Inleidinge Tot De Hollandsche Rechtsgeleerdheid:

De verbindende eenzijdige belofte Caroline Cauffman, 2005 **Foundations of the South African Law of Defamation** Ranchod, 2024-09-09 *Compensation and Restitution in Investor-State Arbitration* Borzu Sabahi, 2011-06-30 This book examines the history principles and practice of awarding compensation and restitution in investor State arbitration disputes which are initiated under investment treaties The principles discussed may be applied to all international law cases where damage to property is an issue The book starts by tracing the roots of the applicable international legal principles to Roman law and from there follows their evolution through the European law of extra contractual liability and eventually through the Chorz w Factory case to principles of compensation and restitution in the modern law of international investment The greater part of the book is then dedicated to examination of the modern application of these principles focusing on the jurisprudence of international tribunals under various arbitral rules such as ICSID and UNCITRAL Rules Monetary compensation as the prevalent form of remedy sought and awarded in investor State disputes is discussed in more detail including topics such as the amount of compensation for damage resulting from breach of investment treaties or for lawful expropriation of foreign investor s property a brief overview of valuation methods supplementary compensation for moral damages interest costs and currency fluctuations as well as various principles that may limit the amount of recoverable compensation such as causation A full chapter is dedicated to the discussion of the theory and practice of awarding restitution in investor State disputes The book also covers the general principle of reparation in international law as applied in investor State arbitrations The topics discussed cover all the theoretical as well as practical issues which may be raised in awarding compensation and restitution in investment treaty disputes between States and foreign investors **An Introduction to Roman-Dutch Law** Robert Warden Lee, 1915 Legal Scholarship and Doctrines of Private Law, 13th-18th centuries Robert Feenstra, 2024-10-28 The emphasis in this present volume of Professor Feenstra s studies lies on the post medieval development of legal scholarship The opening two studies are concerned with the University of Orl ans in the 13th 14th centuries but from there the centre of interest shifts to the early modern Netherlands Two important themes are the teaching of law especially at the legal faculties of Leyden and Franeker and the doctrines of private law especially property contract and succession The figure of Hugo Grotius his sources and his influence dominate these articles Private Domain, Public Inquiry Anton Schuurman, Petrus Cornelis Spierenburg, 1996 **European Legal History** Randall Lesaffer, 2009-06-25 The rediscovery of Roman law and the emergence of classical canon law around AD 1100 marked the beginnings of the civil law tradition in Europe Between the twelfth and eighteenth centuries a highly sophisticated legal science of a truly European dimension was developed Since then the different European States have developed their own national legal systems but with the exception of England and Ireland they are all heirs to this tradition of the ius commune This historical introduction to the civil law tradition from its original Roman roots to the present day considers the political and cultural context of Europe s legal history Political

diplomatic and constitutional developments are discussed and the impacts of major cultural movements such as scholasticism humanism the Enlightenment and Romanticism on law and jurisprudence are highlighted This contextual approach makes for a fascinating story accessible to any reader regardless of legal or historical background **Calendar** University of Pretoria,1928 **PULP Guide: Finding legal information** Shirley Gilmore,2014-08-05 The PULP Guide is aimed at assisting researchers who are based in South Africa and who have an interest in South African law to access the sources of the law *Select Theses on the Laws of Holland and Zeeland* Dionysius Godefridus van der Keessel,1855 **Histoire du droit savant (13e-18e siècle)** Robert Feenstra,2023-07-14 This third selection of articles by Robert Feenstra complements the two previously published continuing his studies of doctrines of private law and of texts related to university teaching from the 13th century into the early modern period In the section on private law some pieces deal with the Middle Ages while others focus on Hugo Grotius Property is again an important topic but this time joined by legal personality foundations and negligence vicarious liability included The studies on the history of texts are mainly concerned with works dating from the 14th and 15th centuries One is devoted to a little known civil law teacher at the University of Orlans and his commentary on a part of the Digest The four others deal with treatises belonging to the so called vulgarisation of the droit savant medieval Roman and Canon law most of these include important contributions to the history of early printing incunabula and post incunabula Cette troisième sélection d'articles de Robert Feenstra complète les deux précédentes elle constitue la suite de ses études sur les doctrines de droit privé et sur des textes se rapportant à l'enseignement universitaire du XIIIe jusqu'au XVIIIe siècle Dans la section consacrée au droit privé quelques articles s'occupent en premier lieu du moyen âge d'autres focalisent sur Hugo Grotius La propriété est de nouveau un sujet important mais elle se trouve en compagnie de la personnalité juridique notamment par rapport aux fondations et de la responsabilité civile y compris la responsabilité du fait d'autrui Les études sur l'histoire des textes concernent surtout quelques ouvrages du XIVe et du XVe siècle La première est consacrée à un professeur de droit civil peu connu de l'université d'Orléans et son commentaire sur l'une des trois parties du Digeste Les quatre autres s'occupent de traités appartenant à la vulgarisation du droit savant droit romain et droit canonique au moyen âge The Historical Foundations of Grotius' Analysis of Delict Joe Sampson,2017-11-01 The Historical Foundations of Grotius Analysis of Delict explores the origins of a generalised model of liability for wrongdoing in the history of European private law Using Grotius as its focal point it analyses the extent to which earlier civilian and theological doctrine shaped his views It divides Grotius approach into three elements the infringement of a right fault and remediation and traces the development of parallel concepts in earlier traditions It argues that Grotius was influenced by the writings of Thomists to a far greater extent than has previously been acknowledged virtually eclipsing any sign of civilian influence except where Romanist learning had already been incorporated into theological doctrine *The Cambridge Companion to Hugo Grotius* Randall Lesaffer,Janne E. Nijman,2021-09-16 The Cambridge Companion to Grotius offers a comprehensive overview of Hugo Grotius 1583 1645 for

students teachers and general readers while its chapters also draw upon and contribute to recent specialised discussions of Grotius oeuvre and its later reception Contributors to this volume cover the width and breadth of Grotius work and thought ranging from his literary work including his historical theological and political writing to his seminal legal interventions While giving these various fields a separate treatment the book also delves into the underlying conceptions and outlooks that formed Grotius intellectual map of the world as he understood it and as he wanted it to become giving a new political and religious context to his forays into international and domestic law
