A History of the Lie of Innocence in Literature Rodney David Le Cudennec, 2017-05-11 This book traces the history of what it terms the lie of innocence as represented in literary texts from the late 18th century to contemporary times The writers selected here William Blake Herman Melville William Faulkner Graham Greene and Cormac McCarthy write at various points in which the western world was undergoing a process of secularization This work commences with a study of the bible demonstrating the extent to which innocence is realized there as a lie It identifies in the bible how innocence is used for political social and ethical expediency and suggests that the explications of each reference can be demonstrated to testify to an absence of innocence to indeed the lie of its supposed meaning In analyzing the selected texts emphasis is given to the continuation of biblical relevance even when the described world of social behavior works outside religious and biblical notions of good and evil Instead this book embraces an interconnection between Nietzsche's innocence of becoming and the biblical tree of life that had been rejected in western mythology It is this work argues the choice to sanctify the biblical tree of knowledge that presumed to know what was good and what was evil that brought about the lie of innocence The book focuses on the relationship between fathers and sons arguing that it is the orphan son cut away from paternal ties who embodies the possibility for the world to embrace an innocence of becoming It further shows with some optimism that in a post apocalyptic world as envisaged by McCarthy the son can be freed to choose the tree of life over the tree of knowledge

The Presumption of Innocence in International Human Rights and Criminal Law Michelle Coleman, 2021-03-03 This book provides a comprehensive analysis of the presumption of innocence from both a practical and theoretical point of view Throughout the book a framework for the presumption of innocence is developed The book approaches the right to presumption of innocence from an international human rights perspective using specific examples drawn from international criminal law The result is a framework for understanding the right that is grounded in human rights law This framework can then be applied across different national and international systems When applied it can help determine when the presumption of innocence is being infringed upon eroded violated and ensure that the presumption of innocence is protected The book is an essential resource for students academics and practitioners working in the areas of

human rights criminal law international criminal law and evidence The themes also have a more general application to national jurisdictions and legal theory The Presumption of Innocence Andrew Stumer, 2010-06-14 The presumption of innocence is universally recognized as a fundamental human right and a core principle in the administration of criminal justice Nonetheless statutes creating criminal offences regularly depart from the presumption of innocence by requiring defendants to prove specific matters in order to avoid conviction Legislatures and courts seek to justify this departure by asserting that the reversal of the burden of proof is necessary to meet the community interest in prosecuting serious crime and maintaining workable criminal sanctions This book investigates the supposed justifications for limitation of the presumption of innocence It does so through a comprehensive analysis of the history rationale and scope of the presumption of innocence It is argued that the values underlying the presumption of innocence are of such fundamental importance to individual liberty that they cannot be sacrificed on the altar of community interest In particular it is argued that a test of proportionality which seeks to weigh individual rights against the community interest is inappropriate in the context of the presumption of innocence and that courts ought instead to focus on whether an impugned measure threatens the values which the presumption is designed to protect The book undertakes a complete and systematic review of the United Kingdom and Strasbourg authority on the presumption of innocence It also draws upon extensive references to comparative material both judicial and academic from the United States Canada and South Africa **The Innocence Commission** Jon B. Gould, 2009-11 Beyond Exonerating the Innocent Author on WAMU Radio Convicted Yet Innocent The Legal Times Review Choice Outstanding Academic Title for 2008 DNA testing and advances in forensic science have shaken the foundations of the U S criminal justice system One of the most visible results is the exoneration of inmates who were wrongly convicted and incarcerated many of them sentenced to death for crimes they did not commit This has caused a quandary for many states how can claims of innocence be properly investigated and how can innocent inmates be reliably distinguished from the guilty In answer some states have created innocence commissions to establish policies and provide legal assistance to the improperly imprisoned The Innocence Commission describes the creation and first years of the Innocence Commission for Virginia ICVA the second innocence commission in the nation and the first to conduct a systematic inquiry into all cases of wrongful conviction Written by Jon B Gould the Chair of the ICVA who is a professor of justice studies and an attorney the author focuses on twelve wrongful conviction cases to show how and why wrongful convictions occur what steps legal and state advocates took to investigate the convictions how these prisoners were ultimately freed and what lessons can be learned from their experiences Gould recounts how a small band of attorneys and other advocates in Virginia and around the country have fought wrongful convictions in court advanced the subject of wrongful convictions in the media and sought to remedy the issue of wrongful convictions in the political arena He makes a strong case for the need for Innocence Commissions in every state showing that not only do Innocence Commissions help to identify weaknesses in the criminal

justice system and offer workable improvements but also protect society by helping to ensure that actual perpetrators are expeditiously identified arrested and brought to trial Everyone has an interest in preventing wrongful convictions from police officers and prosecutors who seek the latest and best investigative techniques to taxpayers who want an efficient criminal justice system to suspects who are erroneously pursued and sometimes convicted Free of legal jargon and written for a general audience The Innocence Commission is instructive informative and highly compelling reading *Beyond Innocence* Phoebe Zerwick,2022-03-08 A deeply reported gripping narrative of injustice exoneration and the lifelong impact of incarceration Beyond Innocence is the poignant saga of one remarkable life that sheds vitally important light on the failures of the American justice system at every level In June 1985 a young Black man in Winston Salem N C named Darryl Hunt was falsely convicted and sentenced to life in prison for the rape and murder of a white copyeditor at the local paper Many in the community believed him innocent and crusaded for his release even as subsequent trials and appeals reinforced his sentence Finally in 2003 the tireless efforts of his attorney combined with an award winning series of articles by Phoebe Zerwick in the Winston Salem Journal led to the DNA evidence that exonerated Hunt Three years later the acclaimed documentary The Trials of Darryl Hunt made him known across the country and brought his story to audiences around the world But Hunt s story was far from over As Zerwick poignantly reveals it is singularly significant in the annals of the miscarriage of justice and for the legacy Hunt ultimately bequeathed Part true crime drama part chronicle of a life cut short by systemic racism Beyond Innocence powerfully illuminates the sustained catastrophe faced by an innocent person in prison and the civil death nearly everyone who has been incarcerated experiences attempting to restart their lives Freed after nineteen years behind bars Darryl Hunt became a national advocate for social justice and his case inspired lasting reforms among them a law that allows those on death row to appeal their sentence with evidence of racial bias He was a beacon of hope for so many until he could no longer bear the burden of what he had endured and took his own life Fluidly crafted by a master journalist Beyond Innocence makes an urgent moral call for an American reckoning with the legacies of racism in the criminal justice system and the human toll of the carceral state Convicting the Innocent Brandon L. Garrett,2012-09-03 On January 20 1984 Earl Washington defended for all of forty minutes by a lawyer who had never tried a death penalty case was found guilty of rape and murder in the state of Virginia and sentenced to death After nine years on death row DNA testing cast doubt on his conviction and saved his life However he spent another eight years in prison before more sophisticated DNA technology proved his innocence and convicted the guilty man DNA exonerations have shattered confidence in the criminal justice system by exposing how often we have convicted the innocent and let the guilty walk free In this unsettling in depth analysis Brandon Garrett examines what went wrong in the cases of the first 250 wrongfully convicted people to be exonerated by DNA testing Based on trial transcripts Garrett s investigation into the causes of wrongful convictions reveals larger patterns of incompetence abuse and error Evidence corrupted by suggestive eyewitness procedures coercive interrogations unsound

and unreliable forensics shoddy investigative practices cognitive bias and poor lawyering illustrates the weaknesses built into our current criminal justice system Garrett proposes practical reforms that rely more on documented recorded and audited evidence and less on fallible human memory Very few crimes committed in the United States involve biological evidence that can be tested using DNA How many unjust convictions are there that we will never discover Convicting the Innocent makes a powerful case for systemic reforms to improve the accuracy of all criminal cases **Parental Liability in EU Competition**

Law Peter Whelan,2023 Parental Liability in EU Competition Law assesses the shortcomings of the EU doctrine of parental antitrust liability and proposes a new framework for imposing liability that is theoretically robust effective in practice fair in substance and legally sound **Wrongful Conviction and Criminal Justice Reform** Marvin Zalman,Julia

Consuming Innocence Karen Brooks,2008 This is an academic look at the contribution of popular culture to the loss of innocence in today's children Publisher Anatomy of Innocence Laura Caldwell,Leslie S. Klinger,2017-03-28 Recalling the great muckrakers of the past an outraged team of America's best selling writers unite to confront the disasters of wrongful convictions Wrongful convictions long regarded as statistical anomalies in an otherwise sound justice system now appear with frightening regularity But few people understand just how or why they happen and more important the immeasurable consequences that often haunt the lucky few who are acquitted years after they are proven innocent Now in this groundbreaking anthology fourteen exonerated inmates narrate their stories to a roster of high profile mystery and thriller writers including Lee Child Sara Paretsky Laurie R King Jan Burke and S J Rozan while another exoneree's case is explored

in a previously unpublished essay by legendary playwright Arthur Miller An astonishing and unique collaboration these testimonies bear witness to the incredible stories of innocent men and women who were convicted of serious crimes and cast into the maw of a vast and deeply flawed American criminal justice system before eventually and miraculously being exonerated Introduced by best selling authors Scott Turow and Barry Scheck these master storytellers capture the tragedy of wrongful convictions as never before and challenge readers to confront the limitations and harsh realities of the American criminal justice system Lee Child tells of Kirk Bloodsworth who obsessively read about the burgeoning field of DNA testing cautiously hoping that it held the key to his acquittal until he eventually became the first person to be exonerated from death row based on DNA evidence Judge John Sheldon and author Gayle Lynds team up to share Audrey Edmunds s experience raising her children long distance from her prison cell And exoneree Gloria Killian recounts to S J Rozan her journey from that fateful knock on the door and the initial shock of accusation to the scars she carries today Together the powerful stories collected within the Anatomy of Innocence detail every aspect of the experience of wrongful conviction as well as the remarkable depths of endurance sustained by each exoneree who never lost hope

Defendant Participation in the Criminal Process Abenaa Owusu- Bempah, 2016-10-04 Requirements for the defendant to actively participate in the English criminal process have been increasing in recent years such that the defendant can now be penalised for their non cooperation This book explores the changes to the defendant s role as a participant in the criminal process and the ramifications of penalising a defendant s non cooperation particularly its effect on the adversarial system The book develops a normative theory which proposes that the criminal process should operate as a mechanism for calling the state to account for its accusations and request for official condemnation and punishment of the accused It goes on to examine the limitations placed on the privilege against self incrimination the curtailment of the right to silence and the defendant s duty to disclose the details of his or her case prior to trial The book shows that by placing participatory requirements on defendants and penalising them for their non cooperation a system of obligatory participation has developed This development is the consequence of pursuing efficient fact finding with little regard for principles of fairness or the rights of the defendant

Miscarriages of Justice in Canada Kathryn M. Campbell, 2018-06-12 Innocent people are regularly convicted of crimes they did not commit A number of systemic factors have been found to contribute to wrongful convictions including eyewitness misidentification false confessions informant testimony official misconduct and faulty forensic evidence In *Miscarriages of Justice in Canada* Kathryn M Campbell offers an extensive overview of wrongful convictions bringing together current sociological criminological and legal research as well as current case law examples For the first time information on all known and suspected cases of wrongful conviction in Canada is included and interspersed with discussions of how wrongful convictions happen how existing remedies to rectify them are inadequate and how those who have been victimized by these errors are rarely compensated Campbell reveals that the causes of wrongful convictions are in fact avoidable and that those in the criminal justice system must exercise greater vigilance and openness to the possibility of error if the problem of wrongful conviction is to be resolved

Africa's Radicalisms and Conservatisms, 2021-01-11 With Africa as its point of reference and departure this volume examines why and how the two concepts radicalisms and conservatisms should not be taken as mere binaries around which to organize knowledge It demonstrates that these concepts have multiple and diverse meanings as perceived and understood from different disciplinary vantage points hence the deliberate pluralization of the terms The essays show what happens when one juxtaposes the two concepts and how they are easily intertwined when different peoples lived experiences of poverty political and social alienation education intolerance youth activism social in justice violence etc across the length and breadth of Africa are brought to bear on our understandings of these two particularisms Contributors are Adekunle Victor Owoyomi Adeshina Francis Akindutire Adewale O Owoseni Bright Nkrumah Clement Chipenda Ebenezer Babajide Ishola Edwin Etieyibo Israel Oberedjemurho Ugoma Jonah Uyieh Jonathan O Chimakonam Madina Tlostanova Maduka Enyimba Muchaparara Musemwa Odirin Omiegbe Obvious Katsaura Olufunke Olufunsho Adegoke Peter Kwaja Philip Akporduado Edema Tafadzwa Chevo and Temitope Owolabi

Renzi, 2019-09-01 Offers a feminist theory of ignorance that sheds light on the misunderstood or overlooked epistemic practices of women in literature *An Ethic of Innocence* examines representations of women in American and British fin de siècle and modern literature who seem not to know things These naïve fools Pollyannaish dupes obedient traditionalists or regressive anti feminists have been dismissed by critics as conservative backward and out of sync with even threatening to modern feminist goals Grounded in the late nineteenth century's changing political and generic representations of women this book provides a novel interpretative framework for reconsidering the epistemic claims of these women Kristen L.
