Understanding Media James Curran, Joanna Redden, 2024-04-04. An authoritative and accessible guide to the world's most influential force: the contemporary media. Our lives are more mediated than ever before. Adults in economically advanced countries spend on average over eight hours per day interacting with the media. The news and entertainment industries are being transformed by the shift to digital platforms. But how much is really changing in terms of what shapes media content? What are the impacts on our public and imaginative life? And is the Internet a democratising tool of social protest or of state and commercial manipulation? Drawing on decades of research to examine these and other questions, *Understanding Media* interrogates claims about the Internet, explores how representations in TV and film may influence perceptions of self, and traces overarching trends while attending to crucial local context from the United States to China, Norway to Malaysia, and Brazil to Britain. *Understanding Media* is an accessible and essential guide to the world's most influential force: the contemporary media.

Media, Politics and Penal Reform Gemma Birkett, 2017-07-04. This book examines the nature of relations between penal reform campaigners, journalists, and policymakers at the crime-media nexus. With a particular focus on women's penal policy, Birkett uncovers how reform strategies have augmented and developed under changing governments and the news-media spotlight. While penal reformers have traditionally relied on the language of humanitarianism to influence the direction of policy, there remains an array of political and cultural sticking points. With a policy-focused orientation, this study provides a number of pragmatic and practical tips for those wishing to think more strategically about their ability to influence politicians, the media, and the public. With unprecedented access to over thirty policy elites working around Westminster and Whitehall during the development of the Corston agenda, and beyond, this engaging and timely work exposes the triumphs and tribulations of such actors for the very first time.
