Timeless Teachers and Ethical Visions K. K. Kuriakose, 2013-04-01 The industrial monoculture spreading across the globe is highly competitive, greedy, and egotistical in the shaping of educational policy. Global communities have accepted a model based on science and technology which lacks aspects that should be addressed in the goal of education. The book *Timeless Teachers and Ethical Visions* is a historical inquiry of educational concerns that have developed through the centuries. It is a systematic discussion of prominent educators including their theories and experiments: St. Thomas Aquinas, Al Ghazali, Ibn Khaldun, Leo Tolstoy, Mahatma Gandhi, John Dewey, and Paulo Freire. In addition, the inquiry investigates the strengths and weaknesses of the neoliberal educational policy, the suggestions to construct an educational policy considering the common good, criticize uncontrolled individualism while emphasizing the goal of education that enhances community consciousness to the learner. Finally, the aim of this book is to propose an alternative educational policy that is beneficial to the global community.
