Heartwounds The Impact Of Unresolved Trauma And Grief On Relationships:

Heartwounds Tian Dayton, 2023-01-24 Trauma has been defined as an interruption of an affiliative or relationship bond. If left unsettled, past grief and psychological trauma can continue to impact our adult relationships and cause us pain in our entire lives. It's possible we may not even realize what is happening to us because usually relationships fail in parts rather than in total. Early childhood losses or traumas can create pain that is relived in adult intimate relationships. Intimacy can provide both an arena for re-enacting old pain and for healing it. In this fascinating work, noted psychodramatist Tian Dayton shows readers how relationships can be used as a vehicle for healing, personal growth, and spiritual transformation. Through fascinating case studies and probing exercises, Dayton helps readers get in touch with the deepest parts of themselves and heal the wounds that plague them.

Emotional Sobriety Tian Dayton, 2010-01-01 Picking up right at the point where Janet Woititz's 1990 hit book *Adult Children of Alcoholics* left off, clinical psychologist Tian Dayton's latest contribution contains fresh perspectives and new analysis on how to gain back emotional stability after growing up with the trauma of addiction, abuse, and dysfunction. Dr. Dayton accomplishes this by presenting and explaining the latest research in neuropsychology and the role trauma plays on chemically altering the brain. With compassion and clear explanations and her own personal journey, Dayton teaches readers how to undo the neuropsychological damage of trauma, to rewire the brain, and reverse the negative effects trauma has on our future relationships and behaviors to gain emotional sobriety. In *Emotional Sobriety*, Dr. Dayton teaches readers how to understand the mind-body relationship of addiction and relationship trauma, how to rewire your brain to undo the negative effects trauma has on personal career and romantic relationships, how changing the way one lives and perceives adult relationships can change the way one thinks and feels, and vice versa.

Recovery from Anger

Addiction Verryl V. Fosnight, 2016-03-29 This book presents a paradigm shift about toxic anger. Anger is an addiction. Using the wisdoms of John Bradshaw Piatello, Melody Black, Alice Miller, and many other recovery giants, Verryl grew to understand himself in the context of his past traumas. He was finally able to apply all the theories of these authors to heal his anger and rage. This expansion of theory to the emotion of toxic anger results in a revolutionary new concept of anger as an addiction. This paradigm shift empowers a person to recover from rage as an ill person seeking to be well, as opposed to a bad person trying to act better. Telling yourself you are a bad person is a self-defeating message to your inner self, but an ill person can get well. He presents this new, simple, and enlightened treatment for anger in easy-to-follow language. Ultimately, these conclusions are illustrated as a set of simple diagrams that outline the full path of anger's development, starting from the core emotion of pain from early losses through raging behavior that is life-damaging. Using the revolutionary model of anger as an addiction, he demonstrates that anger can be healed. There is no need to rationally manage toxic anger while remaining a bad person. Toxic anger practically evaporates as an emotional impulse as the underlying pain is resolved in the good-but-ill person. Included: Research survey paper on Anger Management classes by Desiree Harris, M.C.
