in his philosophy more generally and in its development For example in the Critique of Pure Reason Kant outlines the method of philosophy in general by contrasting it with the method of mathematics in the Critique of Practical Reason Kant compares the Formula of Universal Law central to his theory of moral judgement to a mathematical postulate in the Critique of Judgement where he considers aesthetic judgment Kant distinguishes the mathematical sublime from the dynamical sublime This last point rests on the distinction that shapes the Transcendental Analytic of Concepts at the heart of Kant's Critical philosophy that between the mathematical and the dynamical categories These examples make it clear that Kant's transcendental philosophy is strongly influenced by the importance and special status of mathematics The contributions to this book explore this theme of the centrality of mathematics to Kant's philosophy as a whole This book was originally published as a special issue of the Canadian Journal of Philosophy
