

# Examples of Soliloquy

Soliloquy is a dramatic convention, by means of which, a character in a play speaks to himself or directly to the audience.

**FOR EXAMPLE,**

"I must start work from tomorrow".

## Example in Literature

### "Hamlet" by Shakespeare

"To be, or not to be: that is the question:  
Whether this nobler in the mind to suffer  
The slings and arrows of outrageous fortune  
Or to take arms against a sea of troubles  
And by opposing end them. To die to sleep,  
No more; and by a sleep to say we end  
The heart-ache and the thousand natural shocks  
That flesh is heir to: 'tis a consummation  
Devoutly to be wish'd. To die, to sleep;  
To sleep, perchance to dream—ay, there's the rub:  
For in that sleep of death what dreams may come,  
When we have shuffled off this mortal coil,  
Must give us pause—there's the respect  
That makes calamity of so long life.

Baucum, 2022-07-29 This book seeks to add a needed introduction to a way of meditation used among early modern English Protestants influenced by Bishop Joseph Hall Furthermore the major role that Hall had in his *Arte of Divine Mediation* on late seventeenth century Protestant spirituality went beyond the practice of meditation and established a positive claim on the role of the imagination in shaping souls well into the modern period Within this context the questions related to ancient understandings of faith and the interrelationship of divine revelation are discussed with fresh insights for our own times If a revival of interest emerges again in Hall's work it would be a compelling and fresh impetus to reclaim the broken imagination evident in many parts of the Western Church

*Practical Form* Abigail Zitin, 2020-10-27 A groundbreaking study of the development of form in eighteenth century aesthetics In this original work Abigail Zitin proposes a new history of the development of form as a concept in and for aesthetics Her account substitutes women and artisans for the proverbial man of taste asserting them as central figures in the rise of aesthetics as a field of

philosophical inquiry in eighteenth century Europe She shows how the idea of formal abstraction so central to conceptions of beauty in this period emerges from the way practitioners think about craft and skill across the domestic industrial and so called high arts Zitin elegantly maps the complex connections among aesthetics form and formalism drawing out the understated presence of practice in the writings of major eighteenth century thinkers including Locke Addison Burke and Kant This new take on an old story ultimately challenges readers to reconsider form and why it matters Literature
