Meditations for Transformation Larry Moen,2011-05-01 At some point we all seek to transform our lives It may be a spiritual or physical transformation the desire for a new career or a change in relationship Whatever the challenge of your transformation this collection of guided meditations offers you many paths to facilitate that change improve the quality of your life move through your daily existence and tap into your higher self The higher self consists of an inner core of pure beauty which is a descendant of Divine Energy This beauty exists deep within and can be perceived as a hollow cylinder of vibration and light The desire to see causes the reflection and at that point loving light penetrates the perception of fearful darkness and transformation occurs by turning inside out or reversing Creative imagery is a tool that can change the inner knowledge and perceptions by allowing you to see the outside world from within first Transformation occurs during the changing of the guard or reality from Nothing to Something or Something to Nothing *Meditations for Transformation* provides wonderful alternative realities from a cross section of professionals including physicians psychologists healers teachers and authors who have found ways to help themselves and the people they love attain inner change and growth I was first introduced to guided imagery at a workshop called Healing Your Inner Child taught by Margot Escott My journey into healing and opening up to the love that is available to all of us inspired me to pursue many paths of personal growth such as self hypnosis Tai Chi yoga visualization chanting and other explorations While experiencing these avenues I found I was growing into a more calm serene person Also many athletes achieve peak performance in their particular sports through practicing meditative visualization Professional golfers and tennis players are among those who use these techniques to

improve their games Visualizing that you can successfully manage a situation helps you confront and master that situation Visualize yourself already accomplishing a goal and your mind and body assume you have Certain thoughts produce related emotions If you think sad thoughts you experience unhappiness If you think fearful thoughts you experience anxiety If you think joyful thoughts you experience happiness For example think about your kitchen close your eyes and imagine what the room looks like Next see if you can remember all the colors in your kitchen Now imagine taking a piece of lemon slicing it putting it into your mouth and taking a bite Did you start to salivate This is an example of intended thought into imagery You now see that you do have the ability to change your reality When you enter this new reality family you may discover your thoughts no longer control you but that you are able to control your thoughts The intent comes from center Just as a potter molds his clay you are capable of transforming yourself in any manner you choose You can change your programming You can develop greater self awareness and self love and realize your full potential as a Spiritual Light Being having a human experience It is my hope that you will become the person you were truly meant to be May you obtain inner peace love serenity and happiness for the good you accomplish by guiding yourself and others Good luck and happy images

The Power of Self LeNora Millen, 2012-01-18 The Power of Self once natural and intimate to man speaks of the internal flame burning with the intensity of a time when humankind embraced power with a force that speaks to God and nature It was natural for man to breathe the energy of the gods into the lungs as the evolving of thought manifested upon man's entire existence Also bestowed upon man was enlightenment which on occasion was re-ignited to conquer and consume darkness of thought In the midst of standing within the shadows of doubt and fear the light that resonated inward was set free upon the soil from which thought springs forth Within the vastness of the universe nature taunts man to reconnect to a forgotten power as the fluttering wings of the butterfly soaring above the winds of change is likened to the phoenix rising from the ashes only to emerge with renewed spirit and hope Whispers of generations past tap into the conscious of a people connected to all that is in the stillness of the moment they await another sign Foretelling of things to come within the skies the rainforest echoes the cries of the ancestor's warnings They communicate telepathically no words spoken the energy spoke for them instead Connecting with nature while giving homage to the trees firmly rooted within the earth's surface the spark within man began to dim the I am would venture deep within the psyche of man Why and how did man lose touch with the essence of such a powerful inner strength Is it possible to transform thinking to connect to the I am The Power of Self is not just a book about transforming and evolving this book is about intimacy with self far beyond merely knowing self which is key to becoming more aware and self empowered
