*Heuristic Inquiry* Nevine Sultan, 2018-04-27. Focused on exploring human experience from an integrative perspective. *Heuristic Inquiry: Researching Human Experience* Holistically presents heuristic inquiry as a unique, phenomenologically aligned, experiential, and relational approach to qualitative research that is also rigorous and evidence-based. The author describes a distinguishing perspective of this research that treats participants not as subjects of research but rather as co-researchers in an exploratory process marked by genuineness and intersubjectivity.
