## 1 Introduction to Microsoft Word 2010

**Document** A digital file in a format that word processors can understand. Short for Word Processing document.

**Microsoft Word** The most popular word processing application made by Microsoft Corporation.

**Word Processing** Computer software for working with words to create documents. Examples: Microsoft Word and OpenOffice Writer.

## 2 File Operations

**Close** To unload the current document.

**Compatibility Mode** An open mode for documents created in earlier versions of Microsoft Word. Limits access to newer features since the older format cannot store them.

**Default** The original settings for software features.

**Exit** To close the current program. ALT+F4

**File** A digitally-stored document, image, sound, or movie that can be read by computer software.

**File Extension** The type of file as identified by part of the file's name. Word processing formats include: .DOC, .DOCX, .ODT, .TXT, and .RTF.

**File Type** The type of content in a file and specifically the storage format of that content. Determines which applications can read the file.

**Folder** A storage container for files. Formerly known as Directory.

**New** Create a blank document. CTRL+N

**Open** The process of loading stored information. Same as Load, Retrieve. CTRL+O

**PDF** A popular document format that displays identically across all computer platforms. Invented by Adobe Systems. Short for Portable Document Format.

**Protected Mode** An open mode for documents from an Internet source. The document can be read, but full editing access is restricted to protect the user's computer from potential malware.

**Run** To load a program to the computer's memory for use. Same as Execute, Launch, Start.

**Save** To store the current open document as a file. If the file has not been saved yet, prompts for a filename. Same as Quick Save. CTRL+S

**Save and Send** New saving, sharing, publishing, and printing options available from [File] in Microsoft Office 2007 and higher applications.

**Save As** To store the current open document with a new name or location. CTRL+A

**Sharing** To give another user access to a document or a copy thereof.

## 3 Parts of the Word 2010 Window

**Backstage View** Commands and tools to manage document permissions, properties, sharing, and other meta settings. Same as File Screen.

**Command** An action that can be applied to a document. Examples include making text bold, inserting a table, and printing.

**Dialog Box** A pop-up window of command options that appears floating on top of the window.

**Group** An organized set of commands located on a Tab.

**GUI** Short for Graphical User Interface. The interface or environment that allow a user to interact with a program. Composed of buttons, sliders, menus, toolbars, drawers, and other controls.

**Quick Access Toolbar** Shortcuts to common commands like Print, Save and Undo that are located above the ribbon which is always visible. Similar to Quick Launch Toolbar.

**Ribbon** The new interface for Microsoft Office that organizes commands in tabs and groups instead of menus and toolbars. Began with version 2007.

**Status Bar** The bottom toolbar displaying document information and offering quick access to document views and zoom options.

**Style Gallery** A collection of preset styles for the selected object. Same as Drawer.

**Tab** A set of related command groups located on the Ribbon.

**Task Pane** A pop-up window of command options that appears docked on one side of the window. Same as Window Pane.

## 4 Parts of a Document

**Body** The main and central section of a document where the majority of the content will be included.

**Character** Any single letter, number, symbol, punctuation mark, or space.

**Footer** The document section below the Body. Content in this section is displayed and printed at the bottom of every page. Commonly contains page numbers.

**Header** The document section above the Body. Content in this section is displayed and printed at the top of every page. Commonly contains titles and author names.

**Line** A single strip of text from the left margin all the way to the right margin or the end of the text, whichever comes first.
