

INITIATION INTO HERMETICS

Franz Bardon is considered by many as the greatest adept of the 20th century. A tireless worker for the light, he survived Hitler's concentration camps but died a victim of communist persecution in 1958. He left behind him four legendary books which have become acknowledged classics of occult literature.

Initiation Into Hermetics is the first and most important of Bardon's works and is rightly regarded as the cornerstone of his entire opus. In contrast to other books on the subject of magic, Bardon focuses his attention on the practical training necessary for all true magical attainment. Using the four elements of fire, water, air and earth as a foundation, Bardon teaches the student how to master these universal forces in the three worlds of body, soul and spirit. The author leads the student step by step through exercises providing detailed training in the entire arcanum of magic, from basic techniques in thought control and imagination to advanced teachings in astral travel, the use of talismans and magic mirrors, and much more. No other writer has ever developed such a clear, concise, and practical program of magical development.

Merkur Publishing is pleased to present the new American edition of this Hermetic classic work in an entirely new translation.
