. Principles and Clinical

Interventions in Social Cognition Reddy, K. Jayasankara, 2024-03-27 There are a plethora of questions experts are asking surrounding the intersection of clinical intervention practices with social cognition How do neuro cognitive processes shape social understanding What experimental methods illuminate social cognitive complexities How can social cognition be applied practically in clinical contexts and psycho social rehabilitation How does social cognition influence decision making and cross cultural perspectives To find the answers to these concerns researchers can now look to *Principles and Clinical Interventions in Social Cognition* a research book which delves into recent advances practical applications and future trajectories within the intricate relationship between social processes and cognitive mechanisms It adopts a unique structure each chapter offering a concise introduction to a specific aspect of social cognition From foundational principles to applications in clinical interventions and individual well being it covers neuro cognitive processes experiments and social cognition in various clinical and health conditions The interdisciplinary nature of this book makes it an authoritative resource for professionals researchers and students in psychology neuropsychology cognitive psychology cognitive neuroscience social work sociology management allied health sciences and other areas of social science *Nursing Research* Patricia Munhall, 2012 Written for nurses and nursing students *Nursing Research A Qualitative Perspective Fifth Edition* defines qualitative research and presents information on the current state of this important field *Women Lifers* Meredith Huey Dye, Ronald H. Aday, 2019-06-08 The number of women in United States prisons has increased dramatically since the 1980s and has in proportion outpaced that of men s incarceration Despite these numbers incarcerated women and women lifers specifically represent a relatively small percentage of the overall correctional and lifer populations As such women lifers are easy to overlook discount and diminish as such a small group Many women lifers perceive themselves as a forgotten group most often those whom we lock up and throw away the key They feel excluded from prison programming within and from their own families outside They feel stigmatized by staff and other women in prison Aging fast many have real fears about declining health and losing family members over lengthy stretches of time However women lifers are some of the most resilient and strongest women who survive life in prison with the support of each other and religious faith often transforming themselves in the process of doing time While most of the women had extensive histories of trauma abuse and mental health issues few had prior experience as offenders Despite the term lifer many of these women will be released from prison after serving long sentences Beyond this basic profile there is much more to learn and share about the lives of women lifers Focusing on women s pathways into prison the ways they cope with life behind bars and their diverse reentry needs Meredith Dye and Ronald Aday give voice to women lifers and place their experiences within the larger context of penal harm policies The authors look at their physical and mental health family connections adjustment to prison prison supports and activities and experiences with abuse trauma while also looking at the growing public and policy concerns over mass incarceration in general *Women Lifers* provides insight into the lives of incarcerated women before during and following a life sentence

especially the population of those serving life sentences With the growing numbers of women lifers in the United States the authors emphasize the importance for the public and policymakers to understand the unique circumstances that brought these women to prison the policies that keep them there and the major challenges they face in carving out a successful life in prison and beyond

Women, Punishment and Social Justice Margaret Malloch, Gill McIvor, 2013-02-15

The prison has often been the focus for concerns about human rights violations and campaigns aimed at achieving social justice for those with an interest in the criminalisation of women To reduce the number of women imprisoned a range of policy initiatives have been developed to increase the use of community based responses to women in conflict with the law These initiatives have tended to operate alongside reforms to the prison estate and are often defined as community punishment community sanctions and alternatives to imprisonment This book challenges the contention that improved regimes and provisions within the criminal justice system are capable of addressing human rights concerns and the needs of the criminalised woman This book aims to provide a critical analysis of approaches and experiences of penal sanctions human rights and social justice as enacted in different jurisdictions within and beyond the UK Drawing on international knowledge and expertise the contributors to this book challenge the efficacy of gender responsive interventions by examining issues affecting women in the criminal justice system such as mental health age and ethnicity Crucially the book will engage with the paradox of implementing rights within a largely punishment orientated system This book will be of interest to those taking undergraduate and post graduate courses that examine punishment gender and justice and which lend themselves to an international comparative aspect such as criminal justice criminology international criminal justice courses sociology as well as professional training for practitioners criminal justice social work health who work with women in the criminal justice system
