Sexuality Peter Aggleton, Richard Parker, Felicity Thomas, 2015-04-24 The last twenty years have seen a growth in multi disciplinary work in the area of sexuality culture and health What was once a set of specialist concerns has been steadily mainstreamed Alongside this a broader interest has developed in social and cultural factors relating to sexuality and sexual health from family planning and STI management to gender and intimate partner violence and the technologisation of sex This book offers a research based overview of key topics relevant to social and cultural perspectives on sexuality and sexual

health Beginning with an extended introduction and divided into six sections it looks at culture sex and gender sexual diversity sex work migration and sexual violence Each section opens with an editorial discussion which places the theme and the chapters that follow in a contemporary context Six additional substantive chapters can be accessed online at www.routledge.com/cw/aggleton Including cutting edge conceptual and empirical material from around the world this is a key resource for students in and across a variety of academic disciplines in the social and health sciences It is especially suitable for readers from sexuality studies gender studies development studies anthropology and sociology as well as those with public health and social work backgrounds **Routledge Handbook of Sexuality, Health and Rights** Peter Aggleton, Richard Parker, 2010-01-30 The last two decades have witnessed an explosion of research on sexuality as the social sciences have worked to find new ways of understanding a rapidly changing world Growing concern for issues such as population women's and men's reproductive health and the HIV and AIDS pandemic has since provided new legitimacy for work on sexuality health and rights A detailed and up to date reference work The Handbook of Sexuality Health and Rights provides an authoritative overview of the main issues in the field today Leading academics and practitioners are brought together to reflect on past present and future approaches to understanding and promoting sexual health and rights Divided into nine parts it covers Pioneering beginnings Language discourse and sexual categories From sexuality to health The reproductive imperative How to have sex in an epidemic The choreography of sex The darker side of sex From sexual health to sexual rights Struggles for erotic justice This handbook surveys the state of the discipline and offers an examination and discussion of emerging controversial and cutting edge areas It is an essential reference for academics and researchers in the fields of sexuality studies sexual health and human rights and offers key reading for more advanced students **Remaking HIV Prevention in the 21st Century** Sarah Bernays, Adam Bourne, Susan Kippax, Peter Aggleton, Richard Parker, 2021-07-26 This edited collection brings together the social dimensions of three key aspects of recent biomedical advance in HIV research Treatment as Prevention TasP new technologies such as Pre Exposure Prophylaxis PrEP and the Undetectable equals Untransmittable U U movement The growth of new forms of biomedical HIV prevention has created hope for the future signalling the possibility of a world without AIDS In this context the volume discusses the profound social political and ethical dilemmas raised by such advances which are to do with readiness access equity and availability It examines how HIV prevention has been and is re framed in policy practice and research and asks How best can new biomedical technologies be made available in a profoundly unequal world What new understandings of responsibility and risk will emerge as HIV becomes a more manageable condition What new forms of blame will emerge in a context where the technologies to prevent HIV exist but are not always used How best can we balance public health's concern for adherence and compliance with the rights of individuals to decide on what is best for themselves and others Few of these questions have thus far received serious consideration in the academic literature The editors all leaders in the social aspects of HIV have brought together an

innovative and international collection of essays by top thinkers and practitioners in the field of HIV This book is an important resource for academics and professionals interested in HIV research Chapters Anticipating Policy Orienting Services Celebrating Provision Reflecting on Scotland's PrEP Journey How the science of HIV treatment as prevention restructured PEPFAR's strategy The case for scaling up ART in epidemic control countries Stigma and confidentiality indiscretions Intersecting obstacles to the delivery of Pre Exposure Prophylaxis to adolescent girls and young women in east Zimbabwe and The drive to take an HIV test in rural Uganda a risk to prevention for young people are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com

Gender, Global Health, and Violence Tiina Vaittinen, Catia C. Confortini, 2019-11-21 Beyond the metaphorical use of healthy society as a normative goal of Peace Research there is little engagement in contemporary Peace Research with questions of global health Simultaneously critical feminist approaches to the intersections of different forms of violence and health are rare in Global Health literature Bringing together feminist Peace Research and Global Health scholarships this edited book aims to enrich both scholarly traditions On the one hand the book provides perspectives from feminist Peace Research that help us to understand and analyse different forms of violence in the gendered realm of global health On the other hand the variety of empirical cases analysed in the chapters widens the horizons of Peace Research in its understanding of what it means to study violence peace and justice in everyday lives The themes dealt in the chapters of the book vary from questions of reproductive health to non communicable e.g. breast cancer and communicable diseases e.g. HIV AIDS war time sexual violence mental health therapeutic justice domestic violence and ageing and dementia This text will help students and researchers alike navigate Global Health through a feminist lens

Men Who Sell Sex Peter Aggleton, Richard Parker, 2014-11-13 All over the world men as well as women exchange sex for money and other forms of reward sometimes with other men and sometimes with women In contrast to female prostitution however relatively little is known about male sex work leaving questions unanswered about the individuals involved their identities and self understandings the practices concerned and the contexts in which they take place This book updates the ground breaking 1998 volume of the same name with an entirely new selection of chapters exploring health social political economic and human rights issues in relation to men who sell sex Looking at Europe North America Latin America and the Caribbean Africa and the Asia Pacific each chapter explores questions such as What is known about the different ways in which men exchange sex for money or other forms of reward What are the major contexts in which sexual exchange takes place What meanings do such practices carry for the different partners involved What are the health and other implications of contemporary forms of male sex work Men Who Sell Sex seeks to push the boundaries both of current personal and social understandings and the practices to which these give rise It is an important reference work for academics and researchers interested in sex work and men's health including those working in public health sociology social work anthropology human geography and development studies

Family Adrian

Wilson,2002-08-26 Adrian Wilson provides a comprehensive introduction to the study of the family The book opens with a chapter on family structure looking at the family historically and in cross cultural perspective Following this is a review first of theoretical approaches to the family including functionalist feminist Marxist and radical criticism and second how the family is studied sociologically Chapters 4 and 5 look at the changing British family and British families today and the concluding chapters examine family problems for example divorce violence one parent families and the family and the state

Novinky zahraniční literatury ,1995 Monitoring and Evaluation in Health and Social Development Stephen Bell,Peter Aggleton,2016-02-01 New approaches are needed to monitor and evaluate health and social development Existing strategies tend to require expensive time consuming analytical procedures The growing emphasis on results based programming has resulted in evaluation being conducted in order to demonstrate accountability and success rather than how change takes place what works and why The tendency to monitor and evaluate using log frames and their variants closes policy makers and practitioners eyes to the sometimes unanticipated means by which change takes place Two recent developments hold the potential to transcend these difficulties and to lead to important changes in the way in which the effects of health and social development programming are understood First there is growing interest in ways of monitoring programmes and assessing impact that are more grounded in the realities of practice than many of the results based methods currently utilised Second there are calls for the greater use of interpretive and ethnographic methods in programme design monitoring and evaluation Responding to these concerns this book illustrates the potential of interpretative methods to aid understanding and make a difference in real people s lives Through a focus on individual and community perspectives and locally grounded explanations the methods explored in this book offer a potentially richer way of assessing the relationships between intent action and change in health and social development in Africa Asia Europe and the Americas **Sexuality** Jeffrey Weeks,2022-12-30 Sexuality is the fifth revised and updated edition of the classic text for understanding human sexuality This new edition brings the arguments and evidence fully up to date and explores their implication for many topical controversies around LGBTQ rights the trans experience and gender fluidity same sex marriage sexual autonomy and consent and the meanings of sexual choice Since it was first published in the 1980s Sexuality has been at the cutting edge of the study of the social and historical meanings of sexuality Blending deep empirical knowledge with theoretical sophistication and an acute sensitivity to the politics of sexuality the book offers an informed framework for understanding the complexities of sexual life A key insight of the book is that the ways we think and speak about sexuality make a major contribution to the ways we live it Sexuality may be rooted in biological possibilities but it is shaped and experienced through languages and meanings which are inevitably historical and social in nature The book explores with clarity and precision the invention and re invention of sexual meanings the question of what constitutes a true sex and the biological and social roots of sexual difference the challenges of diversity the re making of sexuality as a highly divisive political subject and the implications of

the transformation of intimate life in the past few generations These are seen in the context of profound changes that are re fashioning the world especially globalisation cyber sex and the rise of new forms of agency including among women and LGBTQ people which have fed into new claims for sexual human rights This new edition of Sexuality will be an indispensable guide for students in the social sciences with an interest in the ever changing worlds of sexuality

Promoting Young People's Sexual Health Roger Ingham, Peter Aggleton, 2006-09-27 Valuable contributions on different aspects of sexual and reproductive health among young people are presented in this book with a focus on developing country contexts Key discussions on issues relating to young people and their sexual activities are brought together in one volume exploring how these issues are affected by the wider contexts in which they live The interdisciplinary team of contributors examine the practical and ideological barriers that inhibit progress in the development of educational and service level improvement of young people s sexual health as well as presenting examples of efforts made to overcome such difficulties Promoting Young People s Sexual Health looks to the future proposing ways forward in terms of policy and legislative changes necessary for long term improvements in young people s sexual health

Sex, Sexuality and Sexual Health in Southern Africa Deevia Bhana, Mary Crewe, Peter Aggleton, 2022-07-15 This book Sex Sexuality and Sexual Health in Southern Africa is structured around four major themes gender and sexuality diversity love pleasure and respect gender sexual violence and health and sexuality gender and sexual justice Chapters in this book analyse sexuality in relation to recent developments in the Southern African region and what this might mean for contemporary theory policy and practice Sex sexuality and sexual health are often viewed through a narrow biomedical lens ignoring the fact that they are profoundly social and historical in character The contributors in this book bring to light the entanglements of sexuality with respect recognition rights and mutual respectful pleasure Authors draw attention to partnerships allyships and feminist queer and trans coalitions in the pursuit of sexual health and justice in the region The book will be of interest to final year undergraduate and postgraduate students researchers and activists as well as those working in Women and Gender Studies Critical Sexuality Studies Sexual and Reproductive Health Development Studies Public Health Psychology Education Sociology and Anthropology

Families and Communities Responding to AIDS Peter Aggleton, Peter Davies, Graham Hart, 2012-10-02 The first comprehensive book on the vital topic of care and support networks for AIDS sufferers Examines a variety of family and community contexts including extended family households and gay community networks

The Health of Newcomers Patricia Illingworth, Wendy E. Parmet, 2017-01-24 Immigration and health care are hotly debated and contentious issues Policies that relate to both issues to the health of newcomers often reflect misimpressions about immigrants and their impact on health care systems Despite the fact that immigrants are typically younger and healthier than natives and that many immigrants play a vital role as care givers in their new lands native citizens are often reluctant to extend basic health care to immigrants choosing instead to let them suffer to let them die prematurely or to expedite their return to their home lands Likewise many

nations turn against immigrants when epidemics such as Ebola strike under the false belief that native populations can be kept well only if immigrants are kept out In *The Health of Newcomers* Patricia Illingworth and Wendy E Parmet demonstrate how shortsighted and dangerous it is to craft health policy on the basis of ethnocentrism and xenophobia Because health is a global public good and people benefit from the health of neighbor and stranger alike it is in everyone's interest to ensure the health of all Drawing on rigorous legal and ethical arguments and empirical studies as well as deeply personal stories of immigrant struggles Illingworth and Parmet make the compelling case that global phenomena such as poverty the medical brain drain organ tourism and climate change ought to inform the health policy we craft for newcomers and natives alike

The Routledge Handbook of Male Sex Work, Culture, and Society John Scott, Christian Grov, Victor Minichiello, 2021-03-20 Panoramic and provocative in its scope this handbook is the definitive guide to contemporary issues associated with male sex work and a must read for those who study masculinities male sexuality sexual health and sexual cultures This groundbreaking volume will have a powerful impact on our understanding of this challenging elusive subject While the internet has brought the previously hidden worlds of male sex work more starkly into public view academic research has often remained locked into descriptions of male sex workers and their clients as perverse Drawing from a variety of regions the chapters provide insights into the historical popular cultural social and economic aspects of sex work as well as demographic patterns health outcomes and policy issues This approach shifts thought on male sex work from a hidden social problem to a publicly acknowledged social phenomenon The book challenges myths and reconceptualizes male sex work as a discrete field Importantly it provides a vehicle for the voices of male sex workers and new and established scholars This richly detailed humane and innovative collection retrieves male sex work from silence and invisibility on the one hand and its association with scandal and stigma on the other The findings within have profound implications for how governments approach public health and regulation of the sex industry and for how society can make sense of the complexities of human sexualities A compelling scholarly read and a major contribution to a commercial sector that is often neglected in policy debates on sex work this handbook will be of great interest to scholars of criminology sociology gender studies and cultural studies and all those interested in male sex work

Media Sociology David Barrat, 2008-02-21 The British post war campaign to ban American horror comics neatly illustrates many of the pitfalls of media research It is the first case study used by David Barrat as he reviews this rapidly growing field of sociology He gives a clear account of how and why sociologists have studied the media looking in particular at the arguments about the effects of television video comics newspapers and radio on their audiences He explains how media organizations work how news is manufactured and what the political and commercial constraints can be He discusses the likely impact on new technologies including satellite and cable television on the media industry The final chapter is about methods of studying the media such as uses and gratifications content analysis semiology and structural approaches
